## Suffered From Heart and Nerve Troubles FOR THE Last Ten Years.

The heart has supplied to two sets of muscles which quicken, the other which slows its action. The proper action of these nerves, so important to the well-being of the heart, depends upon the general condition of the nervous system. If there be nerve derangement of any kind it is bound to produce all the various phenomena of heart derangement.

Knowing the intricate structure of the heart, and being aware how diseases of the nerves affect the heart, we have combined in Milburn's Heart and Nerve Pills a treatment that will cure all forms of nervous disorders as well as act on the heart itself, and in this is the secret of their success in curing so many cases of heart trouble which have defied all other treatment.

Mrs. John Riley, Dour, Ont., writes: "I have been a great sufferer from heart and nerve troubles for the last ten years. After trying many remedies and doctoring for two years, without the least benefit, I decided to give Milburn's Heart and Nerve Pills a trial. I am thankful to say that, after using nine boxes, I am entirely cured, and would recommend them to all sufferers."

Price 50c. per box or three for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Some of our professions must be judged by our possessions. If we but see God in all things, to review life is to renew faith.

## ZAM-BUK CURED A WHOLE FAMILY

Over and over again it has been demonstrated that Zam-Buk balm can cure scalp sores, eczema, scaly sores, ulcers, abscesses, etc., even when other remedies have signally failed. Mrs. G. M. Villiers, of 305 Stadacona Street, Hochelaga, Montreal, says: "My three young children contracted a kind of scalp disease and nothing I tried seemed able to heal the sores and cure the little ones of their trouble. I had used Zam-Buk myself for a bad finger which it healed very finely, so I thought I would give it a trial on the children's sores, and before long there was a marked improvement. I persevered with the treatment, until they were completely cured and their heads bore no trace whatever of the scalp disease which had defied so many preparations. As a family we have proved Zam-Buk a wonderful healer and would not be without it in the house."

**ZAM-BUK CURES** Eczema, Pimples, Running Sores, Spreading Scabs, Scalp Diseases, Poisoned Wounds, Festering Sores, Piles (Rind or Bleeding), Bad Legs, Discolored Ankles, Swollen Knees, Abscesses, Bolls, Ulcers, Ringworm, Scabby Dandruff, Erysipelas, Sore Sacks, Proud Flesh, Chapped Hands and all skin troubles.

Of all stores and druggists, 50c. a box, or post paid on receipt of price from the Zam-Buk Co., Toronto, 9 boxes \$3.50.

**Zam-Buk**

## HEAVY SENTENCE FOR APACHES

The Montreal Authorities Multic Three Parisian Thugs With Nineteen Years.

Montreal, Jan. 8.—Sentences amounting in all to 19 years' penal servitude were imposed upon three men in Montreal today. The names of the prisoners are Auguste Baillie, Emile Ardoine and Leon Lafargue, a trio of "Apaches" from Paris, whom the police regard as being of a particularly dangerous character.

Baillie and Ardoine first appeared before Judge Choquet to be sentenced for having stored explosives in their lodgings.

In giving evidence, Mr. Milton Lhersey, city analyst, said that he had analyzed the material found in the room. It had been contained in a valise, and amongst other things, he discovered four detonators, a piece of nitro-gelatin about three inches in length, a dynamite cartridge, eight ounces of cyanide of mercury (poison) and two bottles of what are commonly known as "knock-out" drops. Had the nitro-gelatin been exploded in the courtroom, it would more than likely have blown away the roof of the court.

The "knock-out" drops were generally inserted amongst wine, and could not be traced to any of the men appearing in a couple of minutes. The consequence of administering too large a dose would be the victim's death. Then, it was extremely dangerous to keep detonators in the same receptacle with nitro-gelatin, as had been done in this case. The gelatin could have blown up a house.

## GERMAN PAPER SCOLDS AMERICANS

The Mining Disasters Placed To "Criminal Carelessness" of Federal Government.

