

‘ From such laudable Deportment, unſeduc’d by
 ‘ the Example of thoſe who have been miſ-led, I am
 ‘ confident that the Royal Approbation, ſo graciouſly
 ‘ expreſſ’d, will further animate you to a ſteady Perſe-
 ‘ verance in Duty to your Sovereign, and in Attachment
 ‘ and Reſpect to the Mother Country.

‘ And I have further to acquaint you, from Au-
 ‘ thority, that among other Matters beneficial to
 ‘ this Colony, the Emission of a Paper Currency was
 ‘ ſpeedily to come under Conſideration.

‘ In Your Deliberations during this Seſſion I parti-
 ‘ cularly recommend to you a Reviſion of the Laws for
 ‘ collecting the Revenues ; ſo that, in the Application
 ‘ of them, the Intention of the Legiſlature may not re-
 ‘ main under any Doubt.

‘ I am perſuaded, Gentlemen, that I need not urge
 ‘ Diſpatch of the public Buſineſs to you. The pre-
 ‘ ſent Seafon of the Year requires it, that you may at-
 ‘ tend to your Affairs in the Country ; where I cannot
 ‘ too earneſtly preſs your Application to Agriculture ;
 ‘ and eſpecially to the Culture of Hemp and Wheat,
 ‘ which I am particularly inſtructed to recommend to
 ‘ you, and may prove greatly beneficial to yourſelves
 ‘ and to the Mother Country.

‘ You may be affur’d I will readily adopt and con-
 ‘ cur in every Meaſure of Utility you ſhall propoſe ; and
 ‘ that my beſt Endeavours ſhall be exerted, to promote
 ‘ the Happineſs of Individuals, and to eſtabliſh the
 ‘ Welfare and Proſperity of the Whole.

William Campbell.
