## Things for the Horse Show!

Everybody will want to go; everybody will want to appear at the best, and almost everybody will look this way for anything that may be needed. This is going to be a great week for Toronto, and the store is ready for a great trade.

No need of saying we have what you want—that's taken for granted. But all of these styles are brand new, and many of them are confined to us, with not enough of them to destroy anybody's notion of having something exclusive.

Where else will you find as much that's new and stylish in things to wear? Toronto doesn't answer the question and Montreal can't. You'll have to travel to New York or London and pay those "metropolitan" prices to find as much newness and novelty. Better save the journey. The fashion centre is here—now, and prices need not be compared to be found superlatively the lowest.

## Very Near Actual Cost!

We're not in business to lose money except on very special occasions. And yet people all the time insist that we sell at a loss and that we can't possibly make a cent at our prices. They don't stop to think that manufacturing has been completely revolutionized the last few years and that the possibilities of ready money are greater now than ever before. *Buying and selling strictly for cash* instead of asking three or six months' credit turns to your advantage in such prices as these:

- 48-inch All-wool Hosiery, in tan, dove, electric blue, moss green, myrtle green, brown and royal blue, regular price \$1.50, special at \$1.00.
- 50-yard Black All-wool Hose, regular price \$1.50, special at \$1.00.
- Heavy All-wool Hose, in navy blue and black, regular price \$2.00, special at \$1.50.
- Ladies' Fine Jean Corsets, in drab color, with 5-inch long waist, size 18 to 24, regular price \$2.00, special at \$1.50.
- Ladies' Choice Dongola Kid Buttoned Boots, patent calf top, pointed toe, regular price \$2.50, special at \$2.00.
- Ladies' Choice Kid Oxford Shoes, pointed toe, medium toe, fancy top, hand-torn soles, very flexible, B width, special for Tuesday.
- Men's Fine Fur Felt Hats, latest Philadelphia black, shape, with unbound edges, in black, tan, Cuba, drab and slate, regular price \$2.00, special at \$1.50.

This would never have been the store it is but for the ruling principle of "Cash and One Price." Credit is a moony thing—the longer given the more telescopic, and honesty pays for dishonesty in higher prices. There's a fashionable glamor for "running up a bill" and buying what you never would buy if "ready money" were the word. But the safe principle is the T. Eaton principle—cash. And the more you encourage it the less you pay proportionately for everything you need.

## THE REMEDIAL BILL

The House rose at midnight Saturday, after being in continuous session since 3 p.m. Monday—by far the longest sitting of any British legislature.

But the Remedial Bill was not passed. Nor will it be.

The Government have not yet abandoned their intention to propose to the House this afternoon that it go on with the measure. It is likely, however, that the Opposition will move the adjournment instead and discuss the recent mission to Winnipeg. That may take a day. After that it likely the Government will bring up the bill, and if the obstruction is continued announce the withdrawal of the measure and then propose to go on with the supplementary estimates. These may take a couple of days, or may go through in ten minutes.

The result will be that the Manitoba school question will go to the people in the forthcoming elections, whether it would have gone had the bill passed. In either case the bill was in a position to be voted on by the people.

Negotiations for a settlement of the question outside of legislation are still pending with the Manitoba Government.

## Three courses are now open to the Administration:

To go to the country under Sir Mackenzie Bowell, with the Remedial bill the platform.

To reconstruct the Government under Sir Charles Tupper, with remedial legislation in the program.

To reconstruct the Government under a new leader, with a fresh policy on the school question.

A fourth course, open, viz., to go to the country with every man for himself on the school question, with little or no changes in the composition of the Government, and to reconstruct after the election as the results warrant.

## IMPERIAL PROTECTION

The United States is a self-contained country. It produces the raw material necessary for the development of nearly every kind of manufacture. It is able to feed a population two or three times as large as that which occupies the country at the present time. The United States could get along very well without depending on the products of any other country.

For a single article, Great Britain is quite differently situated. While she leads the world in manufactures, she has to rely upon foreign countries for her food supplies. The United States, being a self-contained country, is in a position to apply an almost indiscriminate protective tariff against foreign imports.

Great Britain has not the capacity for producing the food required by its people, and no degree of protection would enable it to grow the cereals necessary for its maintenance. Protection is a mighty instrument for good when intelligently applied, but its efficacy is limited. Protection cannot exact food from a turnip, neither can it develop an industry in a country which is not suitably conditioned therefor. England cannot grow wheat. Canada cannot produce tea. A protective duty in either case would be an absurdity.

But while Great Britain is not self-contained, the British Empire is. We have lately realized the fact that the Mother Country and the colonies have the same destiny in store for them. As an Empire we are all-powerful and able to defy any probable combination of Powers. Disintegrated, we lose prestige, we lose authority, we become a power in name only.

Ladies' Black Cloth Cape, handsomely embroidered with jet, chiffon and satin, regular price \$30.00, special at \$25.00.

Ladies' Fine Black Circular Cape, full sweep, lined with black silk, narrow braid trimming, chiffon and satin ribbon, regular price \$17.50, special at \$15.00.

Ladies' Jackets, in fine box cloth, lined with black silk, sleeves collar and pocket flaps, trimmed with small pearl buttons, regular price \$12.50, special at \$10.00.