Berlin, Jan. 9.—America's "criminal carelessness" is bitterly attacked by Germany's leading newspaper, the Frankfurter Zeitung, apropos of the simultaneous occurrence of two terrible coal mine catastrophes in different parts of the country. The Zeitung says:

"When the General Slocum went down in New York harbor with a thousand women and children the courts called the accident to account, but not the shareholders who had been making money out of the tub and furnished the good-for-nothing lifeboats. 'We do not know who is to blame for the recent mining disasters. That is really not important. What is important is that the state does not do its duty—indeed, does not even know what its duty is. Criminal negligence leads often enough to terrible catastrophes in Europe, but the difference is that with us the state recognizes the protection of workmen, as well as all the economically weaker elements, as one of its most important duties, and is supported therein by public opinion, while in America much worse things must happen before the Government or the ruling classes will become so far advanced.

"America cannot continue indefinitely as she has done. This sort of technical progress over corpses must develop enormously the anarchistic instincts of the public. The Haywood trial in Idaho showed what dangerous dimensions the struggle between capital and labor can assume where the functions of the state collapse. It will be to the glory of President Roosevelt that he used his constitutional power to call attention to the perils with which the criminal egoism of the moneyed classes threaten the American people and the state. He has not accomplished much, it is true, and all signs indicate that the wealthy classes wish his successor to be a quiet man who will disturb neither their property nor their digestive capacity. It will be all the worse for their children if they accomplish their purpose."

## THE LOCAL HOUSE OPENS FEB. SIXTH

Toronto, Jan. 8.—Although not yet officially announced, it is asserted in Legislative circles, that the final session of the present Provincial Parliament will open on Feb. 6. The date is about a month later than last year, but the alterations are intended to meet the requests of a number of members that they should not be called together until affairs which must necessarily be brought before the House are so far advanced as to enable public business to proceed without the delay which occurred last session. For some time past the staff at the Parliament Buildings have been engaged on the public accounts, and the work has now been advanced to an announcement as to the meeting of the House may be expected after next week's cabinet council.

### Stormy Session Expected.

The session will be a stormy one, for it is the intention of the Premier to go to the country during the latter part of the summer, and the Opposition, led by the Hon. A. G. MacKay, have announced their intention of putting forward every effort to obtain such information as will give them an advantage during the forthcoming campaign. Both the meeting of the Legislature and the going to the country were foreshadowed some weeks ago by the proclamation ordering the voters' lists for the unorganized districts to be prepared. The preparation of these lists would not ordinarily have taken place until next month, but it is the Government's intention to bring down a redistribution bill, and as the claims of the north country have particularly to be considered, it was impossible for them to frame any scheme until some estimate of the population of those districts and its distribution had been formed. Generally speaking, it may be anticipated that Toronto will be given four new members, making eight in all, under the bill. One new seat each may be created in London, Hamilton and Ottawa, and three in New Ontario. It has been suggested that the Sudbury judicial district will form one of the new constituencies, and that the Hon. Frank Cochrane, the Minister of Lands, Forests and Mines, will be put forward as its first member, but the latest reports from the north show a growing population to such an astonishing extent in other portions of the area that Sudbury will probably have to remain in its present position. Brockville, which out of courtesy to the Hon. George P. Graham, the Government have not interfered with, will probably be made a safe Conservative seat, and with regard to the Province generally it is not expected that any bill will be made to return to the county lines for the demarcation of constituencies.

### Another Education Bill.

Such a measure alone would forestall a fighting session, but the Government will likely be likely that an attempt position with regard to their proposed amendments of the high and public school act. Four new normal schools are to be built, at Stratford, Hamilton, North Bay and Peterborough, respectively, and it is proposed that certain of the present model schools shall be discontinued. Dr. Seath, of the education department, has been engaged for some months upon a report respecting the schools, and he is now framing his report, by which the Government will not doubt be guided to a large extent, and which will include recommendations on the subject. A promised feature of the Government's new educational legislation is the promotion of technical education, and among the provisions may be expected the granting of a considerable sum in support of a technical school at Hamilton in compensation for the loss of Government support for the normal college.

