Write plain, sensible letters, giving detailed facts of ill health caused from improper food and explain the improvement, the gain in strength, in weight, or in brain power after using Grape-Nuts food.

It is a profound fact that most ails of humanity come from improper and non-nourishing food, such as white bread, hot biscuit, starchy and uncooked cereals, etc.

A change to perfectly cooked, predigested food like Grape-Nuts, scientifically made and containing exactly the elements nature requires for building the delicate and wonderful cells of brain and body, will quickly change a half sick person to a well person. Food, good food, is Nature's strongest weapon of defense.

Include in the letter the true names and addresses, carefully written, of 20 persons not very well, to whom we can write regarding the food cure by Grape-Nuts.

Almost everyone interested in pure food is willing to have his or her name appear in the papers for such help as they may offer the human race. A request, however, to omit name will be respected. Try for one of the 330 prizes. Every one has an equal show. Don't write poetry, but just honest and interesting facts about the good you have obtained from the pure food Grape-Nuts. If a man or woman has found a true way to get well and keep well, it should be a pleasure to stretch a helping hand to humanity, by telling the facts.

Write your name and address plainly on letter and mail promptly to the Postum Cereal Co., Ltd., Battle Creek, Mich.

WOODSTOCK.

A Bad Young Man Sent to Dorchester

Home on a Visit from Missoula—A Good Grain Crop—Died at Fort Fairfield.

WOODSTOCK, Sept. 28.—Chas. E. Beckwith, now of Missoula, Montana, and formerly of Grand Falls, is on a visit to this his native province. He was in Fredericton last week and came to Woodstock on Friday, taking in the exhibition that day. Mr. Beckwith has many friends in Woodstock, who were glad to see him. He was for many years connected with the 67th Batt., being in command of a company with headquarters at Grand Falls. In his early days he was intimately associated with the pioneers of railway construction around Fredericton and Woodstock. He learned land surveying under the late H. M. J. Garden, C. E., and Jas. Hartley, C. E. He was the first man to drive over the Newburg road from Woodstock to St. Marys. He was on the first engine that run over the road from Foster and Jewett, assisted by Wm. Chapman, A. E. and Arthur Bragdon. The steeple is very high, and it is a delicate bit of work painting it and gilding the ornamental top.

The Methodist church at McKenzie Corner has been entirely renovated and re-opened for divine service. The walls have been colored, woodwork painted, and cathedral glass replaces the plain windows. Altogether it is a very pretty church now.

A wedding which has much of interest took place at the Mouth of Keswick on Wednesday afternoon last, when Wm. A. Kennedy, in the G. T. R. yard here, and one of the South African volunteers, and Miss Bertha A. Merrithew, daughter of Mr. and Mrs. Abram Merrithew, were united in wedlock. The affair took place at the residence of the bride's father, Rev. Geo. Howard officiating. There were some fifty guests. The bride had many useful and pretty presents, in money, silver and glassware. The groom's present to her was a bracelet made from coins collected while he was with E Battery in the South African campaign. The young couple have returned to Woodstock and taken up housekeeping.

Sometime ago a youth about 16 or so summers was arrested on the charge of having stolen a bicycle from a party in Bristol. He was also charged with having purloined Woodstock to Debec, and from Fredericton five miles up, when the "narrow gauge" was under construction. Mr. Beckwith talks French fluently, and coming up on the train the other day he met a Frenchman from Madawaska, and was much pleased to find that his knowledge of French had not left him, in spite of his residence in a state where it is seldom heard. He left Woodstock for Tobique today, where he will spend a couple of weeks camping and shooting before returning to Montana.

Harvesting is all over, and the grain has been secured in splendid shape. Never, in fact, has a more favorable season been experienced in the memory of any farmer living today. At the same time a good rain would now be welcomed to help out the wells and to make ploughing easy.
