o John M. Gallant of the Parish of Shippegan

J. B. SNOWBALL'S MIRAMICHI WOOD TRADE CIRCULAR FOR THE YEAR 1900.

Following are portions of the annual Wood Trade Circular for the Maritime Provinces, issued for the past season by Hon. J. B. Snowball:

CHATHAM, NEW BRUNSWICK, CANADA, DECEMBER 31ST, 1900. Winter has set in earlier and with more severity than for many years. The frequent storms of the t season have been unusually severe on the North American Atlantic coast. Not a single casualty

however, occurred to vessels approaching or leaving this port. The spruce export business of the year has been only a moderately paying one. Early sales for choice dimensions were good, but not extravagant when enhanced cost of production is taken into consideration. Prices were not higher than first cost justified.

Spruce deals in 9 & 11 x 3, particularly the latter size in long lengths, are scarce and outside prices are demanded. Logs suitable for making these dimensions are only obtainable in limited and fast diminishing quantities, a fact that consumers are slow to realise.

Advanced freight and high insurance rates had a curtailing effect on fall business, producers refusing to ship without seeing a prospect of realizing first cost; consequently wintering stocks at this port are slightly larger than last year and shipments proportionately less.

Winter operations on this river are on a reduced scale, assumed to be 20 to 25 per cent. less than last

Shippers from this port are not able to keep pace with the cheaper productions from Nova Scotia and the Bay of Fundy ports, as the latter largely escape the high stumpage taxes to which lumbermen in the northern portions of New Brunswick are subject; and in view of the fact, also, that cheaper supplies and labor are available for their operations.

The stock of merchantable Spruce and Pine wintering here is 33,000,000 superficial feet, against 32,000,000 last year and 40,000,000 in 1898—4,500,000 superficial feet being Pine, against 6,293,000 superficial feet last year.

SHIPMENTS FROM MIRAMICHI FOR 10 YEARS FROM 1891 TO 1900 INCLUSIVE, were :-

1897—102 1898—113 1899—129 1900-122

THE SHIPPERS FROM THE PORT OF MIRAMICHI, FOR SEASON 1900, were :-

The Telegraph announces the fact in a couple of minutes. I have not as follows :heard anything as to my successor."

The Reappearance of Small Pox.

Westmorland, Northumberland and Gloucester are again visited by small pox. There were cases of the disease in and was found to be correct, that Mr. these counties a year ago when it was so James Hannay, LL D., had been retired winter and spring's epidemic was was supposed that his engagement was office. entirely stamped out through the well one which could not be summarily termindirected efforts of the Provincial sted. However, the report is confirmed Government and Boards of Health. by the Telegraph itself in this day's issue."

Bathurst. After being sometime in resume the impersonality and dignity of Gloucester, she became ill and Dr. tone which characterised it twenty years Meshan of Bathurst was called to see | ago; and many of its old friends will hail her. He is well acquainted with the the improvement with satisfaction. disease and he soon discovered that she. as well as one of her children, had the small pox. Being a member of the Board of Health, he made an investigation to ascertain who the persons were who had been exposed to infection by visiting the over the line between S:anley and Cross house where the woman was, and as a Creek, Already there is a large amount of result he placed a considerable number of | freight at Stanley awaiting shipment. Pashouses in the vicinity under quarantine.
One person who had visited the house
where the infected woman and child
marks a new and progressive era in Stanley were-a girl from Pokeshaw, and who and the surrounding country. The road had returned home-was not mentioned from Stanley village to Cross Creek station, to Dr. Meahan, and she spread the disease in that locality before he had an opportunity to take steps to prevent Freights can now be shipped at Stanley it. As soon as he learned the facts he Frederictou and thence east and west, or to communicated with the Provincial Miramichi points and thence east or west, Secretary, who personally went to Bathurst and engaged Dr. Mashan to

eradication of the infection. Dr. Lunam, fuel wood in Lime Kiln and all around of Campbellton, who is a specialist in Stanley, which the railway will render small pox, was engaged to cooperate with Dr. Meahan. All this was done the manufacture of railway sleepers, shingles, some two months ago and the work in clapboards and other lumber for export, as Gloucester is so successful that the well as an increased activity in the raising dread disease will, no doubt, soon be of farm products for export. Dr. Moore eradicated there. The girl who went to Pokeshaw great praise for their successful efforts in the carried the infection with her and, greatly add to the passenger travel to and amongst others to whom she communi- from Stanley, as it will be much more comcated it was a Mrs. Mahoney of Port | fortable than over the hills and dales by the Elgin, Westmorland county, whose bushand operates a mill in Gloucester and Stanley village. husband operates a mill in Gloucester.
