.....

Most Encouraging Reports from All Parts of the Province.

Mr. Hazen Addressed a Great Meeting in Carleton City Hall, Wednesday Night-Cheering News from the North Shore, Charlotte and the St. John River Counties.

A very enhancement of the continues where the server of the control of the contro ind no consistent internet which is get our share of the money it would still be used for the benefit of fisher-

bed by a man with Mr. Tweedie's po-fitical record. Mr. Tweedie was never known to do a turn of any kind for the liberal party before the last elec-tion except in the case when he voted against Mr. Adams for Mr. Mitchell.
He was one of those who worked faithfully for James Robinson, the conservative candidate in Northumber-land at the last election.
Next to Mr. Tweedie in order of rank was Attorney General Pugsley, who was nominated on the conservastill be used for the benefit of fisher-men as before.
Mr. Hazen was loudly applaud-ed as he closed by introducing Messrs. McLnerney, Wilson and Shaw. During the course of Mr. Hazen's spech the enthusiasm and repeated cheers of the crowd were remarkable. Messrs. Shaw, Wilson and McIn-erney followed in telling speeches, and the meeting closed with cheers for the King and the opposition candidates.

rank was Attorney General Pugsley, who was nominated on the conserva-tive ticket in Kings in 1896 but retired, The political situation in St. John

not because of any fault with the concity and St. John Co. is all that the most zealous opponents of the govern-ment could desire. There is an all servatives, but, as he claimed, in order to unite the conservative party. During that election he wore an in-dependent coat, but when he saw how things had gone he immediately after-wards became a rank ilberal. In fact,

der to unite the conservative party. During that election he wore an in-dependent coat, but when he saw how things had gone he immediately after-wards became a rank liberal. In fact, this glorious so called prop of the separate political parties in the course the course of the curse of the curse of the curse of the city on the curse of the curse of the curse of the city on the curse of the curse of the curse of the city on the curse of the c alimentary canal. If desired, they may also be dissolved in water and used as a douche, in adseparate political parties in the course separate political parties in the course of three months, which is an unequal-held in all other parts of the city on both sides of the harbor. Messrs. Agar and Anderson were in the city last night en route from an active pligrimage in Musquash, Pisa-next to Mr. Tweedie's voting and working for the conservative candidate for this county in the last dominton election. They had heard stories to that effect but did not believe them, because of what they regarded as a private assurance from Blair bimself in the last dominion servative. Should any man present vote for such a party? If he be a lab-erat of his party. If he be a conservadates. On Monday Messrs. Agar and An-derson drove through South Musquash and Chance Harbor, and in the even-ing held a humper meeting at Dirper tive he is upholding treachery. No doubt if the opposition party came into power again these very leaders would ing held a bumper meeting at Dipper son was willing to run nominally as a Harbor, when, says a local resident, liberal. On that news being circulatstrong conservatives. The claim is made that this election is run on party lines, but in only three constituencies do we find the govern-ment party called together in the capa-city of liberals. is run on party lines, but in only three constituencies do we find the govern-ment party called together in the capa-city of liberals. Mr. Blair spoke very eloquently in York Theatre the other night, but, strange to say, had nothing to say about provincial politics, but made the whole discourse on dominion lines this tablet." whole discourse on dominion lines. Mr. Blair semed to forget that it was Mr. Blair semed to forget that it was a local election campaign that was in progress and not a dominion cam-paign. Of course it is easy to see through this, as he had no ground to stand on in provincial lines. Mr. Hazen said that he always took the part allotted to him and the to rissey, and Blair's only excuse for not <text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text> Sight. The minister's statement at the St. John meeting this week lets the cat out of the bag and will place the stal-wart liberals of this county solidly be-hind the opposition ticket—Messrs.

as any county can be regarded befor by Hon. Geo. F. Hill, Geo. J. Clarke, W. H. C. Grimmer and others. Effi-cient committees were appointed and the active work of the campaign in-VICTORIA CO. augurated (Special to the Sun.) N. Mark Mills and John L. Carleton addressed a government meeting in Milltown tonight. ANDOVER, Feb. 18 .- The political

ANDOVER, Feb. 18.—The political situation in this county is becoming very perplexing from the local grit standpoint. One week ago it was an-nounced that the old members, Porter and Lawson, would be the grit nomi-nees, but it now appears that such will not be the case. Both these gentlemen went up to Grand Falls some days ago, and while they intimated to thein friends they were supposed to be on the same ticket, they also said enough to show that neither had confidence in the other. It fs now announced that to show that neither had confidence in the other. It is now announced that Lawson will run with Mr. Tweedale, and Porter has been trying to make gess of Grand Fails. The latter de-clared himself several days ago to be opposed to the local government and the show that neither had confidence in the chair was Parker Glasier was the first speaker. He received an ovation and delivered a capital speech, which was loudly ap-plauded. The next speaker was Lewis H. Bliss, who made an effective and crushing reply to the noisy speech of F. H. We

