cercs William S. Clifford, known to the printer of the vaudeville three sheets, and it will send a sympath-etic shudder of sympathy along Broadway when the dreadful facts

This is the terrible tale of a Roof, or the Unexpected Husband. It concerns William S. Clifford, known to the printer of the vaudeville three sheets, and it will send a sympathetic shudder of sympathy along Broadway when the dreadful facts are known.

Perhaps it is unnecessary to say that the matrimonial bark of the blithesome Clifford is adrift. The partner of his joys and board bills, Miss Maud Huth, has cut the hawser of affection and mutual trust which bound them together for so many months or years, leaving the poor fellow a derelict on life's ocean. The rocks of the Island of Destruction menace him ahead.

"It is not good for man to be alone," thought Clifford between the hours of the whispered back. "You'll have to wait till he gets asleep."

Keleased at 6 a.m. Perhaps it is unnecessary to say that the matrimonial bark of the bilthesome Clifford is adrift. The rocks of the Island of Destruc-

"It is not good for man to be alone," thought Clifford between the hours of 4 and 6 on Monday morning. But why Butteinets?

anticipate? Thought Her a Prize.

Casting about for some talented young woman to assist him in his lonely "turn," the big vaudevillian tried many aspirants for fame in his rooms in the O'Neill Hotel, but not until Miss Victoria Atward, append until Miss Victoria Atwood opened the diapaison of her glorious voice did he feel that he had found a fitting stage mate to take the place of the lamented Miss Huth, his wife, thoughtlessly now seeking a divorce.
"A prize," cried Clifford. "Here is a transport that will convey me into the safe harbor of Theatrical Suc-

By way of introducing his new "partner" Clifford signed for a one-night performance at the Strath-more Club in Harlem. All went finely at rehearsals, but when, at the dress affair, Miss Atwood put on the gown she was to wear at the performance, the artistic eye of Mr. Slifford was caught by a charming expanse of bosom, where the maker of gowns had cut things in a low down fashion.

An Improvement Suggested. "Aha,' said Billy, who is a diamond lancier, "a lovely bit of genre land-teape, but methinks it would look prettier if you wore a locket which I have in my collection."

He brought it out from his strong box. It was a subendid affair write.

box. It was a splendid affair, with lorty diamonds in the foreground and—but he did not mention it at the time—a picture of his wife, Miss Huth, within. It glittered gloriously apon the bosom of the woman, who proved no more averse than others of her sex to wearing baubles of her sex to wearing baubles of

were in with the bayonet.

As the day faded into darkness an officer jumped up—at least, it is said he was an officer, but it was too dark to see—and said, "Forty-second! How much longer are we going to be kept back by a lot of Dutch dogs?"

And one made answer and said, "Remember Andra Wauchope." And another made answer and said, "remember Magersfontein." And yet another yelled with brazen lungs, "The steel! the steel!" And a brat blew into a bugle. It was enough. The performance was an entire suc-The performance was an entire success. After it came a friendly little supper at Shanley's, with the usual concomitants when star treats his support, and then Clifford offered to accompany the young woman to her home in the Ashland apartment in East Ninety-fourth street. It was juite the gentlemanly thing to do.

Wanted the Locket Returned. At the door of his apartment he suddenly remembered the diamond locket and asked the lady to remove "Ah, Mr. Clifford," she said, coyly

"Let me wear it over night. I will give it to you to-morrow. A 4-karat diamond is a new sensation there. It is very pleasant. Besides. I would like to show it to my friend." v it to my friends. "My dear Miss Atwood," said Clifford. "Dearly as I would love to accommodate so sweet and gentle a young person as you, I really could not let you wear that locket any longer. "Tis not the diamonds that trouble me, but alas! the picture of my dear wife, from whom I am estranged, most unhapply to myself, behind the diamonds.""

behind the diamonds Tears fell from the eyes of the boul of the young woman. She said the would be rather inconvenient for rather inconvenient fo er to get at the locket in the street, her to get at the locket in the street, but if he would accompany her to her apartment on the top floor she would get it for him. Always obliging Clif-ford consented. She invited him to

It Was Very Cozy Inside. "Well, just for a moment—while you get the locket," he said. It was very cozy inside, and as neither was deepy, Clifford threw off his hat and coat, lighted a cigarette.

lighted a cigarette, and sat a for a chat. It was 4 a. m. when the bell rang rigorously. Miss Atwood went to the tube and called down, asking who was there

was there.

