Don't
throw away Cold
Meats or Leftovers

If your cold meats
lack flavor—use a
little of Armour's
Extract of Beef—
made into a gravy
or sauce. It will take but
a minute—costs but a trifle
—and restores the original
flavor—making a tempting
and appetizing dish.

A number of the Canadian Pacific
hotels in the west will be largely in-
creased in size in the immediate fu-
ture, according to present expecta-
tions. The season of 1905 was exceed-
ingly satisfactory to the company; all
the hostleries of the corporation re-
ceiving a very liberal patronage. The
chalet at Lake Louise, which has
been visited by so large a number of
distinguished people during the past
few years, will be largely increased
in size. The Banff hotel will also re-
quire enlargement, and plans to this
end are now under consideration. An
army of men are at work on the
hotel building of the company, and
it is expected that the entire struc-
ture will be ready for use in the early
summer.

Great Medicine.—Tontl, one of the
doctors of French-Canadian, built a
hand and wore an iron hook as a sub-
stitute. He was in the habit of box-
ing with the ears of refractory Indians
with this iron hand, and they have
remarked that it was "great medi-
cine." Dr. Thomas' Electric Oil is a
great medicine; it takes hold of pain
with an iron hand and knocks it out
of the system.

Next spring the Presbyterian
church will make an addition of \$60
to the salaries of ministers in
suggested charges, of which there are
70. In these there are 503 mission
fields, containing 1,332 preaching
stations.

A. DesBrisay's.

All the hotels and restaurants in
town were beautifully decorated for
Christmas. Each one issued a special
Christmas menu card and the bills of
fare, it is needless to say, were in-
creased as usual.

The fire brigade was called out at
4 o'clock on Christmas afternoon on
a surprise alarm for the purpose of
testing their efficiency and turned
out promptly.

essential, especially for cakes and
pastry. The Prairie Pride Patent
brand is a flour that never yet
has been surpassed in any particu-

nutritious qualities so desirable in
a family flour.
