OF FARMERS' CLUB

Correspondence Invited LEEDS, NANTARIO. MALLOYTOWN, July 27.—Everything is in N. 1, except hay, which is a light crop. Dried corn is scarce here, where treated before seeding and a little where they were treated. We are having fine rains in this locality which keeps fresh and growing.—D.F.A.

BRITISH COLUMBIA NEW WESTMINSTER, B.C. CHILLIWACK, July 30.—Having had one of the best crops of grain raised here, the very dry weather during April and May has not done much harm to the crop of July has been the hottest day so far this year. The temperature at noon on July 29 was 82 degrees and it is getting yellow, and will be ready to cut two weeks from the most. Spring lambs are selling at the most. Spring lambs weight: duke, 18c a lb.; chickens, 15c live weight.—Y. C.

THE MIDWESTERN DULNESS IS characteristic of the arid time. All grains are moving slowly. Fruit which is arriving in large quantities is being sold at prices of unexpectedly good advantage.

WHEAT Weather conditions are now the dominant factor in determining the price of wheat. The southern hemisphere is still shipping considerable wheat but attention is being turned to the million bushel crop of North America.

GRAIN The market continues to be unsettled state. Due to the import lack of orders from Great Britain. The market on the other side is unsettled and attractive offers from this side have not been answered.

COARSE GRAINS The market is quiet with oats down a shade. Corn is not important either way. Trade in milling is not active. Quotations: Oats, C.W.
