ELECTION CARDS.

ELECTION CARDS.

ALDERMAN-

BREDIN CONTROLLER

TO THE ELECTORS:

Ladies and Gentlemen:

After serving the city as alderman for the past two years, I now at the urgent request of almost every friend I come in contact with, have decided to allow my name to be placed in nomination for the higher office of membership on the Board of Control,

thereby representing the city as a whole.

I might say that I have taken this step largely from a sense of duty of what I owe Toronto and its people, where as an individual I have prospered and grown with the growth of the city, so that finding myself with some leisure and still being possessed with a great deal of that restless energy that succeeded in building up the business with which my name is connected; if the experience I have gained has been of any benefit during the past two years, or if you think it will be of any service in the higher position to which I am aspiring, then I ask for your

The most important question before the people at the present time is the one of transportation of the people, more particularly those in the newly annexed or outlying territories. Being a resident of one of said districts where we have two car fares to pay, you can easily understand that my sympathies are with all those situated in like localities; for that reason I would like to see a majority vote cast in favor of the tubes, the larger that majority the stronger it will be against existing conditions.

I have always favored Bloor Street Viaduct, and believe that long ago we should have had direct communication on our most central and finest thoroughfare, running in an almost straight line from end to end of the newer and greater city, and one that I look for to see the centre of our population inside of five years. I look for the people of the west to gain almost if not as much advantage as those of the east by the carrying through of this

I do not look upon it that a candidate's platform is everything; of even more importance is your belief and confidence that he will deal in a fair and sane manner with every question that should arise, permitting neither local nor personal sentiment to play any part in his decisions, but with an eye single to the city's best interests.

One more and final reason why I am a candidate for the Board of Control is the greater scope for accomplishing more for my fellow citizens; all close observers will have noticed that the Board is gradually drawing more and more of the Council's work into its own sphere and to some is taking on in a marked degree the aspect of a Commission elected by the people. The best purpose the Council serves even at the present time is to act as a brake to refer back for further consideration any hasty or illadvised legislation, thereby giving more time for on the matter under consideration

Toronto is now a metropolitan city in every respect; the day is past when her affairs can be played with and her interests left to the control of those to whom selfish interests rather than the public good are the controlling passion, and no one realizes this more than one who has been so closely identified with the city's commercial and financial growth as I have been, and in offering myself as a candidate for the Board of Control, and a whole-hearted service in the city's welfare if elected, I do so as a business representative of the Toronto electors as a whole.

Soliciting your vote, influence and support, be-

Respectfully yours,

December 24th, 1909.

MARK BREDIN.
