Gombault's Caustic Balsam

The Great French Remedy

Will Do It

It Helps Nature to Heal and Cure. Penetrates, acts quickly, yet is perfectly harmless. Kills all Germs and prevents Blood Poison. Nothing so good known as an application for Sores, Wounds, Felons, Exterior Cancers, Burns, Carbuncles and Swellings.

"I had a bad hand with four running sores on it. The more I doctored the worse it got. I used Caustic Balsam and never needed a doctor after that."
 —Ed. Rosenberg, St. Ansgar, Ia.

Mrs. James McKenzie, Edina, Mo., says: "Just ten applications of Caustic Balsam relieved me of goitre. My husband also cured eczema with it, and we use it for corns, bunions, colds, sore throat and pain in the chest."

A Safe, Reliable Remedy for Sore Throat, Chest Cold, Backache, Neuralgia, Sprains, Rheumatism and Stiff Joints. Whenever and wherever a Liniment is needed Caustic Balsam has no Equal.

Dr. Higley, Whitewater, Wis., writes: "I have been using Caustic Balsam for ten years for different ailments. It has never failed me yet."

Make Every Day Count

WHY not do your own threshing this fall?

You can do it and save money. When you do the job yourself, using your own separator and your own tractor, you are independent of all outside help, you can be among the first to get your grain into the elevator, you can thresh without any waste, and you can use your tractor for plowing.

The outfit to get is a Titan kerosene tractor with 20-H. P. at the belt and 10-H. P. at the drawbar, and a 20 to 24-inch separator. Then you can turn out anywhere up to a thousand bushels of threshed grain every day, and as your fields are cleared, plow up to 8 acres a day. That gives you a good chance to get the fall work all off your hands before the ground freezes too hard to plow, gives you some assurance of a better crop next year, and saves money at every turn.

We can supply a limited number only of Titan kerosene tractors this year. We suggest that you write the nearest branch house soon for complete information about tractors and separators, in order to avoid disappointment in delivery.

While the Manitoba Farm Loans Act was primarily intended to foster and encourage agriculture by providing cheap money for the farmer, it was also conceived that the principle of co-operation could be carried much further.

The great bulk of the money required will no doubt be obtained outside the province in the principal financial centres of eastern Canada and the United States. But there is on deposit in banks and other institutions, a very large sum, made up of the savings of wage earners, trust funds and temporary deposits, earning a nominal rate or no interest at all, which could be brought into profitable use by the Association, not only for the benefit of the farmer borrowers, but also for the owners of the money.

With this end in view, and in order that all classes of the community might share in the advantages of this progressive scheme, it has been decided to pay a rate of four (4) per cent interest on deposits and to issue by way of security,

of the face value, and by a ten per cent capital stock liability of shareholders in the Association, besides the guarantee of the Government.

No doubt the big financial corporations of the Province will always be open to purchase them, and for the small investor seeking an absolutely safe investment of a readily marketable nature with a high interest rate, these bonds should be very attractive.

The Manitoba Farm Loans Act, Section 64, provides that:

"All bonds, stocks or other securities issued by the Board under the provisions of this Act shall be a lawful investment for all municipal and school district sinking funds and for all fiduciary and trust funds, and may be accepted as security for all public deposits."

Every citizen of every class can become a unit of co-operative value in the construction of this organization, which is seeking to improve the conditions of the people.

Better Farm Homes

By Prof. J. Smith, Dept. of Agricultural Engineering, M.A.C.

Late last summer the Manitoba Agricultural College, in co-operation with the Manitoba Department of Agriculture, inaugurated a Better Farm Homes Competition, open to the farm women of the Province. It was hoped by this method to learn what type of home the housewife on the farm actually needed for our Western conditions; for who can tell what is necessary in the farm home better than the women whose life work is in these houses?

Though it was during the busy season, over one hundred and thirty women applied for cross-sectional drawing paper and directions for entering the competition. Sixty-three plans were submitted and, of these, six were selected by the judges as being the best; six equal prizes of \$25.00 each in cutlery or silverware being given.