"My goodness!" she cried, turning around in a fright. "It's Henry, my husband! He went to Boston for a week. I did not expect to see him back to-night, Fly! The roof! You ladder will take you to it."

"What sort of a game is this?" asked Clifford between affright and anger. "You did not tell me that you had an encumbrance. Husband—I'll not fly." Hush! He's coming! He'll be ter-

ribly angry. Get up on the roof. I "My locket!" said the vaudeville

man. But she pushed him up the ladder and out on the cold, cold roof, and fastened the scuttle after him. He found on investigation that he had him high her and too contained. He found on investigation that he had his high hat and top coat and a box of cigarettes, but never a match to light them.

to know it."

"Yes, and after marriage," remarked the Benedict, "she removes the 'dust from his clothes unostentatiously to prove that his is hers."

How to Care For the Babies.

During the first year the child should, if possible, be nursed by the mother, but it should not be nursed every time it cries; never oftener than once in two hours in the day time, and once in four hours at night, are the directions given the Chicago American by a trained nurse.

A nursing mother should eat meat, eggs, cereal, such as oatmeal, rice and hominy, and should drink plenty of water. But she should avoid strong tea, coffee, beer, unripe fruit and cabbage.

If the amount of milk is not sufficient to nourish the child, then resort to bottle feeding, but remember that bad bottle feeding leads to more deaths among the bables during summer than all other causes combined. This danger can be largely prevented if these rules are followed:

Give Them Water.

Give Them Water. Cold water should be given freely between meals in hot weather to first and second year bables. It should be boiled, bottled and kept in a cool place. Iced water should never be given.

cool place. Iced water should never be given.

Avoid during the second year all vegetables, all salt meat, all raw fruits, cakes, cookies and candies. Under no consideration let the bables—old or young—have tea or coffee.

Teach the child to chew his food thoroughly, and do not give him meat br other food that has been fried. You might as well feed him stones as fried food.

After the baby is 15 months old, the following is a most healthy diet for one day:

the following is a most healthy diet for one day:
7.00—One-half pint of milk, two pieces of stale bread.
10.30—Ontemeal and one-half glass of milk to drink.
2.00—One soft egg, baked apple, one-half pint of milk, one small piece of stale bread.

6.00-Stale bread and milk. 10.00-Three-quarters of a pint of warm milk.

Heat Milk, Then Cool it. Heat Milk, Then C of it.

In hot weather the milk should be heated, then cooled gradually on ice or in a cool place until needed for use. At feeding time the milk should be warmed by placing the bottle in warm water. If possible use a different bottle for each feeding. A cup and spoon are also used to

matches, and they saved my life."

"As I was going out the door, I made another demand for my locket. She was going to tense to keep it longer. But I made a firm stand, so she reached in and tore it loose, breaking the chain, which was her own, and handing me the whole business. Ill give her back the chain after her husband goes back to Boston." A cup and spoon are also used to advantage.

Thick barley and oatmeal gruel is a safe and nutritious drink. Mixed with boiled milk and strained through muslin, it makes a splendid food.

In the case of stomach trouble In the case of stomach trouble stop the milk diet for 24 hours and give barley water every third hour—four ounces in 24 hours. Then give Pasteurized milk and lime—water, in the proportion of three to one, every third hour. Albumen water may be substituted for a change. It may be alternated with beef ten, given three times daily, two toaspoonfuls at a time. to take back the derelict to her mat-rimonial keeping. It really looks as if Clifford could not paddle his own catoe with safety.—New York Tele-

spoonfuls at a time.