Alpine the night before. Not much was left of the McAlpine oration when Mr. Bliss got done with it. Henry Mitchell spoke briefly. The meeting closed with enthusiastic cheers but isolation will disappear. for Messrs. Hazen and Glasier. It is not too optimistic a view to say that

the opposition prospects are good for a considerable majority in Gladstone parish, which four years ago gave a majority the other way.

of a nuisance than a menace to the general health, but sooner or later, the disease extends to the throat, bronchial tubes and even to the stomach and intestines.

mucous membrane, the local symptoms being a profuse discharge of mucous, stoppage of the nostrils, irritation in throat, causing coughing, sneezing, gagging and frequent clearings of the

roat and head. The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treat predicting a victory for the so-called liberal ticket. The fact is that Mr. Curran and his colleagues were put in the field by Mr. Turgeon, and had been ment which removes the catarrhal taint from the blood and the disap-

pearance of the inflammation from the candidates for some months before the calling of what the Telegraph's corresmucous surfaces. A new remedy which meets these re-quirements and which so far has been remarkably successful in curing capondent now speaks of as a liberal convention. That convention was only called when Mr. Turgeon was forced tarrh is Stuart's Catarrh Tablets

These tablets act upon the blood and mucous membranes only. They can hardly be called a secret patent mediby the ridicule cast on his ticket by There is a very strong feeling against the grits here, and there is an cine, as they are composed of such valuable remedies as Blood Root, Hy-drastin, Red Gum and similar cleansimpression that it is not yet too late to put a strong opposition ticket in the field in this county. ing antiseptics, which cure by elimin-ating from the blood and mucous sur-

BRUCE AND THE SPIDER.

By Bernard Barton.

The sun rose brightly, and its gleam Fell on that hapless bed, And dinged with light each shapless beam Which roofed the lowly shed; When, looking up with wistful eye, The Bruce beheld a splder try His filmy thread to fling From beam to beam of that rude cot; And well the insect's tollsome lot Taught Scotland's future king.

Six times his gossamery thread The wary spider thread In vain the filmy line was sped, For powerless and untrue Each aim appeared, and back recoiled The patient insect, six times folied, And yet unconquered still; And soon the Bruce, with eager eye, Saw him prepare once more to try His courage, strength and skill.

One effort more, his seventh and skil. The hero halled the sign!— And on the wished-for beam hung fast That islender, silken line! Slight as it was, his spirit caught The more than omen, for his thought The lesson well could trace, Which even "he who runs may read," That Perseverance gains its meed, And Patience wins the race.

FRANCE LOSING A GREAT

SECRET

With the Monks of the Grande Char-

that will bind together the British squadrons all over the world. There will be constant intercommunication, and a combination of forces right For Scotland's and for freedom's right The Bruce his part had played. In five successive fields of fight Been conquered and dismayed; Once more against the English host His band he led, and once more lost The meed for which he fought; And now from battle, faint and worn. The homeless fuglive forlorn A hut's lone shelter sought. from the channel to the furthermost naval station, making in effect one big fleet instead of several smaller ones. Separate commands are to remain

A PHYSICAL CULTURE GIRL. And cheerless was that resting-place For him who claimed a throne; His canopy, devoid of grace. The rude, rough beams alone; The beather couch his only bed,-Yet well I ween had slumber fled From couch of eider-down! Through darksome night till dawn of day, Absorbed in wakeful thoughts, he tay, Of Scotland and her crown. I know a girl whose presence sweet Is like the rosy morning Is like the rosy morning, Whose charms of mind and form are mee To be a queer's adorning; From crown to shapely foot, no flaw, An artist could discover; For all who know her, 'tis a law To worship and to love her.

The reason is, she does not foll Away her time on cushions, But yields her body, mind and soul To duty's intuitions; Yet to combine, it is her aim, Her tasks with wholescome pleasure, Esteeming health of mind and frame Her very choicest treasure.

And these she ever alms to train, Each day, for certain hours, Thus to develop and retain Her youthrul charms and powers. A pleasing picture 'ils to see / Her wield the broom and duster, Tho' in these homely duties she Avoids all noise and bluster.

