

Health Restored by The Fruit Treatment

Fourteen years ago, Mr. James S. Delagaty, of Collett Plains, Man., was a nervous wreck. His system was shattered by Nervous Prostration, and he was reduced in weight from 140 to 115 pounds.

He wrote on May 15th, 1917, "Every medicine I tried proved useless until a friend induced me to take 'Fruit-a-tives.' I began to mend at once. After using this fruit medicine for three months, I was back to normal. I have never had such good health as I have enjoyed the past six years. We are never without a box of 'Fruit-a-tives' in the house."

Writing again on September 27th, 1923, Mr. Delagaty says, "I stand by my letter to you in 1917—I still recommend 'Fruit-a-tives.'"

"Fruit-a-tives" is a complete fruit treatment—being made of the juices of fresh ripe fruits and tonics. 25c. and 50c. a box—6 for \$2.50—at druggists or sent postpaid by Fruit-a-tives Limited, Ottawa.

AUTO ACCIDENT

What has resulted in a very serious accident took place in this community early Wednesday morning of last week, when Edward Tumbleton and Mae McKellan were thrown from the car in which they were travelling. They were on their way from Perth to their home at Birch Ridge when almost in front of the Red Rapids post office along the Tobique river road their car turned over throwing its occupants out. McKellan escaped with little or no injury but Tumbleton sustained serious injuries. He was rushed at once to his home and from thence to the Woodstock Hospital where he is under the treatment of Dr. Rankine. It was found upon examination that he has four ribs broken at the back, a fractured skull, a punctured lung in addition to a couple of bad cuts about the face. The latest report is that he is in a very critical condition.

"DAVID COPPERFIELD"

David Copperfield is on the screen at last! Who can ever forget the story of that much-abused little boy who moans with so many hardships and sorrows, but who finally comes into his own as an author and lover? Neither can we forget the host of characters both lovable and evil which surround him through his life. From the masterful pen of Charles Dickens came the tale of David Copperfield in the form of a novel, but it is vastly more than fiction. It is the life of the novelist to a certain extent as he himself recorded it. And strange indeed are some of the people with whom he had to deal. Take, for instance, Mr. Wilkins Micawber, who confidently expects "something will turn up." Such a character is one that no one but Charles Dickens would have met

or would have created in story form had they met him. And to transfer this man to the screen and make him a living, breathing person would seem to be almost an impossibility. But that is what has been done in David Copperfield. And he is not just an actor playing the role of Micawber.

For years the reading world has revelled in the works of the famous author, Charles Dickens. Throughout the universe the young and the old have raved over the novel, "David Copperfield," which Mr. Dickens declared was his favorite story. When arrangements were made to adapt the romance of David Copperfield to motion pictures, there was great concern over the manner in which it would appear as a screen production. The picture has been made with great care, precision and despatch and the result has been that the makers have adhered closely to the original theme of the world-loved story.

Here and There

It is announced that vigorous efforts will be made by the Government of Manitoba to effect the actual settlement of 224,000 acres of vacant provincial land now under the administration of the Crown.

For the week ended June 21st traffic earnings of the Canadian Pacific Railway amounted to \$3,301,000, as compared with \$3,159,000 for the corresponding period of 1923. This is an increase of \$142,000 or 4.4 per cent.

Reports from the Roynan gold fields of Quebec continue to indicate a great future for that territory. Development is proceeding apace and the English capital now flowing into Canada in search of good investments is interesting itself in this area.

Three carloads of seed grain are being shipped weekly from the provincial seed cleaning and marketing plant at Edmonton, Alta. About 50,000 bushels of seed grain have been handled by the plant since last fall and 20,000 bushels more will be handled before the year's seeding is completed.

The International Paper Company intends to add two new machines to their plant in Three Rivers, Que., so as to increase their production from 300 to 450 tons daily. Another project is also under consideration, viz., to build a plant in Batiscan instead of enlarging the Three Rivers one.

