

YORK COUNTY

BIG INTEREST UP IN NORTH YORK ALRENY

Will Minister of Justice Stay in the Field?—Live News From All Parts of County.

NEWMARKET, April 14.—(Special).—The fact that the Government of Ontario has decided to establish an agricultural school for York County at Newmarket gives ground for the liveliest satisfaction generally. The Aurora and Richmond Hill, both of which had pretensions to the institution, are naturally not very enthusiastic over the decision. In anticipation of the school coming here, the board of trustees of the Newmarket High School, in the enlargements effected, made preparations for just such a contingency, by building an additional room.

In St. John's Church today the devotion of the stations of the cross was held at 4 p.m. on Easter Sunday, mass will be held at 8:30 p.m.

A general meeting of the board of trade will be held in the fire hall on Monday evening, April 24.

Oscar Lundy and Fred Gunn, two young men employed at Cane's factory, received painful, tho not serious injuries, the one by getting his thumb cut in the palm, and the other by scalding during the week.

The Era commenting on the Liberal meeting of Saturday last, says: "North York Reformers are full of life and hope."

The announcement of Hon. Mr. Aylesworth, minister of justice, that he may reconsider his intention to retire, has caused a flurry in the Liberal camp, and matters are all at once and again in a state of uncertainty. T. C. Robinson, K.C., has planned a vigorous campaign and has already spoken at Stouffville, since his recommendation by the North York Liberal executive. While professedly loyal to the sitting member, a big majority of the younger members of the rank and file would, it is said, follow Robinson's advent into the fight. In the meantime, J. A. M. Armstrong, the young and aggressive candidate chosen by the North York Conservatives, and

whose bold deft aroused the minister of justice, is making a quiet, but effective campaign.

RAINS DO GREAT GOOD.

The light rains of Thursday, coupled with the generous downpour of Friday morning, will have a marvelous effect throughout the county in reviving the fall wheat and young grass seeds, and generally in setting the ground and promoting spring seeding, which is already somewhat delayed over other years. Last spring the sowing of grain was far in advance of this, but later cold and backward weather served to keep back vegetation until late in May. Given good weather from this time forward, the general progress may be as forward in the long run, as the supposedly early seasons.

WESTON.

License Commissioners Will Meet in Village Today.

WESTON, April 14.—(Special).—The West York license commissioners will meet in the council chamber here tomorrow at 3 p.m. to consider the applications for licenses for the ensuing year. It is supposed the Grand Trunk Railway will apply for a transfer of the license now held by Wm. Miles. The licensees, to their nominee, they having bought the property the hotel stands on. The amount to be paid Miles for his seven-year lease of the property is left to arbitration. Miles and the Grand Trunk have both appointed their arbitrators. These two will choose a third man. Miles vacates the premises tonight.

CENTRE YORK LIBERALS.

The meeting of Centre York Liberals, to be held in Markham Village tomorrow afternoon, is attracting a good deal of interest in the county, and the probabilities are that a big gathering of villagers and farmers from the surrounding district will be present to welcome Hon. A. G. MacKay, the opposition leader, who will be the chief speaker of the afternoon. It is expected that other leading Liberal speakers will be among the number, and possibly Mr. Robinson. The gathering is non-political in that everybody is invited to attend and hear the reciprocity and other issues discussed. The gathering is called for 2 p.m. and will doubtless start promptly

Three Years' Trial

has proven the "Safe Lock" fence to be, without a shadow of a doubt, the strongest and most serviceable wire fence on the market in Canada.

Look at the illustration herein. There is absolutely no kink required to prevent the stay from slipping on the strand, therefore the horizontal wires are as strong at the point where the stay is attached to it as at any other place along the wire.

The "Safe Lock" is the only fence made of No. 9 wire throughout that has no kinks or sharp bends in the strand wires.

An ordinary kink, such as is frequently put in wires to prevent the stays from slipping, weakens the wire to the extent of approximately two hundred pounds. By this you can appreciate the advantage gained by not being required to kink the strands, as the strain of a fence is all put upon the strands.

Write us for the name of our nearest agent and for our catalogue. We still have some territory open for life agents. Write us for agency if you can handle a good line of fencing and gates.

TEN CENTS A DAY QUITE ENOUGH

That the essential values needed amply to sustain a man for a day may be bought in the open market for ten cents a day, that all money paid over this is for flavor, cleanliness and convenience, is the statement of Prof. J. L. Henderson of the Harvard Medical School. Dr. Henderson points out that all human food, whether it be the rarest delicacy or the plainest fare, may be reduced to five different elements, two of which, or about 70 per cent. of the total, are water and salt. The other three are carbohydrates, protein and fat.

Dr. Henderson cites this bedrock price of life fuel as something which every man should keep in mind. As an authority on dietetics, he accords great importance to flavor in food, but he holds that when there is a ten cent minimum for necessities people should see that they are getting value for every cent they spend over that amount for flavor and the like.

Watrous is a thriving town in the heart of a prosperous country. Watrous has residents and business men of a character that makes a town conspicuous on the map—makes it known far and wide—makes real estate values climb.

Watrous is accumulating all the necessities and conveniences of city life at a rapid pace. It has now telephone, graded streets, several miles of sidewalks, an efficient fire department, and is arranging for an adequate water supply and electric lights.

Lots in Watrous at prices from \$100 to \$125 are certainly a bargain. They can be secured at this low price now, and on easy terms—10 per cent. down and 10 per cent. a month.

What would you give to be able to turn back the wheels of Time and buy inside lots in Winnipeg, Calgary, Regina, Moose Jaw, at the original prices? Even the prices of five years ago would have turned a few hundreds into thousands at any of these places. Everything points to Watrous as a city in the Moose Jaw and Saskatoon class. Everything points to a phenomenal rise in Watrous real estate values during the summer of 1911. The best investment for a few dollars is at Watrous. Buy now, before the boom!

Not the least of Watrous' attractions is Little Manitou Lake, three miles to the north. Little Manitou Lake will draw tourists and a colony to which those afflicted with rheumatism, and many who wish a pleasant, healthful camping spot, will equally contribute.

Plans are under way, whereby one or more commodious hotels will be built this year at Little Manitou Lake. Extensive Sanatoriums and numerous cottages are planned for building this year, and it has just been announced that a Lutheran College is likely to be located between Watrous and the Lake. Watrous—always ready to meet an opportunity half way—has offered the College a bonus of \$15,000 to build in or near the town.