The clothes she hangs upon the line, Because of her, seem whiter; The tins she scours with lustre shine In gratefulness much brighter; The very pumpkin ple she makes Seems better for her making; Some subtle flavor it partakes Whene'er she does the baking.

For puaching bag, a pan of dough-For goil, a broom suffices. This maid, while mirth, in wanton flow, Her daily rocutine spices. Thus physical development She gets in line of duty, Which makes her presence redolent Of healthfulness and beauty.

Besides, all kinds of wholesome love She e'er absorbs with relish. Which all her native charms the more Do heighten and embellish. Where'er she moves, an atmosphere Of Purity's about her-Of life and joy; ah, sad and drear Her home would be without her.

Nay, none there is that her outshines (Among athletic beauties), Who culture physical combines With wholesome household duties. Then give me her, the girl I know, The girl I prize and honor; O, give me her, for weal or woe, I'll stake my all upon her. Emile Pickhardt

SOUTHAMPTON, N. S.

Dr. Baginsky, of Berlin Ch Hospita', Gives Results Twelve Years.

Danger Much Reduced Treatm Anti-Streptococcus Applied t Patients With Great Succ

BERLIN, Feb. 17.—Professor Baginsky, director of the Kais Kaiserin Friedrich Hospital for dren, publishes through the New Herald remarkable results of discovery, which provides the n world with a serum cure that stamped out scarlet fever in a percentage of cases among c than has ever before been attai Professor Baginsky modestl elaims the credit for the discov the serum, which has been name streptococcus, and which has be plied with undoubted success hospital under his charge. The discoveries now made

through the Herald are the res twelve years' uninterrupted r and experiments In that period 701 patients have

subjected to the antistreptococcu um treatment, with the result th character of scarlet fever has definitely established and its gern The percentage of deaths has reduced to such an extent that eight per cent. of scarlet fever pa

succumbed. Professor Baginsky said: "I my investigations in 1891. My then was to determine the nate

the disease. "The only credit which I appro

in the discovery is that I prove scarlet fever has a microbic known as streptococcus. "This fact ascertained, I con the investigations with my assi Dr. Sommerfeld. The germ is which appears also in erysipelas occasionally may be encounted complication with diphtheria. "After I had investigated a number of cases to prove the rec rence of 'streptococcus,' this served as a basis for further ex ments by Herr Aronson, and after tinued laboratory experiments, in ing the injections of streptococcus 'rabbits and horses, Herr Aronson duced the 'antistreptococcus,' "This serum is rally the disco of Herr Aronson, and I do not wi deprive him of any credit therefo

RATE OF MORTALITY FAR LOW NORMAL OF PATIENT TREAED HERE.

Physicians at the Willard Hospital, in this city, last night cepted the announcement of Dr.

insky's discovery of a serum use successfully in the treatment of a

let faver, as well as the result of researches that determined defin that the disease was of bacteriolo

It was announced by the physic questioned that the serum used r

be a new one, for that used here

been tried experimentally in case scarlet fever, but without suffi success to recommend it as a su

tute for methods now employed. Professor Baginsky's statistics

considered remarkable and of g

Importance as a medical disco-His record of eight per cent of de among 701 patients treated was fa

low the normal rate of those who

cumbed to scarlet fever, even

treated by the most modern and proved methods in the Willard Pa

Hospital, or in private practice physicians of this city.

The statistics of the health dep ment show a ratio of failure at 1 three times as great as that noted the director of the Berlin Hospial.

While the British Judge Impo

raigned in court Saturday for sent to death. He received the sentenc the most callous manner. On b asked the usual question, whether

had anything to say why sentence death should not be passed on him

In its earlier stages catarrh is mor

Catarrh is essentially a disease of the

n to the internal use, but it is not at all necessary to use a douche; a few of them dissolved in the mouth daily at the Methodist nervous of Me will be sufficient. However, when there is much stoppage of the nose, a douche made from these tablets will give immediate relief, but the regular daily use internally of these tablets will cure the whole catarrhal trouble without resorting to the inconvenience of a douche. Dr. Bement states "that the internal

treatment for catarrh is rapidly taking the place of the old plan of douching and local application," and further says that "probably the best and certainly the safest remedy at present on the market is Stuart's Catarrh Tab-lets, as no secret is made of their com-position, and all the really efficient remedies for catarrh are contained in Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized pack-

age. Ask your druggist, and if he is honest he will tell you there is no safer, more palatable, more efficient and convenient remedy on the market. WATER TUBE SYSTEM

Again Proves a Failure on British

Warships. LONDON, Feb. 18 .- The second trial dof the British second class cruisers Hyacinth and Minerva, fitted with Belleville (water tube) and Scotch (cyindrical) bollers, has resulted in another defeat for the water tube system. The warships 162t Plymouth with an equal quantity of coal for Gib-raltar, and the Minerva steamed twelve hours after the Hyacinth's bunkers were emptied. The vessels recoaled at Gibraltar and started on the race homeward during the morning of February 15, with the result that the Minerva reached Portsmouth this morn-ing, having averaged 18 knots. The Hyacinth's bollers broke down in the Bay of Biscay on Monday.