There should be as much care expercised in the feeding in the second year as the first. Most of the food for the second year should be fluid—milk, broth and gruels, made from cereals. Even s trong children should never have the table food of the family during the second year, no matter how much they may want

Bottles should be rinsed as soon as emptied and scalded for 20 minutes before they are filled.

The nipples should be washed in The nipples should be washed in cold water after using, and kept in a cup of water. Once a day they should be washed inside and out with hot water and soapsuds.

A baby should not be more than 20 Lot 5, P. E. I.

Lot 5, P. E. I.

Keep the Bottle Clean.

minutes in taking its bottle, nor should the milk flow so fast that the bottle is taken in four or five minutes. Never let it suck upon an empty bottle, and don't let it form the habit of going to sleep with the nipple in its mouth. Cows milk sold in bottles is the best and safest food. The ordinary grocery milk is not safe.

Hints For Bathers.

the steel!" And a brat blew into a bugle. It was enough.

The Black Watch uprose in the gloaming. Even then, so beautiful was their discipline, they kept rank and kept touch. With one clang they threw the steel into place—bare and cruel and sharp. Then without a word they sprang up the first peak. And it was as if the Angel of Death had passed. Nothing could stop that death-dealing machine—not at that The following hints about sea athing have been issued to English athers by the Royal Humane Socibathing have been issued to English bathers by the Royal Humane Soc ety, and are worth preservation:

Avoid bathing within two hours a ter a meal. Do not bathe when fatigued.

shot through shoulder and chest and limb. Only the dead halted. Up they went, soldierly. Up the steep height. Up with bayonets at the charge. The lust of battle was upon them. They ran up the slope of the peak—a slope where, in cool blood, one might with difficulty crawl.

As they neared the top the stride. Avoid bathing when fatigued.
Avoid bathing when the body is
cooling after perspiration.
Do not invite chills by remaining
on the beach or in the boat in the wet bathing costume.

Do not remain in the water after

Do not remain in the water after a feeling of chilliness appears.

Bathe when the body is at a normal temperature, neither over-heated nor chilled.

Do not bathe in the sea if subject to attacks of faintness or dizziness, or if any weakness of the heart ex-

News of Another Success on the Part of Dodd's Kidney Pills.

n Alberta Man Reports His Entire Satisfaction With the World Famous Remedy-Blood (isomler the Cause of His Trouble-Dodd's Kidne" Pills Have Removed it and He is Thankful.

Blairmore, Alberta, July 22.—
(Special).—Dodd's Kidney Pills are
just as well thought of in the great
Northwest as they are any place else
in the world. The people have confidence in them. They do as they are
claimed to do.

dence in them. They do as they are claimed to do.

Nor is the claim a small one. Dodd's Kidney Pills are claimed to cure some of the most dangerous and deadly maladies that flesh is heir to, and what is more they do it. The proof is positive. Thousands and thousands of reputable people attest it.

For instance every one knows Bright's Disease at one time meant the sentence of death. Does it now? Ask Arthur Colely, of Somerset, Man. He was cured of Bright's Disease, the He was cured of Bright's Disease, the last stages of it, by Dodd's Kidney Pills.

Pilis.

Dodd's Kilney Pills will cure the lesser disorders of the human system arising from Kidney Disease with just as much certainty and an even greater promptness. Of these, Skin Eruptions, such as Boils and Pimples, arising from an impure state of the blood are not the most uncommon or the least distressing. Dodd's Kidney Pills, by improving the action of the kidneys, purify the blood, and Boils and Pimples immediately disappear.

Walter H. A. Noble, of Blairmore, Alberta, writes in this connection: "I had been froubled with Pimples all over my face, and Backache. I tried everything to cure it, all kinds of medicine, but failed. "I was told to try Dodd's Kidney Pills and did so at once. I got three boxes of Dodd's Kidney Pills and took one after every meal. They Dodd's Kidney Pills will cure the

and took one after every meal. They cured me. They are the only things that ever did me any good. I will always use Dodd's Kidney Pills in case of sickness and advise all other sufferers to do so."

