

LODGE'S IDEAS MISUNDERSTOOD

Didn't Intend That Saint John Should Pay Cost of More Facilities

Meant That City Should Urge Ottawa to Provide Needed Facilities

MONCTON, N. B., Dec. 8.—Mathew Lodge, C. N. R. director, when interviewed tonight regarding the comment of Com. Wigmore and others on his statement regarding Canadian National Railways traffic, published in today's Saint John Telegraph-Journal, pointed out that his remarks had been misunderstood. In saying that it is up to the people of Saint John to get busy and at once provide storage capacity for large quantities of grain, he did not intend to convey the idea that the expenditure for this should come from the city.

His point was that it was not up to the Canadian National Railways to provide the facilities, but the city should take the matter up with the Department of Public Works, Ottawa. Mr. Lodge drew attention to a statement he had made in Saint John on Friday last when a meeting of Maritime delegates who attended the Winnipeg Board of Trade Conference was held.

That showed clearly that he was not expecting the people of Saint John but the Department of Public Works to make the expenditure. It is a matter for Saint John to take up with Ottawa, instead of looking to the railway to provide the facilities.

Mr. Lodge said the people of Saint John had done a great deal. He was not suggesting further expenditures from them in the matter.

LODGE'S STAND.

Mr. Lodge's statement last Friday dealt with the question of Saint John facilities. He pointed out that the dredging operations in Courtenay Bay did not start until late in September and consequently the present facilities for loading freight at the east side of the harbor have been much curtailed. They were particularly interested in building up the Maritime ports to a position that they can take care of all traffic, both import and export. Mr. Lodge also dealt with grain routing.

HEALTH COMMITTEE VISITS FERTILIZER

Investigation of Complaint of Residents of East Saint John is Made

A committee of the sub-district Board of Health, consisting of John Kelly, chairman; Mrs. Richard Hooper, Miss Julia Lawlor, Commissioner R. W. Wigmore and Dr. William Warwick, went out to East Saint John yesterday to make investigations into complaints regarding the fertilizer plant there.

A delegation from East Saint John had complained to the board that water from the plant, having an objectionable odor, was flowing on the surrounding ground and was making a nuisance for the school, which is situated 600 feet due south from the plant and is the only building in the near vicinity.

The committee will take the matter before the special meeting of the board on Monday.

Mr. Kelly said yesterday that the proprietors were very anxious to do what they could in the matter and he believed that a new system of tankage would be put in at the board's request.

GETS \$500 GRANT.

The fertilizer plant has a grant of \$500 for which it takes charge of the disposal of the bodies of all horses and other animals killed in the city. In the course of the year there are about 70 horses killed, Mr. Kelly estimated. The delegation which waited on the board had urged the installation of a civic incinerator, but Mr. Kelly said that the cost of the incinerator would be considered prohibitive, he believed.

Don't Neglect The Children's Coughs and Colds

Mrs. Wm. W. Card, Bancroft, Ont., writes:—"Last winter my three children had very bad colds, and they would cough all night long, which was very annoying to the rest of the family. I could get nothing to help them until one night, a friend who was staying with me, advised me to give them

Dr. Wood's Norway Pine Syrup. I immediately got some, and after I had used four bottles of it my children became quite well again, thanks to Dr. Wood's."
