

	PAGE.		PAGE.
Prehension.....	113	of urine.....	234
Presbyopia.....	316	of milk.....	240
Primitive trace.....	332	Segmentation.....	331
Primitive or primordial cells.....	332	Semen or spermatic fluid.....	327
Primary forms of tissue.....	39	Sensations.....	291
Primary membranes.....	52	Attended to.....	292
Protein compounds.....	11	Not attended to.....	292
Proximate principles.....	10	Subjective and objective.....	292
Definition of.....	10	Serous membranes.....	83
Mode of extraction.....	10	Structure of.....	85
Classification of.....	11	Sight.....	310
First class of.....	13	Sighing.....	215
Second class of.....	19	Simple fibres.....	50
Third class of.....	28	Membranes.....	51
Pulse.....	197	Sleep.....	296
Venous.....	199	Smell.....	308
Ptoxis.....	299	Sneezing.....	214
Ptyalin.....	121	Sobbing.....	215
		Solitary glands.....	93, 150
R		Somnambulism.....	297
Red blood corpuscles.....	152	Sounds, subjective.....	321
Function of.....	179	Articulate.....	324
Size of, in different animals.....	154	Muscular.....	76
Color of.....	155	Special senses.....	308
Reflex action.....	267	Sperm cell.....	327
Registering ganglia.....	255	Spermatozoa.....	328
Reproduction.....	326	Spherical aberration.....	315
Three modes of.....	326	Spinal accessory nerve.....	363
Action of male in.....	327	Function of.....	303
Action of Female in.....	328	Spinal cord.....	269
Respiration.....	208	Structure of.....	270
Frequency of.....	212	Spinal nerves of.....	271
Quantity of air respired.....	212	Function of.....	271
Breathing air of.....	212	Reflex function of.....	273
Complemental air.....	212	Crossed action of.....	273
Reserve air.....	212	Brown-Séguard's views on.....	273
Residual air.....	212	Marshall Hall's views on.....	274
Influence of nervous power in.....	213	Constant activity of.....	275
Modification of movements of.....	214	Spiritualist doctrine.....	290
Changes in air during.....	215	Spleen.....	244
Changes in the blood by.....	218	Structure of.....	244
Effects of the arrest of.....	220	Malpighian bodies of.....	245
Elements of (Liebig).....	107	Function of.....	246
Retina.....	312	Peculiarity of splenic artery.....	245
Structure of.....	313	Spore or sporangium.....	327
Impressions on.....	318	Stammering.....	324
Retinacula.....	329	Starvation.....	112
Rigor mortis.....	76	Starch.....	19
Rima glottidis.....	322	Physical appearance of.....	20
Rythm of the heart.....	189	Conversion of into sugar.....	21
		Function of.....	21
S		Tests for.....	21
Salivary glands.....	120	Stearine.....	25
Structure of.....	120	Steatozoon folliculorum.....	102
Saliva.....	120	Stercorine.....	140
Composition of.....	121	Stomach.....	124
Function of.....	121	Mucous membrane of.....	90, 124
Saponification.....	25	Follicles of.....	125
Sarcos elements.....	70	Movements of.....	128
Sarcolemma.....	70	Sudoriferous glands.....	102
Sclerotic.....	310	Sugar.....	21
Sebatine.....	101	Function of.....	22
Sebaceous glands.....	101	Tests for.....	23
Secondary deposit.....	42	Supra-renal capsules.....	247
Secreting glands.....	229	Structure of.....	247
Secretion of bile.....	131	Function of.....	248
		Disease of.....	248
		Suspensory ligament of capsule.....	314
