FRUITS AND VEGETABLES.

The most important feature in this line is the large importation of 5,000 boxes of Japanese oranges which are selling at 75c per box. This is the first shipment of the season, and they are reported in perfect condition. Last season, the first shipment was received about the 17th of November, but they were not quite ripe. There will not be another shipment till the arrival of the Empress of India Dec. 29, consequently the demand is very active. Merchants are buying largely to hold them for the Christmas trade. It is expected that the second shipment will not arrive in good condition, they are almost sure to be over ripe. Santa Barbara oranges have dropped \$1.75 a box and are now quoted at \$3.50. California Messina lemons have advanced 75c, being now quoted at \$6.50 per box. Pears have advanced 10c. Sweet potatoes have advanced from 2½c to 3½c per lb. Silverskin onions from 1½c to 1¾c per lb. Persimmons are now on the market and quoted at \$1.75. It is expected that California grapes will last until Christmas, they are now in even better condition than they were two months ago, consequent upon the late dry weather in California.

Quotations are: Pears, (winter), \$1.50; grapes, Tokays, Black Ferrara and Verdal