You'll have to travel to New York or London and pay those "metropolitan" prices to find as much newness and novelty. Better save the journey. ## There's One Best Shoe Store

## That's Guinane's

There's one big shoe store that welcomes competition and hails with glad acclaim honest shoe goodness—that's Guinane's.

No doubt you've often bought a pair of shoes for \$4, and a few days after you see in the window of another store the same shoes for \$2.50—and the latter place—that's Guinane's, sure.

Our \$3 Men's Shoes—"The Slater Shoes"—stand for the shoe goodness that costs \$5 in any other store. And in Ladies', Children's and Misses' Shoes it is the same at Guinane's. The style and comfort comes through the shoe making we know how to get—the prices come low because we know where to get them and when to get them. We see to it that the lasts are absolutely right—following nature's footlines—that the leather is right and the making is honestly done.

## BEAUTIFUL HOMES.

How to Make Home Beautiful and How to Make it Happy.

How to make home beautiful and how to make it happy are two different things, but they are closely related. Benjamin Cates of R. Cates & Son, general house decorators, 367 Carlton-street east, Toronto, tells how to make a beautiful home by the means of a few simple rules. His experience shows how home happiness can all come and be obtained. Read what Mr. Cates says:

"For the past two years I have had severe pain across my back; the urine was of thick consistency, with difficulty and burning sensation in voiding. I have taken one box of Doan's Kidney Pills, and am now well. The urine is now perfectly natural in character, pain all gone and my strength has returned."

After taking three doses I passed what I think were particles of gravel about the size of a grain of sand, in quantity about a large teaspoonful. I believe that these pills were the means of removing from my system the poisonous and effete matter which caused my trouble. I have gained rapidly both in weight and in strength ever since, and am only too happy to recommend the trial of the wonderful medicine to those afflicted with any form of kidney or bladder complaint."

Western Bank of Canada.

The fourteenth annual meeting of the shareholders of the Western Bank of Canada was held at the head office of the bank, Ottawa, on Wednesday, the 8th inst. The report of the directors is a short and a most satisfactory one, as even a cursory glance at its contents will show. It is one of the most flourishing and most successful banks in the Dominion, and this is largely owing to the thorough business capacity of the manager, T. H. McMillan. The shareholders are to be congratulated on the way in which their interests are conserved by the manager and directors. While there has been business depression, the Western Bank has concluded one of the most successful years in its existence. The net profits of the same amount to \$39,693.18, out of which a dividend of 7 per cent, per annum was paid. The new stands at \$105,000, or about 28 per cent, of the paid-up capital. The same judgment as to the future of the bank's business in its branches as at the head office. There have been no severe losses during the year, showing that the business is being managed in a judicious manner. The business is conducted. Judging by the report, the Western Bank stands on a firm basis, and is as well managed as any of our monetary institutions.

City Hall Notes.

The City Clerk has ordered a parade of the deputy returning officers for No. 1 Ward at the meeting of the council, which will be held on Monday next.

There is a possibility of the appointment of the new Board of Control coming up for discussion at the meeting of the council this afternoon. The act provides for the appointment of a board of control, and the council will have to decide whether to accept the second meeting of the council after the act receives the royal assent. The council will probably arrange on Monday for a special meeting to make the appointment.

The annual meeting of the Toronto Fire Department Superannuation and Benefit Fund, will form one of the subjects of discussion at this afternoon's meeting of the council.

A sub-committee of the Works will meet at 2:30 on Monday to endeavor to settle the question of land damages in connection with the widening of the Queen-street subway.

Forty boys and twenty girls have arrived at the Stratford Home from the Old Country.

John A. Ewart, Q.C., counsel for Manitoba on the school question, spent Sunday in Toronto and left for Manitoba last evening.

Mrs. C. W. Shaw of Vancouver, B.C., widow of the late Mr. C. W. Shaw, whose untimely demise was chronicled lately in these columns, has arrived home from the west on a visit to her relatives. Mrs. Shaw expects to return to Vancouver in a few weeks.

Dr. George S. Young, formerly on the Toronto World, son of Rev. Joseph Young of Stratford, commenced the practice of his profession in the town of Prescott last June. He has lately entered into partnership with Dr. Jones, who has long been a leading physician of that town. The friends of Dr. Young will be glad to hear of the success he is having in the native place of his father.

Assessment System to the Fore.

Life insurance at cost, yet on a permanent basis, is now demanded by the intelligent public. This demand is being met by the Colonial Mutual Life Association, a strongly guaranteed, purely Canadian company with headquarters at Montreal. The rapid strides it is making proves the popularity of its variety of plans. There is still room for respectable agents, who can obtain all information at the head office for Ontario, 28 and 30 Adelaide-street west, Toronto.

Don't Listen

To peddlers or unscrupulous grocers who offer imitations of Pearlina, and say, "It is just as good as," or "the same as" Pearlina. IT'S FALSE—Pearlina has no equal and is never peddled.

As surely, it cleans carefully, as well as easily. It is as cheap as soap and better. Anything that can be washed, can be washed best with Pearlina. It lightens labor and does lightning work.

As surely as we can figure, about eight millions of women use it. Do you? You will sooner or later.
