

Boys' Favourite Library

COPYRIGHT GIFT BOOKS

Large Crown 8vo, Cloth Gilt, Fully Illustrated, 2s.

A boy's attitude to a book is generally one of warm approval or unqualified contempt. There are no half shades of opinion, and only the strictest sense of duty to the giver will ever induce him to so much as turn the pages of a book that does not at once appeal to him. It is quite a mistake to suppose that a boy wants rubbish and bloodshed—what he does want and insists upon having is healthy adventure and plenty of incident. All the volumes in the BOYS' FAVOURITE LIBRARY will be found to answer these requirements. They are by authors of repute, who have endeared themselves to boys, and can be given with the certainty that they will be read and thoroughly enjoyed.
