### PLATE V.—AFFECTIONS OF THE LARYNX

PAGE  
69

25.—Papilloma of the Larynx . . . . .	83
26.—Fibroma of the Larynx . . . . .	85
27.—Connective-tissue Tumour containing large Blood Spaces . . . . .	87
28.—Advanced Extrinsic Carcinoma of the Larynx . . . . .	87
29.—Carcinoma of the Larynx . . . . .	89
30.—Tumour of the Larynx simulating Malignant Disease . . . . .	91
31.—Paralysis of Crico-thyroids . . . . .	93
32.—Hour-glass Paresis . . . . .	95
33.—Unilateral Recurrent Paralysis during Phonation . . . . .	97
34.—The same during Inspiration . . . . .	97
35.—Bilateral Abductor Paralysis . . . . .	99
36.—Anterior Rhinoscopy with Hartmann's Nasal Speculum . . . . .	99
37.—Appearances seen on Anterior Rhinoscopy . . . . .	95
38.—Method of performing Posterior Rhinoscopy . . . . .	98
39.—Congenital Unilateral Atresia of the Choana . . . . .	100
40.—Hay's Pharyngoscope in place . . . . .	101
41.—Digital Examination of Naso-pharynx . . . . .	102
42.—Transillumination of the Antrum . . . . .	104
43.—Skiagram showing Diseased Right Ethmoidal Labyrinth and Right Maxillary Sinus . . . . .	105
44.—Typical Adenoid Facies . . . . .	107
45.—Method of applying Lavage to the Nose . . . . .	109
46.—Septal Deviation as seen by Anterior Rhinoscopy . . . . .	115

### PLATE VI.—AFFECTIONS OF THE NOSE

128

47.—Mucous Polypus . . . . .	128
48.—Atrophic Rhinitis—appearance after Removal of the Crusts . . . . .	129
49.—Hypertrophy of the Inferior Turbinates . . . . .	130
50.—Naso-antral (Choanal) Polypus . . . . .	131
51.—The same, after Removal . . . . .	132
52.—Enlargement of the Posterior End of the Inferior Turbinal . . . . .	133
53.—Aural Vegetations in the Naso-pharynx . . . . .	134
54.—Light Bath as used in Sinusitis . . . . .	162
55.—Method of holding Aural Speculum . . . . .	177
56.—Diagram of the Drum Membrane . . . . .	178
57.—Holt's Modification of Politzer's Method of Inflation . . . . .	182
58, 59.—Catheterization . . . . .	183, 184
60.—Syringing the Ear . . . . .	189

### PLATE VII.—AFFECTIONS OF THE EAR

192

61.—The Normal Drum . . . . .	192
62.—Healthy but Transparent Membrane . . . . .	193
63.—Acute Inflammation—early stage—Radial Injection of Vessels . . . . .	194