BRITISH NAVAL REFORM.

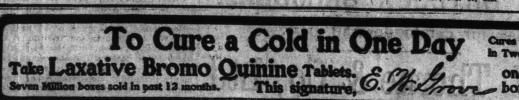

An important navai reform is being stadually accomptished by the Brittalish admiralty. At the present time the Brittah navy somewhat resembles a dismembered body. Some part of it floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in almost every sea, but in distingtion of the floats in the floats in the second of the float in the float in the second of the float in the float in the second of the float in the float with one another by means of eruiser divisions. Already one has been formed in the floats the float the fload Hope is the float the contrastations are also to have their in the stations are also to have their in portant stations are also to have their in the stations are also to have their in the coaltingt of a rear-admiral, as soon as these can be got together.
This intended that the cruiser divisions, the commander-in-chief's flagship, but shall be in a sense links in a chain An important naval reform is bein

at the Methodist parsonage of Mr. Mitchell, father of Mrs. (Rev.) Whitman. The deceased, who was very aged and The deceased, who was very aged and feeble, had until recent years been a resident of Halifax. The interment was made in Westbrook cemetery, Rev. W. Brown of Springhill conducting the rites. Rev. D. McKeen's congregation here,

together with several in Westbrook and his Athol friends, met at his home and presented him with a purse of \$60. Mr. McKeen is suffering from

the entertainment was Jean Ingelow's "Songs of Seven." There were also a number of good tableaux.
There are 150 men is the woods within a radius of about three miles from the Corner. The output has been most stratifying.
al joying immunity from accident, sever anishaps have occurred in neighboring sections. In Westbrook, C. El Dickson dislocated his shoulder, and Havelock Atkinson today fell while loading cars, sustaining injuries necessitating surgical aid. In Athol, John emart Reid is laid by with a cut foot, a deep gash in the instep.
SOUTHAMPTON, N. S., Feb. 16.- One of Mapleton's old residents, Mrs. John G. Brown, died last week of pneumonia. She was Rev. Wm. Brown's step-mother. While attending on deceased, her sister, widow of the late J. R. Brown, fell on the stairs, injuring on birs. A little boy, son of James Thompson, who is this winter lumbering and real to the stairs, injuring on the stairs, injuring the first year amounted to stain of the stairs, injuring to state work.

J. R. Brown, fell on the stairs, injuring herself very seriously. A little boy, son of James Thompson, who is this winter lumbering and re-siding in Westbrook, ran a scissors point through his hand. Rev. F. L. Jobb has arranged to give the lumbermen at Wm. Ripley's and those at Adams' camp a service on Thursday and Friday of next week. Mrs. Joseph Smith and family leave on Monday for Sydney Mines, where

SOUTHAMPTON, Feb. 10. - Early to their old home, that the congrega-tion had never been authorized from the time of its foundation in 1084. -After their first expulsion, in 1791, the monks returned in 1816 to France. Seventeen years afterward they began to manufacture the liquor now asso clated with their names more closely than any other attribute of the order. The white liqueur was first made, and only two litres of it were the daily output. One of the brothers carried this down to Grenoble and Chambery,

where it was sold. home and presented him with a purse of \$60. Mr. McKeen is suffering from illness and has had to give up work next manufactured, and then Peter entirely. The Sunday school concert in aid of the Presbyterian Church funds was a splendid success. The children per-formed their drills and other numbers with wonderful accuracy. Miss Lena Freeman and Mrs. Harlow assisted in Freeman and Mrs. Harlow assisted in the programme. Garnier discovered the method of max-ing the yellow liqueur. Efforts were soon made to induce the order to set-tie in Rome, but that plan was aban-doned. The authorities forced the separation of the cloister and the dis-tillery, which was removed to a dis-tioned. The order was compelled to Freeman and Mrs. Harlow assisted in the musical part of the programme, and Mrs. C. A. Lusby gave a delight-ful reading. Another fine feature of the entertainment was Jean Ingelow's "Songs of Seven." There were also a uumber of good tableaux

with the implement and nearly kil Edwards was arrested for the assa and the disappearance of the con with whom he lived was noted, and vestigation led to the discovery
