COAL

"C. C. C." Coal is really wonderful compared

with other coals, and it is New Brun-

swick Coal too.

The hardest test is in the open fire place. "C. C. C." warms as

well as cheers with its bright flame. It is a clean splint coal.

Have you noticed the open fire through the window of "the Clifton

House?"

Didn't it make you wish you were home in front of one of your

own? Well—Why not—Only \$4.75 per ton.

Prompt delivery. Phone Main 1172. Yard Brittain St., Cor. Char-

lotte.

You would be surprised to know how many people are using

"C. C. C." Coal for all purposes in place of Anthracite. But try it and

you will understand.

THE CANADIAN COAL CORPORATION OF N. B. LTD.

FINANCIAL WORLD

ANOTHER QUIET DAY IN THE MARKET

New York, N. Y., Mar. 25.—The week end in the stock market was a fitting windup to the days immediately preceding. The trading in the first hour amounted to about 35,000 shares and the total of the two hours session was under 55,000. The net result was a number of fractional declines with a few gains. News bearing upon financial, industrial and mercantile conditions was not especially favorable.

There was a fair demand for Amer-

icans at better prices in London, but

the market there sold off later on

forecasts of New York bank state-

ment. In Paris the security bank

was further depressed as a result of

the Russo-Chinese situation and the

market in Berlin was featureless. The

weekly statement of the Imperial bank

of Germany was interesting in show-

ing a decrease of over \$8,000,000 in

loans and discounts and a gain of

\$3,250,000 in gold.

Affairs in Mexico were brought to

the front again by the resignation of

the cabinet there. Mexican railway

bonds were weaker than on any pre-

vious day since the attention of the

country was directed to the mobiliza-

tion of American troops on the bor-

der. This latest development, however,

was not regarded as the harbinger of

valid grounds for unrest, but on the

other hand it was pointed out that

the contemplated changes in the Mex-

ican administration might go far to-

ward relieving the situation.

Multiplying evidences of the back-

wardness of trade were received from

various quarters. The fortnightly re-

port of the number of idle cars dis-

closed a considerable increase which

was confined chiefly to the east and

west. Operations of a number of New

England mills, principally in the rub-

ber and textile industries were either

curtailed or halted entirely. The bank

statement showed an actual loan in-

crease of about \$1,000,000 instead of the

moderate loss looked for in that item. The

outlook leaves the reserves at 27.23

per cent., against 27.35 per cent. the

previous week, and compares very

favorably with this period for years

past.

Bonds were irregular. Total sales,

par value, \$889,000. United States

three and four registered lost ¼

on call on the week.
