

BOVRIL

ASSISTS THE DIGESTION
OF ORDINARY FOOD

That is one reason why it is so valuable as an addition to gravies, soups and sauces; it is also in itself highly nutritious.

Dr. Andrew Wilson says it is a true food (see "Brain and Body").

ASK LEADING FARMERS
THEY WILL TELL YOU

SHARPLES

Tubular Cream Separators

get more cream, cost less to run, and last several times longer than any other. No disks. Double skimming force. Wear a lifetime. Guaranteed forever.

You expect The World's Best from the oldest separator concern on this continent—not from those who try to imitate our low supply can and self oiling system but are prevented by law from imitating the Tubular principle. Write for catalog 193.

THE SHARPLES SEPARATOR CO.
Toronto, Ont. Winnipeg, Man.

MAKING IT RIGHT.

The check which the comely young German woman handed in at the window of a Walnut street savings fund bank the other day was made payable to Gretchen H. Schmidt, and she had indorsed it simply Gretchen Schmidt. The man at the receiving teller's window called her back to rectify the mistake just as she was turning away.

"You don't deposit this quite this way," he explained. "See, you have forgotten the H."

The young woman looked at her check and then blushed a rosy red.

"Ach, so I haf," she murmured, and wrote hurriedly:

"Age 23."

The Terrible Pains of INDIGESTION

Mr. Wm. H. MacEwan, Mount Tryon, P.E.I., says: "For more than a year I suffered with all the terrible pains of indigestion, and my life was one of the greatest misery. It did not seem to make any difference whether I ate or not, the pains were always there, accompanied by a severe bloating and a belching of wind. I did not even get relief at night, and sometimes hardly get a bit of sleep. In my misery I tried many remedies said to cure indigestion, but they did me not one particle of good, and I fully expected that I would always be afflicted in this way. At this time my brother came home on a visit, and urged me to try MILBURN'S LAXA-LIVER PILLS, and get me a few vials. By the time I had taken one vial I began to improve and could eat with some relish. I was greatly cheered, and continued taking the pills until all traces of the trouble had disappeared, and I could once more eat all kinds of food without the slightest inconvenience. I am so firmly convinced of their virtue as a family medicine I have no hesitation in recommending them."

Milburn's Laxa-Liver Pills are 25c. per vial, or five for \$1.00, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

QUESTIONS AND ANSWERS. Miscellaneous.

CURB.

I have a three-year-old driving mare which has a curb. It has been on two years. She seldom shows lameness. I have tried liquid blister, but it has not removed the enlargement. Is it possible to remove enlargement. Kindly prescribe.

W. E.

Ans.—Curb is very hard to remove, especially if it is long-standing. Repeated blistering will reduce it. Get a blister made of two drams each of biniodide of mercury and cantharides, mixed with two ounces vaseline. Get him shod on hind feet with calks three-quarters of an inch higher at heel than toe. Clip the hair off the part. Tie so that she cannot bite it, and rub well with the blister once daily for two days. On the third day wash off and apply sweet oil. Let him loose in a box stall and oil every day. As soon as the scale comes off, tie up and blister again, and after this blister once every month until reduced.

UMBILICAL HERNIA.

I have a suckling colt about 4½ months old. About three weeks ago I noticed a little lump coming at the navel, and now it is a little larger than a turkey's egg, and seems to be growing all the time. It has a soft nature, and resembles a rupture. Please advise me what you think it is, its cause, and treatment.

T. A. M.

Ans.—This is umbilical hernia. In most cases, nature effects a cure for this in foals, but as the enlargement is increasing, treatment should be resorted to. Probably the safest mode of treatment is by a truss. Apply a truss or bandage with an elevation about the size of half a baseball on it. Fasten so that the elevation presses upon the rupture and keeps it up into the abdomen. Arrange the truss with straps or strings passing forward and attached to a strap around the colt's neck so as to prevent the truss from slipping backwards. If this does not effect a cure, get a veterinarian to operate. If the rupture does not grow any more, it might be wise to leave it until cold weather, as nature might yet effect a cure, but if it does not improve soon, apply the truss.

GOSSIP.

MINSTER HOLSTEINS AND YORKSHIRES.

The old, tried and reliable firm of Richard Honey & Sons, of Minster Farm fame, Brickley P. O., Ont., breeders of R.-of-P. Holstein cattle and modern-type Yorkshire hogs, are still to the front with a big herd of money-making Holsteins and Yorkshires. As before stated in these columns, the foundation of the Holstein herd was that great cow, Queen of Minster, whose grass milk record is 84 lbs. of milk a day, and who is still doing profitable duty in her twelfth year. In all the years since the foundation of the herd, a most careful selection of herd-headers has always been made, which is showing results in the splendid records being made in the official Record of Performance tests. The bull now in service is the grandly-bred Lakeview Burke Fayne, a son of Count Hengerveld Fayne De Kol, own brother to the world's champion milk cow, with a daily record of 119 lbs. He is also a brother to the lately dethroned champion butter cow, Grace Fayne 2nd's Homestead, whose record for seven days is 26.30 lbs. and her dam, Grace Fayne, has a record of 23.30. This bull, besides being a high-class show bull himself, is leaving a grand lot of young things that are winning wherever shown, including such big competition shows as Lindsay, Warkworth, Norwood, etc. Just now there are for sale several of the best young bulls ever bred in the herd, put up on show lines, sired by this wonderfully-bred and show bull, and out of R.-of-P. cows. Also there can be spared a few heifers. In Yorkshires there are for sale both sexes from two months of age up to breeding age that have won all around the circuit.

Have You Seen The New "Galt" Shingle?

In justice to yourself, you should at least investigate "Galt" Steel Shingles before deciding on the roof for your new barn or the new roof for your old barn. Present wood shingles are failures and are being discarded—to use them is a step backward. Don't put a fourth-class roof on your first-class barn. "Galt" Galvanized Steel Shingles is the roofing, now and for the future. Roof your new barn with "Galt" Steel Shingles and you won't have to apologise for it now or at any time in the future.

Listen, you won't have time two months hence to investigate this roofing question. And yet the roof of your barn is an important part of your real estate and should be selected carefully.

Won't you drop us a card now for our booklet "ROOFING ECONOMY" telling all about "GALT" Shingles?

If you haven't paper and ink handy, tear out this advertisement, write your name on the line at bottom and mail to us. We'll know what you mean. You'll never have a better chance than right now.

DON'T DEPEND ON WOODEN WHEELS AND ORDINARY WAGONS

If you ever see a farmer coming down the road on a wagon and whistling a tune, you can make up your mind the wagon is a T.-K. Handy Farm Wagon with Wide-Tire Steel Wheels. The reason is that his wagon was loaded in half the time usually necessary with ordinary wagons, the load is greater by far, and the wheels take the ground (rocky or muddy) smoothly and without the least resistance.

Wide-Tire Steel
Wheels and
Handy Farm
Wagons

TK

This is the kind of equipment you want to haul your loads. T.-K. wagons with indestructible wheels will outlast two ordinary wagons. The steel wheels are best construction possible. They are made with staggered spokes, so the tires won't bend between spoke-heads, while the hubs never wear out. Letters from thousands of farmers testify to their superiority. Write for booklet and special prices.

TUDHOPE-KNOX COMPANY, Limited,

Orillia, Ontario.

For Sale
ONE EXTRA FINE

Clydesdale Stallion

Four years old, by Benedict. He is a beauty and sure foal getter. AND TWO TWO-YEAR-OLD STALLIONS. VERY CHEAP.
