YOUTHFUL BROTHERS GO TO FOUR YEARS' PENAL SERVITUDE

Prague, Dec. 29—Two brothers named Schlimma, shop assistants, aged sixteen and seventeen years, have been condemned to four years' penal servitude for a particularly impudent railway robbery. Lieutenant Franz Wolfberger was traveling to this city by train last November, and was just putting on his overcoat as the train slowed down to enter the station when the brothers, who were watching him from the corridor, entered the compartment and thrust a gag into his mouth before he could free his arms from his overcoat. They then tied his hand and foot, and after taking his purse containing \$15 and a revolver from his pocket, they thrust him under the seat of the carriage. The brothers got clear away from the station before the unfortunate lieutenant was found by a porter. They were subsequently arrested when they attempted to rob a postman.

THE CHARLOTTE COUNTY FISHERMEN'S CONFERENCE

The annual report of the Charlotte County Wier Owners and Wier Fishermen's Union, which was presented at their annual meeting in St. George by George E. Frasley, the secretary, yesterday, dwelt on the successful season, the pleasant relations between the members and the packers and the complaints regarding the injurious effects of seine fishing. Reference was made to the erection of the new plant at Chatham. The report showed a cash balance on hand.

Fishery Overseer Calder urged that faster boats should be provided for the government officers to enable them to round up the violators of the fishing laws, and his recommendation was supported by all but one of the speakers.

The election of officers for the next season resulted as follows: Jas. Edgely, president; Capt. Peter Cameron, vice-president; Geo. E. Frasley, secretary-treasurer (all re-elected); executive, A. B. McNeil, Hugh McGregor, W. A. Holt, John Catherine, Ira McConnell, Andrew McGee, E. C. Lister, G. W. McKay, Geo. McIlroy, Michael Cassidy, J. P. McGowan.

WEEKLY COTTON LETTER

(From Messrs. E. & C. Randolph's Weekly Letter, furnished by J. M. Bonar & Sons.)

New York, Dec. 29—The census report published last Wednesday fully met bearish expectations as to its probable showing, as it indicated an average daily spinning of about 94,500 bales, with a total ginned to December 12—that is the close of business December 12—of 3,729,622 bales. These figures exerted no immediate influence of consequence in a pre-holiday market, but considering the extent of the decline which has occurred during the last three or four months, the rally, as a result of covering for over the past few days, is an improvement which is almost always preceded by various readjustments, was moderate enough to suggest that drastic action on the part of the market is not over-discounted the size of the crop, leaving the question as to its having sufficiently discounted the situation still to be determined.

Meanwhile, domestic trade conditions appear to be improving somewhat. There is nothing approaching a boom—in fact such a development is hardly to be hoped for in view of tariff agitation and the approaching presidential campaign—but the price of bleached goods has been advanced, and the recent weaker tone of the raw material markets has imparted a little more confidence to the buyer. This improvement, however, has been only a sentimental factor for the time being, by the apprehension of labor troubles in Louisiana.

On the whole, we cannot see that the developments of the last week have been such as to warrant any change in our opinion of the market. We still believe that the size of the crop is such as to prove an overwhelming burden on any bull movement, until, at least, the trade has more unmistakable assurances of a short supply than can exist for some time to come. If the market here, when under nine cents did not attract cotton from the south, it has done so around nine and a quarter cents, and if only a moderate flurry of spot selling preceded the holidays, the south has still to stand the test that will be furnished by the approaching period of new crop preparation, when the farmer must provide funds for the planting season. It may very well prove that bearish forecasts will not be so far from the minimum price of the season, but with so much cotton still in the south to be distributed, there would seem little to be gained by assuming a bullish position on the market.
