## PARIS COUNCIL IS AFTER COAL

Following Lead of Brantford Body In Action On Fuel Supply

WANT TO BUY 500 TONS

Special meeting of Council Last Evening On The Subject

OTHER NEWS OF PARIS

Corp. Geo. Inksater, A.M.C., Home on Furlough From Front

(From our own Correspondent)  
Paris, Aug. 31.—A special meeting of the council was held last evening, with Reeve Pitts in the chair. Present, Deputy Reeve Stewart, Ald. Blake, Daniel, McCammon and Wooler.

On motion of Ald. J. P. McCammon and Deputy Reeve I. Stewart, a by-law was introduced and duly passed to license and regulate junk shops and junk dealers. All parties now going around Paris from outside points and buying up old trucks, must pay a license fee of \$20.

On motion of Ald. W. Wooler and J. A. Blake, the by-law regulating autos and vernicular traffic was amended. Any person driving a rig or auto must use the right hand side of street from the centre of same. All autos when parked in business section must have right front wheel not more than 12 inches from curb, and rear right wheel at angle of about 45 degrees. Room of about 2 feet must also be left between adjoining autos to allow passengers to enter or alight from same. Autos must park in same way outside churches.

The dog by-law was also amended, on request of board of health. Heretofore, dogs were allowed to run at large, but muzzled from June till August 30th. Last night, the council extended the time for dogs to be muzzled till Sept. 30th. It is understood that rabies has broken out in adjoining counties and hence the precaution.

The question of the poor delivery of hard coal was brought before the council. It appeared from the statements made that no definite time could be obtained as to when coal could be secured, and summer was rapidly going. It was also definitely stated that the council desired all the trade possible to remain in town in the hands of the local dealers, but people had approached the council to see if something could not be done by that body to relieve the situation. It was pointed out that a Burlington coal dealer had offered to supply Brantford with coal from Hamilton at \$6 per ton, f.o.b.

A committee was appointed consisting of Deputy Reeve Stewart, Ald. Walker and Wooler, to interview the local dealers, and falling satisfactory results, to communicate with Bowby, of Brantford, and also to write Mr. Bothman, of Burlington. Further that the coal situation as at present existing in Paris was explained to Mr. McCartney, the Government Fuel Controller, at Ottawa. The coal question was one other municipalities were handling, and the committee were instructed to ascertain the price of 500 tons of coal, delivered at Paris, and report as soon as possible.

Corpl. Geo. Inksater, of the Army Medical Corps, is home on three months' furlough. He left in 1914. Mr. Thos. J. Murray, of Winnipeg, an old Paris boy, has been visiting in town. He brought his sister, Miss Lena, back to the scenes of her childhood, in the hope that the milder climate will benefit her health. She is staying with Mrs. James Randall, of Upper Town.

## ARRESTS IN

(Continued from Page one.)

as to where the national convention would be held. The appearance of the arrangement committee of the peace council in Hudson, Wis., yesterday, aroused the citizens to a high pitch. Indignation meetings were held during the day, the common council passed an order forbidding the holding of the convention, and at a mass meeting in the evening resolutions were adopted protesting against the convention and calling upon Governor Philipp to stop it. Excitement ran high and from an orderly meeting there developed an unorganized mob, which went to the hotel where the pacifist delegates were stopping, hustled them into an automobile and took them to the depot, where they were put aboard a train for Minneapolis with orders never to return.

Shortly after the pacifists were driven from the city a truckload of peace literature for the meeting arrived and it was at once made the object of another attack. The driver, innocent of the situation, tried to make terms with the crowd, but quickly learning its temper, wheeled the truck around and started at breakneck speed for the Interstate bridge, followed by a hooting crowd until it reached the Minnesota side.

## WASHINGTON BUREAU

Secretary D  
Acknowledge  
by Subma  
rect—Offi  
Ways of I

Washington, Aug. 31.—The original of the Navy Daniels, Senator Tillman, of the fair Committee, gives a of the elaborate submarine story sent out by the bureau.

He virtually admitted American transports were "attacked in force" by marines; that there were with submarines, and man submarines were sunk, despite the fact that the announcement "elaborate Creel, head of the Censorship published as an official the Secretary of the Navy these phases."

Mr. Daniels offers to state Committee the original official reports from Rear Admiral Gleaves, in command of the flotilla, with the understanding they shall not be made public until the resolution introduced by Penrose demanding the Gleaves report. The as follows:

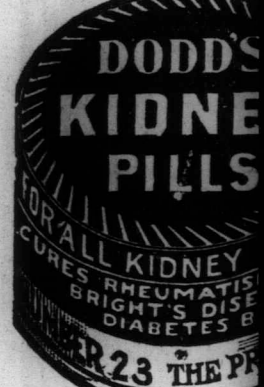

"Late in the afternoon the welcome news came that the first American ship, the first American ship, carrying the first American and marines to fight in reached their destination without accident or injury or ships. The Navy Department known for five days prior that two attacks had and you can well understand the painful anxiety lest torpedoes have caused the loss of brave men who were carrying hazardous enterprise.

"You may imagine, the unspeakable relief to me news announcing the arrival of the first ship brought. This course shared by all other partment who had been every minute since June Admiral Gleaves in a brief reported that submarines attacks upon two divisions transports.

"As soon as the news was received by an officer of the ment I hastened to the ment to apprise the Secretary of the fact, for I knew the deepest solicitude, as informed of the attacks, no formal manner, I assure the good news was given to the public, and we showed exultation over the safe return of the first American sailors and soldiers and the first American ship to reach the present military aid to the

"At once a statement was given out that even knew would intensify Americans. The messenger of course, had not been public and consequently spared anxiety.

"The statement which the public conveyed the all who had been waiting for the reassuring telegram with these words: 'The joy of a great relief that to the people of the U