Another important feature of the legislative programme will be the revision of the mines act, upon which work has already commenced. The protests which have been received with regard to the raising of revenue by a sliding scale royalty on ore will not doubt be met by making a flat rate for ores mined on concessions, and the introduction of revised regulations with regard to the handling of explosives, may also be introduced.

Prison labor reform has also been promised a place on the menu, and a licensing measure may be introduced, although up to the present the cabinet have not given the report of Mr. J. R. L. Starr, who presided over the license commission, any consideration from a legislative point of view.

It may also be anticipated that the Government will make some proposals with regard to the better provision for the care of the insane, for which purpose an appropriation of \$100,000 was made last session, and which has not been expended. An amendment of the lunacy act has also been foreshadowed, and provision will have to be made in respect of financing the necessary work to enable the Government to carry into effect their Niagara power policy.

### The Revenues.

So far as the financial standing of the Province is concerned, it is fortunately certain that the gloomy prognostications of some few months back will not be realized. Although, however, in the majority of the revenue-earning departments the estimates have been at least reached, the Government in framing them upon what they considered to be a conservative figure, and the increase which has been realized, will not be found to be in the same ratio as that for 1906. The succession duties have, it is true, long ago exceeded the amount which they were expected to produce, the railway tax and supplementary revenue tax generally shows a gratifying increase, but during the last few months of the year there has been a decided falling off in the revenue from the Provincial Treasurer's department, due to the recent financial flurry restraining the promotion of public companies. It was also feared that there would for the same reason be a considerable falling off in the revenue drawn from the lumber industry. Recent returns, however, show that the cut will practically be the same as in the previous year, and although the money is coming in slowly, still it is coming. It is not probable that the Government will submit any measure of law reform during the present Parliament. The work of revising the statutes, intrust-

ed to Chief Justice Meredith, Justices Oiler, Garrow, Anglin, Teetzel and Judge Snider is still far from completion. Another matter which is hardly likely to find a place in the Government's list is the proposal to enlarge the Parliament Buildings mooted last session. With the opening of the Legislature, the Hon. A. G. MacKay will for the first time take his place in the House as the official leader of the Liberal party in the Province.

In regard to private legislation there is already a lengthy list of bills, and in every way there are signs of a long and busy session.

## BRITISH

Ffranccon-Davies, the well-known baritone, is seriously ill at London.

Miss Florence St. John's jewels realized at Christie's a total sum of £2,542.

Ripe raspberries were picked last week in a garden at Woodbridge, Suffolk.

The King has sent a bounty of £3 to Mrs. Faulkner, of Sheffield, who recently gave birth to triplets.

The Earl of Crew's intended meeting at Bolton was canceled owing to his lordship's indisposition.

The premises occupied by the Barnsley Liberal Club were destroyed by fire, excepting the billiard room.

Mr. Henry Campbell-Bannerman's health has greatly improved, and the doctor's report is satisfactory.

During November, as the result of the Humberk craze, 2,138,000 sixpenny orders were paid by the postoffice.

The Princess of Wales has exhibited a number of dressed dolls and other articles at a bazaar at Kingston-Thames.

A woman who was charged at Acton with begging admitted that she was possessed of an income of 5s a week for life.

An American weather expert asserts that England will experience the severest winter known for the last 50 years.

"The True Imperialism" was the subject of Lord Curzon's address as president of the Birmingham and Midland Institute.

Owing to the present price of coal the Hull traders are contemplating laying up for the winter 25 per cent of their vessels.

A royal mail van and an electric tramway car collided in Goswell road, London. The driver of the van was seriously injured.

