## MOOSE HORN MINES (MONTREAL RIVER)

PROSPECTUS FILED WITH THE ONTARIO GOVERNMENT

We have told you to buy VICTORIA. We now URGE you to buy MOOSE HORN. We purpose to give Victoria management (stick at it until you ship the rich ore) to Moose Horn.

With 160 acres of land (four mining claims), three-quarters of a mile from Elk City, with assays from six distinct veins, running from 250 to 13,000 ounces of silver to the ton, with transportation assured during the winter by the Government Winter Road from Charlton, which crosses the property, WITH THE T. & N. O. RAILWAY SURVEYED TO RUN WITHIN 100 FEET OF THE MAIN SHAFT, which is down 72 feet, with fine ore from 60 feet, the Moose Horn Mine compares favorably with any mine on the Montreal River, and goes far to prove our assertion that in the Montreal River Section Cobalt has no mean rival.

All that Moose Horn needs is active development. It has the rich veins, BUT EVEN A BONANZA IN THE GROUND needs money to take it out and ship.

Enough stock has been underwritten to provide ample working capital for one year. The present offering is made to put in a complete plant, including six-drill compressor, etc. This stock is going fast, both here and in New York, where it is listed on the curb.

That Moose Horn will SHIP MACHINERY IN and SHIP ORE OUT before spring is a certainty.

PRICE FIFTY CENTS PER SHARE--SUBJECT TO ADVANCE.

# GET IN HEAVY ON THIS MARKET REACTION

DO YOU KNOW that TEMISKAMING will, early in December, double their dividend and to-day's prices that means 17 per cent. on your investment. Buy now and get this coming dividend. DO YOU KNOW that their output will be increased three times over by the new plant and that before six months, dividends will get another big hoist, as the ore is there blocked out now to pay them. Get into the good stocks and be sure to get in on this one. DO YOU KNOW, that CROWN RESERVE directors can hardly believe themselves how it is possible to pay the enormous dividends and divisions of profits which the ore returns make possible obtained through development only. DO YOU KNOW that this mine will astound the World when they start stopping out ore. DO YOU KNOW FURTHER that this Cobalt camp could continue to produce silver at big profits when other silver countries would be forced to close down if Silver were to drop to 40. At to-day's market prices you should buy, first, Temiskaming; second, Crown Reserve; third, City of Cobalt, Kerr Lake, La Rose, Scotia, Trethewey, Buffalo and Coniagas.

## WHAT CAUSED THIS REACTION?

The buying of new flotations caused selling of Standard stocks and interest sagged from the old stand-bys. I would advise you to put your money into the solid standard dividend-payers, and be on the safe side.
