

BILATERAL ISSUES

Canada-Spain Fisheries Relations

- Canada is looking forward to enhancing the Canada-Spain bilateral fisheries relationship through continued cooperation.
- Early ratification of the United Nations Fisheries Agreement (UNFA) by the EU is a Canadian priority.
- We understand that all EU Member States are to complete their internal procedures by the end of this year.
- The Community and its Member States will then be able to deposit the necessary instruments of ratification.
- Canada welcomes Spain's attention to UNFA ratification.
