Cory of a Letter addressed to J. K. Heydon, Esq., Sydney New South Wales, dated February 25th, 1851.

New South Wates, dated February 25th, 1851.

Bir,—A Mr. Thomas Clark, a Settler at Lake George, was for a considerable time seriously afflicted with a complaint of the Liver, together with the Gravel. His medical attendents, after trying all their skill, candidly told him that his case was hopeless, and any further efforts useless. In this situation, and when expecting every day would terminate his existence, a friend recommended him to try Holtoway's Pill's and as a forlorn hope he did so, the first dose gave him considerable relief, he therefore persevered in taking them according to the directions, and is now restored to perfect health. He will feel great pleasure in confirming this statement, or even

The operation is mild, yet efficacious; it loosens the hlego which creates so much difficulty, relieves the ough, and assists nature to expel from the system all iscussed matter by expectoration, producing a delightful bange in the breathing and chest, and this, after the pre-criptions of the very best medical men and the inventous of kind and sorrowing friends and Nurses, have milded to give the smallest relief to the Consequence. d to give the smallest relief to the Consumptive sufferer

The following testimonial in favour of the efficacy of this remedy has been received from William Caldwell Esq., Mayor of the City of Halifax, and is published for the benefit of those who may be similarly afflicted.

In March last, my wife was attacked with that dreadful disease Erysypelas in her leg. It influmed and swelled to an alatining size, causing excruciating pain, rendering it impossible for her to put her foot to the floor, and was fisst advancing upwards. Her case was one painful to look upon. Having read in a newspaper of the beneficial results of Mrs Berteaux's remedy, I advised her to procure a bottle from you, which she did, and the effect was miraculous; for the shorts are of four hours, she was as far relies. for in the short space of four hours, she was so far relieved that we were both quite astonished. She continued to recover gradually, and in a few days was quite free, (and believe and hope forever) from that dreadful malady.
