Your Effervescent Salt has been tested by me in a case of Indigestion accompanied by Constipation and Flatulency, and results have been most excellent. I consider it a most admirable remedy in Flatulency and Constipation. I have also demonstrated value of same in Hemiplegic Paralysis. Should you desire to do so, you are at liberty to publish this. Respectfully,

I have made use of Abbey's Effervescent Salt very successfully in several cases as a laxative and blood purifier.

I am free to say that I like the effect of your salt so well that I prescribe it now altogether instead of Citrate of Magnesia, Sedlitz Powder, etc. It is the best general saline laxative that I know of. Yours truly,

I am glad to say I find the Abbey's an excellent laxative and antacid. It gives good results in various forms of Dyspepsia and in Constipation, especially among pregnant and puerperal women. I have always thought that the effervescent salt was not half as well known and used in this country as they ought to be.
Yours very truly,

If the following opinion of your salt can be of any use to you, you are welcome to make any use of it which may seem proper. The most effective and elegant aperient Salt for clearing the gastro-intestinal tract is Abbey's Effervescent. It is the only one which I have found suitable for children, and for my own use. I have never found any preparation so satisfactory.
Yours very truly,

I have used the Abbey Effervescent Salt extensively as a constitutional remedy in my ophthalmological practice, and consider it to be the ideal saline laxative, superior from every view point to the Rochelle, Epsom and Carlsbad compounds. It forms a palatable and delicious draught acceptable to the most fastidious. Yours very truly,

I have prescribed Abbey's Effervescent Salt and think it should be better known. It is very pleasant and very decided in its results. Can recommend it to adults and children who have sluggish livers and rheumatic difficulties. They will find the salt valuable.

Your Salt has been "all in all" as claimed, it has been most beneficial in cases of depression, derangement of the stomach and liver, and, above all, helpful after severe operations to every patient. It has acted admirably in two cases of excess in stimulation. It has been recommended by the doctors of the Keokuk Medical College with whom we are connected, as an excellent remedy for cases of grip.

I have exhibited Abbey's Salt to an extent by which I know that it is beyond anything that I have heretofore used. I appreciate the fact that I can procure the preparation at any time from my druggist, and I shall continue to prescribe it.
Sincerely yours,

I think Abbey's Salt is an ideal preparation, in that it combines laxative and aperient properties in a grateful form, and is at the same time palatable. Yours very truly,