The Kaiser has consented to stand godfather to four of his seven sons and eighth children, of a workman named Norres, of Klee.

The report of the metropolitan police commission will be ready for presentation to the home office before the meeting of Parliament.

The Bishop of St. David recently confirmed 20 Nonconformist ministers at Clydach, Glamorgan. Both hope to receive holy orders.

Sentenced to two months' imprisonment for theft at Acton police court, a girl struck up the "Glory Song" as she walked to the cells.

There is great rejoicing at the birth of a son and heir to Lord and Lady Willoughby de Eresby, the future Earl and Countess of Ancaster.

A new record for a catch of fish was made by the Hull steam trawler "Eradicator." The catch comprised 1,090 kit of plaice, realized £275.

It is announced that, as a result of his three weeks' stay in the bracing air of Highcliffe, the Kaiser's health is now sound in every respect.

An audacious burglary has been perpetrated at a brass foundry in Birmingham, a ton of metal being placed on a stolen cart and driven away.

The Central Chambers of Agriculture discussed a resolution favoring the formation of an independent agricultural party in the House of Commons.

Sir Ernest Cochrane, Bart., has accepted the presidency of the North Wales branch of the United Kingdom Commercial Travellers' Association.

During a Primrose League dance at Densbury a Mr. Macmillan, of Batley, suddenly became unconscious as he was dancing, and died soon afterwards.

The Society for Propagation of the Gospel in Foreign Parts thankfully acknowledges the receipt of a donation of £500 from an anonymous benefactor.

A passive resistor who appeared before the Rochdale bench had only withheld twopenny of the poor rate, but the usual distress warrant was issued.

The body of a woman who is believed to have lost her way on the Lancashire moors in a blizzard and to have died from exposure, was found near Bacup.

Another riotous procession was organized by London students, who object to "the brown dog" anti-vivisectionist memorial. They were driven off by the police.

The late Miss Mary Ann Hewitson, Headingley, Leeds whose estate has been proved at £27,466, left many thousands of pounds to charitable institutions.

His Honor Judge Parry has been selected on the Lancashire County cricket committee. He takes the place of R. H. Spooner, who did not seek re-election.

The death has occurred at Cowbit, near Spalding, of Henry Pickering, at the age of 90, a well-known character. He had never ridden in a railway train.

In the reservoir, streams and lakes of the Birmingham corporation in the Elan Valley, 5,323 trout, weighing 2,750 pounds, were caught during the season just closed.

"Stammering Arm." "Red Finger." "The Best Next." and "Cold Water" were the names of a few "fairs" in South Cambridgeshire offered for sale at Pailthorpe.

"Will you give one of the hunt whips £5 to blow the horn over my grave?" was the dying request of John Ansley, a pottery manufacturer, of Blythe Bridge.

"Expressly, for my own funeral," was the inscription on a march played at the burial service of the composer, the organist of Trowbridge (Wells) parish church.

How it does irritate a woman to be outtalked by one of her own sex. The worm isn't the only thing that will turn; even a hair will turn gray.

## GILLET'S PERFUMED LYE

### CAUTION

Like all good articles, which are extensively advertised, Gillett's Lye is frequently and very closely imitated. In some instances these imitators have copied our directions and other printed matter word for word.

Be wise, and refuse to purchase these imitation articles, which are never satisfactory.

### Insist On Getting GILLET'S LYE

and decline to accept anything that looks to be an imitation or that is represented to be "just as good." In our experience we have never known an imitation article that has been a success or been on the market any length of time.

**E. W. GILLET COMPANY LIMITED**  
Winnipeg, Man. Toronto, Ont.

Tobacco dealers in India are greatly troubled by a moth or fly that finds its way into a box of cigars or tobacco, and lays an egg that soon develops into a destructive worm or grub, which bores through the wrapper into the body of the cigar and ruins it. Hardly anything will keep these pests out except to incase each cigar in a bottle or wrap it in tinfoil.
