TORONTO MARKETS.

TORONTO MARKETS.

TRADE.—Has been rather quiet all week.
Butter.—Holders are now offering considerable quantities and seem anxious to find buyers, but this is not to be done as all our dealers, except one, hold off most determinedly. The only sales reported are those of a lot of 65 packagus of selected at 13c, and a car of the same sort to-day at 13c at Guelph. For round iots there are no buyers at any price. Traffish advices continue to be unfavourable. In London there was nothing doing at latest advices, and at Liverpool quotations stood at figures equal to 15 to 17c here.

CHELSE.—The market has been fairly active. There was a lot of 48 boxes of mixed qualities sold last week at 9c, and two lots of 25 each sold at the same price this week. But a lot of fifty boxes of choice brought 05c outside. Prices of small lots have declined half a cent.

EGGS.—Receipts have been on the increase, and there are now as many to be had as are wanted. Prices have declined about a cent, the range at present being from 14 to 16c.

Ponk.—Therois very little doing. The enquiry has fallen oil, but holders are firm at unchanged quotations.

Broox.—The market is active. Sales were made last week of 200 sides of Cumberland at 65c; 100 sides at 7c; lots of one and two tons have sold at 74 to 74c; a good domand exists for these and still smaller lots.

HAMS.—Stocks are very light. The demand continues to be active and prices firm. [For a lot of 100 canvasced 136 has been paid and none could be had at a lower figure.

Lard.—Seems to be rather more active. There have been sales this week of 10s of 10s and 50 thintes

LARD.—Sceins to be rather more active. There have been sales this week of lots of 40 and 50 tinnets at 0 c. Small lots are steady at 10 to 10 c.

Hods,-There is very little doing; almost all sales are by contract; prices are unchanged

Balls are by contract, present of unemaged DHED APPLIS.—Are quiet but hold firmly. Hors.—Some few bales of old have been sold at 15c and some more shipped. Last years are enquir of for and if for choice quality would probably com-mand 60c, and scarcely any can so had.

MR. JAMES I. FELLOWS MR. JAMES i. FELLOWS—
Ivar Sir: In order that some other sufferer may
be benefited, you are at liberty to give this letter

he benefice, you are at mostly to give this fector publicity.

In the winter of 1869 I was taken ill with Disease of the Heart, accompanied by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Strup of Hypoposphites was recommended to me. The use offit during a very short time enabled me to resume my usus work, and now I am as well, fat and hearty as I could wish to be. Yours very truly.

The Heart being a great muscular organ, requires vigorous nervous force to sustain it. As Fellows' Hypoposphites restores the nervous element, it will always strengthen the Heart weakened through loss of this element.

NEW YORK AND ERIE RAILWAY

NEW YORK AND ERIE RAILWAY

Wo met with a paragraph the other day which is very descriptive of this grand thoroughfare of the world, and now give it for the benent of the Capadian public:

"The railways here, that is in England, are not better than our own. Either the English reads have deteriorated, or else our own have appreciated I assume that the fastest train on the direct line between Liverpool and London may be taken as a fair sample, and compared with similar trains on the New York and Erie Railwoy at home with which I am nost familiar. From Liverpool to London, two hunred and twenty miles, through first class fare is thirty-live shillings—say nine dellars on the New York and Erie, from New York to the vest end of Suspension Bridge, in Canada distance upwards of four fundred and fitty miles, in drawing room ceach, the fare is mue dollars and twenty-vive cents. We ride in by far the mest elegant ceaches on the Erie than here in England and at only one half the cost. We ride as fast, too, on the Erie as in England, about thirty-nine miles in oither case. In smoothness there is no ecinparison. Motion on the New York and Erie twelvel. Here one wheel falling necessitates disaster; on the Erie we can spin of from one to six, and, if jadiclovely selected, the coach is still mobile and not a wreck. Here it is difficult to talk, and impossible to write; on the Erie I do Lath intelligibly. I am proudly surprised, after an ansence of some years, we find an English railway no longer superior to others in the world in any particular that effects a travoller—no, not oven in the matter of dust and galos."

