Miss Alice Huston has accepted a position with Mr. Lloyd Ward, during the absence of Miss Marian Spicer. It is proposed to establish a white-fish caning industry in northern Alberta. It is said there is no finer fish in fresh water than the whitefish of the far north iter and lakes. "Crime has not been cured, unrest has not been settled, and drinking has not been stopped by national prohibit-ion," says The Indianapolis News, "but there is less crime, more money in the body supposed that prohibitiant. The iquor business dies hard and the en-forcement officials must continue their efforts. Some people still get the booze they desire, but where one drinks now scores are leaving it alone."

of the breed wanted. In an endeavor to of the breed wanted. In an endeavor to assist our correspondents to locate the animals they wished to purchase it has often been found and sometimes too lafe that breeders right in their own vicinity had animals of the class of stock wanted for sale, but as they had nor been ad-

vertised for sale not had the intending purchaser advertised his wants, both parties missed a chance to do business which would have benefited both. From the above it would seem that a more extended scheme of advertising on the part of breeders who are either in need of or wish to dispose of stock would be profitable for all parties con-cerned. This advertising need not be very expensive. A small notice in the proper column of the local paper or in ne of the farm papers which is popular in the district would serve the desired purpose quite adequately. If the number and quality of the animals warrant it, a larger advertisement with an illustration

Advertising is of course of particular value in disposing of breeding stock or animals not in fit condition for sale on the regular market. The writer has in mind one particular class of stock namely, aged pure bred dairy bulls of good quality and known to be breeding good stock. Many of these find their way to the butchers every year when it would be nuch to the advantage of the breed as well as to the farmers disposing of them and luckily enough to get them, if they were kept for further years of service. A little timely advertising would in many

A note timely advertising wood in many cases accomplish this end. Lastly advertising must be more or less seasonable. The greatest demand for dairy cattle and swine breeding stock is usually in the last winter and early s usually in the late winter and early vertising to meet the seasonal require nents and it can then be done mos
