Those in Ontario had great cause to be proud of the appointments which had been made to the high court bench of this Province, whether by Conservative or Liberal parties. When the bar heard of Mr. Justice Clute's selection to fill the important position, those in this county, although not intimately associated or connected with him, felt that the appointment was one which was justified, and they desired to extend to his lordship a cordial welcome, and to congratulate him on his elevation to the bench; to congratulate the county and the Province, and to trust that he might be spared to fill the high and important position with credit to himself and the council for 1907. with benefit to the Province.
