RADIAL RAILROAD.

If ever there were a time distinctly favorable to the consummation of the long-talked-of radial railroad erterprise, that time is the present.

Raleigh will occasion continual travel to-and from the scene of operations, and much machinery and other equipment will, of necessity, be needed

Now is the time for the promote's of the radial road to "get busy."

Each new day brings some new story of betrayal of trust or low-bred corruption, or, worst of all, some stupid scoundrelism pretending to be righteous. It would seem as though the power were taken out of the hands of the constituted authorities and centered in the profligate arts. And this is the time for men of undaunted courage to preach the gospel of heartening. The people need it, and their leaders need it most of all. The Ottawa Citizen very aptly "sizes up" the Ontario School curriculum. That its remarks contain a very large element of truth you could, without difficulty, find many people ready to swear to. > THE TOAST INCIDENT. Toronto Globe

The dinner to Mgr. Falconio, Apostolic Delegate to Canada, was a wellconceived tribute to a gentleman who has commended himself to all with whom he has come in contact. His graceful words, complimentary of Carada and its people, are undoubtedly sincere, and Canadians of all classes will regret that a gentleman who had fitted himself so happily into our life has had other duties delegated to him, That being the case, it must be corsidered as important that this mutua!ly pleasant gathering was somewhat marred by an injudicious transposition in the toast list. In this country of free opinion no individual need explain why he prefers to drink one man's These things feed the body, but by health rather than another's. ROBERTS AND THE GARTER

"BOBS" SAID TO HAVE REFUS-ED TO PAY FEES.

Says that the Reward Should Not be a Tax Upon His Private

New York, Nov. 23 .- The Sun has the

following special : London, Nov. 24.-An American visitor to St. George's Chapel, Windsor, this week noticed a curious omission in the paraphernalia of the Knights of the Garter. Each member of this, the highest British order, has a stall assigned for his use in the royal chapel, on which is placed his arms and knightly banner. The seat belonging to Lord Roberts did not bear these emblems of heraldry, and the visitor naturally inquired the rea-son of the omission. The old verger endeavored to evade the question, but the persistence of the inquirer was such that it finally elicited the information that, despite the fact of the King conferring the honor on Lord Roberts in public, the latter could not as yet enjoy the full benefits of Knighthood be cause he had refused to pay the tradien who should be in the cause he had refused to pay the tradi-tional fees exacted by court officials up-on the initiation of individuals who were about to receive the royal favor. It appeared, further, that the sum demanded for the acceptance of the King's

manded for the acceptance of the King's gift was no less than £1,000. This fat perquisite to court officials, Lord Roberts argued, should be paid by the Government, if by anybody. He had not sought the decoration of the Garter. It was given to him in partial recognition of his services in South Africa, and he did not consider it fair that what and he did not consider it fair that what was nominally a reward should in reality be a heavy tax on his private The matter has been in

CHANGE OF CLIMATE

Not Necessary in Order to Cure

The popular idea that the only cure for chronic catarrh is a change of climate, is a mistake because catarrh is found in all elimates in all sec-tions of the country; and even if a change of climate should benefit for a time the catarrh will certainly re-

Catarrh may be readily cured any climate, but the only way to do it is to destroy or remove from the system the catarrhal germs which cause all the mischief.

The treatment by inhaders, sprays powders and washes has been proven almost usaless in making a permanent cure, as they do not reach the seat of disease, which is in the blood and can be reached only by an internal remedy which acts through the stomach upon the blood and system generally.

A new discovery which is meeting with remarkable success in curing catarrh of the head, toroat and bronchial tubes and also catarrh of the stomach, is seld by druggists under name of Stuart's Catarrh Tablets. These tablets which are pleasant and harmless to take owe their efficiency to the active medicinal prin-ciples of Blood Root, Red Gum and a new specific called Guaiacol, which together with valuable antiseptics are combined in convenient, palatable tablet form, and as valuable for chil-

dren as for adults.

Mr. A. R. Fernbank, of Columbus, Ohio, says: I suffered so many winters from Catarrh that I took it as a matter of course, and that nothing would cure it except a change of climate, which my business affairs would not permit me to take.

My nostrils were almost always clogged up; I had to breathe through the mouth, causing an inflamed, irri tated throat. The thought of eat ing breakfast often nauscated me and the catarrh gradually getting into my stomach took away my appetite and digestion.

My druggists advised me to try fifty cent box of Stuart's Catarrh Tablets, because he said he had so many customers who had been cured of Catarrih by the use of these tablets, that he felt he could honestly recommend them. I took his advice and used several boxes with results that surprised and delighted me. I always keep a box of Stuart's Catarrh Tablets in the house and the whole family use them freely

on the first appearance of a cough or cold in the head. With our children we think there is nothing so safe and reliable as Stuart's Catarrh Tablets to ward off croup and colds and with older peoole I have known of cases where the hearing had been seriously impaired by chronic catarrh cured entirely by this new remedy.

MEN'S FUR COATS

AT SPECIAL PRICES

There is a difference in clothes as in men. The most money doesn't always mean the best. There are no better clothes made than those we are showing, but there are higher prices. Best means most satisfactory in the long run. A hot iron and a ton weight can press out a poorly made suit so that it looks very fine in a window. But only good, careful, skilled tailoring and all-wool cloth can make a suit hold its shape and look well for months and months.
