Denies Making the Affidavit

Walter Crossman appeared at the afternoon session and his evidence created another sensation. He denied having made the declaration filed for him, purporting to be solemnly declared Dec. 19, 1911, before Raleigh Triggs, at Dorchester. He said he did not know Mr. Triggs and that he had made no such declaration. He had signed a paper for Allan W. Chapman about four years ago in the matter of the election in 1904, and would not go farther than himself and Frank B. Black, but had signed nothing else. The signatures to the duplicate solemn declaration were not made by him. The statements therein that Mr. Triggs had called him into his office and canvassed him for the government candidates were not true. The signatures to the jurats being examined, Mr. Triggs said that they were not by Mr. Triggs.

Took No Hand in Politics

Mr. Friel went on the stand and gave a full, general and detailed denial to the charges. He said that he had been appointed in 1904, on the death of Mr. Knapp. That at the time of his appointment he stated clearly to the powers appointing him that he would in the future be out of local politics. If he got the position, and that he had lived up to it, and that he had not stood at the polls or canvassed or worked.

FUNERAL OF JARED TOZER

Newcastle, Dec. 16.—The funeral of the late Mr. Jared Tozer took place Saturday afternoon. The whole community of South East and many friends from neighboring villages attended the services conducted by the pastor, Rev. Dr. Cousins. The body, followed by a large number of teams, was then brought to the Baptist church at Newcastle, of which Mr. Tozer was a deacon, and had been a faithful member and officer for forty-two years. The service in the church was very impressive. Beautiful wreaths of flowers were offered by different members of the family, an anthem was given by the pastor, and a hymn with brass choir, was presented by the pastor, officers and members of the church. The pall bearers were: Geo. McLean, Isaac Blaisdell, John Betts, Edward O'Donnell, R. H. Greenley and Andrew Mather.

Let the Electors Vote on Naval Scheme

Hugh Guthrie Dares Tories to Test Their Strength—Hon. Mr. Foster Spent 3 1/2 Hours Defending His Somersault on the Canadian Navy Question.

Ottawa, Dec. 18.—The last word on the navy which the country will hear before Christmas was spoken in parliament today, and it was a challenge to bring on an election. The gauntlet was thrown down by Hugh Guthrie, the brilliant Ontario Liberal, after Hon. George E. Foster had finished a three and a half hour speech, defending the London policy and denouncing that of Sir Wilfrid Laurier.

That was all Mr. Guthrie said. He reserved the rest of his remarks for January, because in the house had to rise at 6 p. m. Mr. Foster had left, no time to spare. The fact that so clever a speaker had to labor so many hours, gives a new measure of the strength of the Liberal policy and the weakness of that put forward by Premier Borden.

DECLARES RUSSIA IS ANXIOUS FOR PEACE

Premier in Duma Makes Important Speech in Which He Disclaims Any Desire to Stir Up Trouble With Austria, but Intimates That the "Bear" Will See That Balkan Allies Receive the Fruits of Victory.

St. Petersburg, Dec. 18.—A desire for the preservation of European peace, combined with the determination to defend with the nation's whole strength Russia's vital interests, was the keynote of a speech on Balkan affairs made by Premier Kokoshev in the Duma today.

The Russian premier paid a tribute to the warlike virtues and the unanimity of the Balkan peoples. WHAT SOME PUPILS DON'T KNOW ABOUT ARITHMETIC

Seven of Them in the New York High School Unable to Add One and One—127 Failed to Divide One-Tenth by One-Tenth Correctly.

It is a weird, almost revolting, story of mathematical stupidity that comes from the schools of New York. That any high school pupil is unable to add one and one or to divide one-tenth by one-tenth passes the average human understanding. Yet that only states part of the case. Seven pupils failed on the first question and 127 on the second. And yet educators complain because business men are loath to employ the average high school graduate.