The World's most Wonderful Dams. The British Government has under-taken to restore the ancient order of things by storing the flood waters of the Nile, so that, by irrigating, once more the desert lands of Egypt will she in a condition to supply cotwill be in a condition to supply cot-ton, the markets of the world, since three crops can be ruised in a year. This is to be accomplished by the erection of dams across the chan-nel of the Nile. Two of these are now nel of the Nile. Two of these are now nearing completion, thanks to British energy and capital, which has made the undertaking possible. It is of interest to know that 25,

100 natives and Italians are now at work in shifts of 12,500 each by night and day in the completion of the dam. The same quarries that supplied stone to King Mena are being worked by them, and the grooves and notches of laborers who proves and notenes of laborers who extracted rough mineral for the temples of Philae and Cleopatra's needle were found by the men who are using modern implements propelled by steam to obtain stone for the dams.

SOME INSECTS USEFUL TO MAN

तिमः राज्यसम्बद्धाः स्टब्स्स्य स्टब्स्स्य स्टब्स्स्य स्टब्स्स्य "It is," says Prof. Lochhead, in a letter to the Guelph Mercury, "a regrettable fact that many of our fruit-growers and gardeners are unacquainted with the beneficial insects. Several times of late grubs of ladyleadiles have been east with

sects. Several times of late grubs of ladybeetles have been sent in with the request for information as to the best means of getting rid of 'these gebs which are destroying our crops.' Ladybeetles and 'adybeetle grubs are very active this season on account of the immense number of informations leaf-lice and scale-insects. Both the larvae and adults eat these injurious forms very greedily and destroy immense numbers of them. Without their presence and assistance, plant lice would increase so rapidly that in a very short time the plants would be entirely covered with them. Ladybeetles are rather handsome, almost always of a bright with them. Ladybeetles are rather handsome, almost always of a bright red or orange color, with black spots; or they are a polished black with red spots, but their larvae are rather horrible looking objects, about one-half an inch long, and quite active. The California fruit-growers are much indebted to a certain ladybeetle which was imported from Australia to keep in check a scale-insect which was destroying their orange groves. In less than two years after its arrival, the pest was almost exterminated. Occasionally ladybeetles are found in houses, where they would hipoward and search was free they would hipoward and search was free they would hipoward and search was free they would hipoward and search as a search a its arrival, the pest was almost exterminated. Occasionally ladybeetles are found in houses, where they would hibernate, and are frequently killed under the mistaken notion that they are destructive carpet beetles. The large, black ground beetles are also very active this season. These may be seen under stones, boards, or dead leaves during the day time. At night, however, they leave their hiding places and wander over the ground in gardens, orchards and fields, searching for food. They are very active and feed on the larvae of the plum curcul'o, on cutworms and many other injurious insects. There are two species of ground beetles which may be easily recognized by the tripht colors; the fiery hunter, the rows of reddish or copper-colored pits on the wing-covers, and the rest of the boly marked with violet, golden, green and copper. The larvae of these ground beetles burrow just below the surface of the ground, where they determined the stroy large numbers of the soft leaf. face of the ground, where they de-stroy large numbers of the soft leaf and root-feeding insects. The ichneu-mon flies are perhaps the most use-ful of the many insect friends of the ful of the many insect intender, are gardener. These, as a rule, are rather small but they are very detaillars of all rather small but they are very destructive, to caterpillars of all kinds. They are parasitic. In many cases their eggs are lail in the bodies of the caterpillar, where the maggots develop and feed on the soft juices of the caterpillar. Among other useful insect friends we have the soldler burse or kissing burse and

the soldier bugs or kissing bugs, and the lace wings. With a little study the majority of the useful friends roould early be recognized. Too often they are killed unceremoniously, their true value not being recog-nized.