NOTE THE ADDRESS:

SOUTH-EAST CORNER OF KING AND CHURCH STREETS.

PROSPECTUS FOR 1872.

Fifth Year.

REPRESENTATIVE AND CHAMPION OF AMERICAN ART.

ALDINE: THE

AN ILLUSTRATED MONTHLY JOURNAL claimed to be the

HANDSOMERT PAPER IN THE WORLD.

"Give my love to the artist workmen of THE ALDINE who are striving to make their professoln worthy of admostlon for beauty, as it has always been for asofulness." - Henry Ward Breeker

THE ALDINE, while issued with all the regularity has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and gra-ordiliterature, and a collection of pictures, the rarest spectures, of artistic skill, in black and white. Although each succeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness as compared rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition or in price or character. The possessor of the volume just completed cannot duplicate the quantity of the paper and engravings in any other shape or number of volumes for ten times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the question. With the exception of a simil number specially reserved for binding, the edition of 1871 is already exhausted and it is now a scarce as well as valuable book.

New Features for 1872.—Art Department.

The enthusiastic support so readily accorded to their enterprise, wherever it has been introduced has convinced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and heartily support any sincere effort to clevate the tone and standing of illustrated pupilications. That so many weekly wicked sheets exist and thrive is no evidence that there is no market for anything botter—indeed the success of "THE ALDINE from the start is direct proof of the contrary. With a population so vast, and of such varied taste, a publisher can choose his patrons, and his paper is rather indicative of his own than of the taste of the country. As a guarantee of the excellence of this department, the publisher would beg to announce during the coming year, specimens from the following eminent American Arthsts.

W. T. RICHARDS,

GRANY, PERRINS,

W. T. RICHARDS, WM. HART, WM. HART, GEORGE SMILEY, AUG. WILL, JAMES SMILEY, FRANK BEARD, J. HOWS.

GRANY, PERRINS, F. O. C. DARLEY, VICTOR NUBLIO, WM. H. WILCON, JAMES H. BEARD, R. E. PIGUET, PAUL DIXON,

The pictures are being reproduced without regard to expense by the very best engravers in the country, and will bear the very severest critical comparison with the best foreign work, it being the determination of the publishers that THI AIDINE shall be a successful vimileation of American taste in competition with any existing publication in the

LITERARY DEPARTMENT.

Where so much attention is paid to illustration and get up of the work, to much dependance on appearances may very naturally be feared. To anticipate such missis lings, is only necessary to state that the editorial management of THE ALDINE has been intrusted to Mr. Richard Henry Stoddart, who has received assurances of assistance from a host of the most popular writers and poets of the country.

THE VOLUME FOR 1872.

will contain nearly 300 pages, and about 250, fine engravings. Commoncing with the number for January, every third number will contain a beautifully tinted picture on plate paper, inserted as a frontispiece.

The Christman number for 1872, will be a splendid volume in itself, containing fifty engravings, ifour in that and, although retulled a '21 will be sent without extra charge to all yearly subscribers

A Chromo to every Subscriber

was a very popular feature last year, and will be repeated with the present volume. The publishers have purchased and reproduced, at great expense, the heastful oil painting by Sois, entitled "Dame Nature's School." The chrone is 11 x 13 inches, and is an exact face-simile, in size and appearance, of the original picture. No American chrome which will at all compare with it, has yet been of ferred at rotal for less than the priconsked for THE ALDINE and it together. It will be delivered free, with the January number, to every subscriber who pays for one year in advance.

TERMS FOR 1872:

One Copy, one year, with Oil Chromo, 85. Five Copies, \$20. Any person sendin 10 names and \$40 will receive an extra copy gratis, making 11 copies for the money.

Any person wishing to work for a premium can have our promium circular on application. We give many beautiful and desirable articles offered by no other paper.

Any person wishing to act, pecmanently, as our agent, will apply, with reference, enclosing \$1 for outfit.
