

The Fleury Pulverizer

PULVERIZES AND PACKS THE SOIL

In the world famous FLEURY PULVERIZER AND PACKER with its NEW ROLLER BEARING TONGUE TRUCK, there is not one ounce weight of needless drag on the draft horses. Note these points in this

COMPLETE DEPARTURE FROM ANYTHING ELSE MADE

The FLEURY PULVERIZER with NEW ROLLER BEARING TONGUE TRUCK, in sizes 16-22-24, sections with or without Tongue Trucks. We can also supply any of these sizes with SUB-SOIL WHEELS

1. The jolting from uneven ground which, through the old rigid poles, fell directly on the horses' necks, is entirely borne by the FREE OSCILLATING TONGUE TRUCK which automatically accommodates itself to the slightest deviation of the Pulverizer.

2. **DUST PROOF ROLLER BEARINGS** take the place of the obsolete "friction" equipment of the two main axles and the TWO DRAFT IRON BEARINGS. These ARE made absolutely dirt-proof by close-fitting washers screwed to both ends of bearing case.

3. The castings in which the roller bearings revolve are accurately BORED—not "cored," so that the bearings fit perfectly. In other makes the shafting "takes its chance" in the core of the casting. We use only the finest REELED shafting which is **clean and true throughout its entire length**, as distinguished from the common and irregular cast-shafting of competitive machines.

The effect of this revolution at these vital points of a pulverizer must be felt to be fully appreciated. The saving on draft is extraordinary—not to speak of wear and tear on machine. It means more work and better work with half the wear and sweat. It means ease and endurance in place of weight and wear.

IT will be **SPRING** before you know it, Mr. Farmer.

Your 1912 Crop will depend largely upon how it is planted. You can't afford to take _____ any chances. You won't take any if you use a _____

VAN BRUNT NEW MODEL 12, 14, 16, 18, 20, 22, 24 Single, Double Disc and Shoe, Interchangeable

This is the original model from which worthless imitations have been made and foisted on the market, but the great prototype is stronger and lighter than these by from 300 to 400 pounds. The effect of the NEW BOOT DISCHARGE is to plant the seed at the exact depth for certain germination. Not a single grain is left on top of the soil or so near the surface that wind or shower can expose it.
