goods, tablings, towellings, ready-mades, dress
materials, ladies' overalls, pinafore muslins. Coch-
rane's Warehouse, Victoria Bridge, Manchester,
England.

You need a New DE LAVAL CREAM SEPARATOR NOW

1st If you are still using some gravity or setting process of creaming—

BECAUSE your waste is greatest and quality of product poorest in mid-summer, when the milk supply is greatest.

BECAUSE time is of greatest value on the farm at this season, and the time and labor saving of the good separator counts for most.

BECAUSE the skim milk is poorest without a separator in hot weather and often more harmful than helpful to calves and young stock.

BECAUSE the work of an improved De Laval Cream Separator is as perfect and its product as superior with one kind of weather as with another.

2nd If you have a very old De Laval or an inferior separator of any kind—

BECAUSE the losses of the poor separator from incomplete skimming and the tainted product of the difficult-to-clean and unsanitary separator mean most when the bulk of milk is greatest.

BECAUSE of the great economy of time at this season in having a separator of ample capacity to do the work so much more quickly.

BECAUSE an improved De Laval Separator is so much simpler and more easily handled and cared for than any other, and you cannot afford to waste time these busy days "fussing" with a machine that ought to have been thrown on the junk pile long ago.

BECAUSE the De Laval Separator of today is just as superior to other separators as the best of other separators to gravity setting, and every feature of De Laval superiority counts for most during the hot mid-summer months.

These are all facts a De Laval catalogue, to be had for the asking, helps to make plain, and that every De Laval local agent is glad of the opportunity to prove to any prospective buyer. If you don't know the nearest De Laval agency, simply write the nearest main office, as below.

De Laval Dairy Supply Co., Limited
