

as we pass from room to room it is interesting to see with what rapidity each employee handles the material and makes it ready for the next process in manufacture. When the business was first commenced there were but two rude screw presses, but as proof of the growth of this house we need only say that there are now *ten screw and four powerful hydraulic presses* all of which are kept constantly at work. Every variety of plug, twist and pigtail tobacco is here manufactured and supplied to dealers at moderate prices, as may be seen on reference to page 121.

A member of the firm makes semi-annual trips to the Southern States where extensive purchases are made. In addition to the local trade we are pleased to know that Messrs. Hickey and Stewart are on the high road for the development of an extensive business in Labrador and Newfoundland. We wish them all the success which their energy so well deserves.

TRYON WOOLLEN MILLS.

Prominent amongst the industries of the Island, is the extensive Steam Woollen Factory of Messrs. Reid Brothers, situated at the important Village of Tryon, Prince County. This establishment was formerly known as the Stanfield Mills, and it was never in more efficient working order than it is at present. The Cloths and other goods manufactured here, are of superior quality, and the samples shown at the County exhibitions have received the highest commendations. The stock consists chiefly of ladies' and gentlemen's Over-Coatings, Suitings in merinos and coarse wool, Blankets made from fine pure combing wools, union and wool Shirtings, Druggets and Flannels, Carpets of various patterns, and many other articles, which for warmth and comfort, durability in wear and moderation in price, cannot be rivalled. When home manufactured Goods can be obtained at low figures, it seems marvellous that articles of inferior quality should be sought after simply on account of their *glossy* but too often *deceptive* appearance. Read advertisement on page 169.

W. R. BOREHAM.

In Charlottetown the name of W. R. Boreham, whose extensive boot and shoe store is on S. side Queen Square, is brought prominently before the mind of the shopper as one of the most active and enterprising merchants in the boot and shoe line and who does an extensive trade with both city and country buyers. The stock is one of the finest
