

THE
FIFTH ANNUAL REPORT
OF
St. George's
DISTRICT VISITING SOCIETY.
1845.

THE District Visitors of St. George's Parish are again permitted to appeal to the Public in behalf of the Poor, and humbly to solicit the smallest contribution towards their relief. The funds placed at their disposal last year have, they trust, been judiciously appropriated, after a personal enquiry into the wants and claims of the indigent, and strict regard to the character of the applicant. Those in distress have been relieved, the sick and aged have been visited, and the careless and irreligious affectionately invited to turn from sin and error, and to wait upon the appointed means of grace and salvation. The Visitors have endeavored to keep up a friendly intercourse with the Poor of the Parish, to sympathize with them in all their trials and difficulties, and only regret that their limited funds, and the numerous applications for relief, have prevented their being as liberal as they could desire.
