Market Review and Forecast

ORONTO, June 8.—Reports from many of the counties of Ontario and that the bulk of the seeding has been completed in meat sections though there are some places where considerable characters have already been completed and active, has and clover, and fall wheat are all doing well though been some report considerable damage from 1 regions. The considerable damage from 1 regions and the seeding well though some report considerable damage from 1 regions. This considerable damage from 1 regions and nothing but a proforged drought can prevent a large amount of darly products from being continuous of daving the purchase of mich cows at the Boar Cock Yards for the Saskatchewan Ostonia of the continuous of the purchase of mich cows at the Boar Cock Yards for the Saskatchewan Ostonia of the Cock Yards for the Saskatchewan Ost
