

GILSON
POWER plus SERVICE
After 9 years of Service

Mr. H. TUTTON, of Brantford, Ont., writes:

Gentlemen—As my 6 h.p. Engine has been such a big saving to me during the 9 years I have had it, I thought I would write you. I have 7 1/2 acres, keep a lot of stock, and do all my own chopping, feed cutting, wood sawing, etc. My engine is as good as new now, and compared with other makes around me, I am perfectly satisfied with its superior fuel economy, power and reliability.

Don't Miss the Big Money

THE virgin soil that the stumps keep out of cultivation in the best soil you have. You can pull out an acre or more of stumps in a day at a cost of from 3c to 5c per stump. No matter how big or tough the stump, it walks right out when the Hercules gets hold of it. With the stump come all the long tap roots that spread out in all directions. The land is left ready for cultivation.

HERCULES Triple Stump Puller

Let us send you proof that thousands of farmers have made big money by the Hercules. Get our money saving proposition.

Cockshutt Disc Drills

Uniform Seeding Guaranteed—3 to 5 bushels more per acre

Seed and Fertilize at the Same time with our newest drills

Superior construction guarantees rapid, easy, correct seeding

The heavy sales of Cockshutt Disc Drills show the up-to-date farmer realizes that only the best is good enough for such an important work as seeding. A Disc Drill must have a big margin of strength and reliability so as not to "fall down" at a critical time. Be wise; get a Cockshutt Drill.

Seeding time may be short and horses scarce! So, the Cockshutt Disc Drill is built strong, but it is built for speed. Its light draft makes for rapid work in any kind of soil, rough or well tilled, hilly or level. The discs open a channel wide enough for even planting, the shoes are non-clogging and plant the seed at uniform depth. Trash cannot lodge in the discs—they "draw away" from the shoes. The heavy, high-carbon I beam—the "back-bone" of the machine—is immensely strong and rigid, preventing the slightest warping or sagging in the centre. The feed is positive and simple. Doesn't get out of order—doesn't crack or bruise the seed—sows any quantity to the fraction of a pint.

Cockshutt Standard Drills are built in 12, 13 and 15 Disc sizes with 6-inch spacing, and in 11 and 13 sizes fitted with either single discs or hoes, with 7-inch spacing.

Cockshutt Grain and Fertilizer Drills. You can drill the fertilizer into trench with the seed. Accurate work, durability and light draft are three dominant Cockshutt qualities in this splendid implement for bringing your land back to virgin fertility in a systematic, positive way.

Made in 9, 11 and 13 sizes fitted with either single discs, or hoes, with 7 inch spacing between. Get Cockshutt Disc Drill Booklet from our nearest Branch, it gives you fullest particulars.
