Williamson Expedition Submarine Motion Pictures at Opera

Motion Pictures at Opera
House

Something out of the ordinary are the famous Williamson Expedition Submarine moving pictures shown at the Opera House yesterday. Announced as the first motion pictures ever taken away down on the floor of the ocean, which they certainly must be, as no underwater pictures heretofore seen here have shown the many varied beauties of the unexplored regions under the sea so clearly and distinctly as do these Williamson pictures. The scenes were taken down off the coast of the Bahamas and Jamaica by means of a new and rather unique apparatus devised and patented by the Williamson Brothers which enclose the cameraman to sit in comfort and shoot the camera in all directions. How it is done is shown in the pictures are the famous Attachment of the ordinary are the famous Attachment of the ordinary are the famous Williamson programme of vaudeville and motion pictures. There will be no show tonight, as final touches are being given the stage and scenery. The management believes the new policy is what the people, want, and it is hoped there will be allowed a liberal patronage.

There will be no show tonight, as final touches are being given the stage and scenery. The management believes the new policy is what the people, want, and it is hoped there will be a liberal patronage.

There will be only one afternoon programme hereafter, and two evening shows—at 7.15 and 8.30 o'clock. There will be three vaudeville acts and also a good motion picture. The acts will be new each Saturday, and the performers will change their repertoire on. Wednesday. Prices will be 10 cents all over house afternoons; 10 cents evening, and 15 cents for reserved seats—front part of lower floor. GET RID OF HUMORS AND AVJID DISEASE

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions. They affect all the organs and functions, membranes and tis-sues, and are directly responsible for the

readiness with which some people contract disease.

For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. It is distinguished for its thoroughness in purifying the blood, which it enriches and invigorates. No other medicine acts like it, for no other medicine acts like it, for no other medicine acts like it, for no other medicine acts like it. For no other medicine acts like it, for no other medicine acts like it. For no other medicine acts like it. medicine acts like it for no other medicine is like it.

GREAT BARGAINS AT THIS MID—SEASON CLOTHING SALE.

Starting on Saturday morning, Nov. 18, and ending Saturday night, Nov. 25, at 11 p.m., Henderson's clothes shop at 3 King street will unload \$10,000 worth of high-grade clothing at smashing prices. Owing to a certain deal recently put through by Mr. Henderson, he finds that his present stock of men's clothing has to be sold out to meet the requirements of the above mentioned deal. As all kinds of clothing have advanced from 50 per cent. to 75 per cent., it's easy to see that getting clothing at big discounts off old values brings this stock that is being put on sale at about half of the present day values. Mr. Henderson says he has decided not to leave his custom tailoring department out of this sale, so he has decided to put 100 suit lengths present day values. Mr. Henderson says he has decided not to leave his custom tailoring department out of this sale, so he has decided to put 100 suit lengths out on sale at \$25 each. As it is almost impossible to buy today woollens of any description to sell less than \$32 to \$85, it is easy to see that these suits are real. it is easy to see that these suits are real bargains. Don't forget the place. It is down at No. 3 King street.

INDIAN SUMMER.

To the Editor of the Times:-Sir,-Will you please inform me what you know about "Indian Summer?" Have

you know about "Indian Summer?" Have we had it or is it yet to come? If qualities of memory are to be relied on, it always comes after the first snow storm, late in November, but we have had a fairly heavy fall of snow already, but it looks at present as if the winter has come to stay. Would you please ask our meterological friend, Professor Hutchisin, who makes the weather, whether he can throw any light on the subject? I was informed a few days ago by a gentleman who has seen a great many summers and a few winters, that he remembers many years ago one winter when we had a heavy snow storm in the middle of November and the cold weather continued all winter without an "Indian Summer," and that this was the only instance in his recollection where it has occurred. Why is it called "Indian Summer" anyway? I must confess I have not injinuity enough to solve the question.

"Sayess Kay."

The hero of the Boer War and the early operations in the present war, is seen here talking to London school boys.

The Hardest Iob

"I have come here," said the angry wan to the superintendent of the street car line, "to get justice; justice, Ir. Yesterday as my wife was getting off one of your cars the conductor stepped on her dress and tore a yard of frilling off the skirt."

The superintendent remained cool. "Well, sir," he said, "I don't know that we are to blame for that. What do you expect us to do? Get her a new dress?" "No, sir. I do not intend to let you off so easy as that," the other man replied gruffly. He brandished in his right hand a small piece of ailk. "What I propose to have you do," he said, "Is to match this silk."