Out of every dollar the Company earns, the sum of 81 cents is spent by the Canadian Pacific Railway in the home markets of Canada for wages, materials, supplies, taxes and insurance, figures recently issued show. In 1923 the total earnings of this great corporation were \$195,874,890, and every community in Canada directly benefited by the expenditure of 81 per cent. of this huge amount in the home market.

The 1924 cut of the East Kootenay (B.C.) forestry district gives promise of running to a grand total of 150,000,000 feet. There is a particularly brisk business in poles of longer lengths and in railway ties, and a cut of some 1,000,000 sawn ties and the usual quantity of the hewn variety is looked for. Sixteen sawmills are now in operation and indications are that there will probably be thirty going before the season closes.

Canada now takes third place, and second place among British possessions, of the gold-producing areas of the world. The total gold production of the world for 1922—the latest year for which returns are available—was 15,440,000 fine ounces, of which the Transvaal produced 7,020,110, or 45.5 per cent. The United States came second, with 2,363,075 ounces, or 15.3 per cent., and Canada followed, with 1,263,364 ounces, or 8.2 per cent.

June 18th was the anniversary of the running of the first Imperial Limited, the Canadian Pacific Railway's famous transcontinental. This was not the Company's first transcontinental, as trains began regular service between Montreal and Vancouver as far back as 1886, but for several years it was the crack Canadian Pacific express. To-day the premier place is held by the Trans-Canada Limited, the fastest long-distance express in the world, which makes the run in 90 hours, or 10 hours less than the time of the original Imperial Limited.

INDIAN HEADPIECES

(Edmundston Observer)

The streets of Edmundston these days give the appearance of an Indian encampment. Everywhere you go you see boys and girls with Indian caps upon their heads. All the colors of the rainbow are represented in the feathers which make up these Indian headpieces. Being anxious to know from whence these caps came, whether the boys and girls belonged to a new kind of secret organization, the Editor went out on the warpath himself to secure the information. After following the trail, and interviewing some of the "Braves and Paposes, and Squaws," he was led by secret paths to the camp of the War Chief himself, which he discovered was R. W. Hammond's store. And he found that in order to belong to his new order of Exalted Red Men, all you had to do was to purchase a quarter of a pound of Lipton's Fam-

ous Tea, for a quarter, and then you were capped. Any youngster who has not got one of these fine Indian caps would do well to visit this store with the necessary 25 cents and secure one for they are going fast, and the supply is limited. And the Tea, by the way, is as good as you can find, for it is grown on the famous Lipton plantations.

MRS. JOSEPHINE DUSKIN

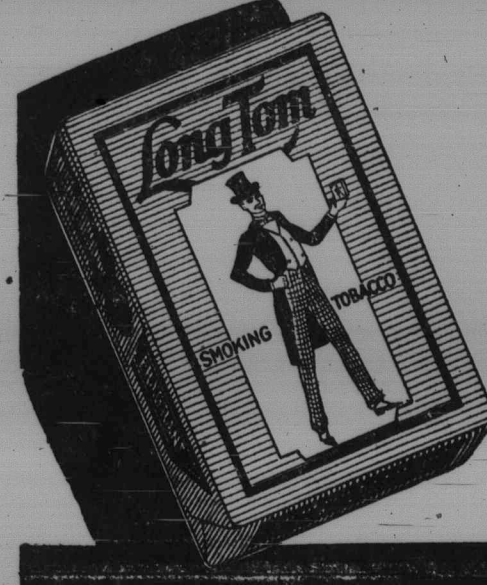

The death of Mrs. Josephine Duskin of Haverhill, Mass., occurred on July 29, after a lingering illness of cancer. Her remains were brought to her old home in Canterbury for burial. The services were conducted by Rev. P. J. Quigg and the burial took place in the Canterbury cemetery. She leaves to mourn their loss her husband, three sons and one daughter and five brothers, James Miller of Hartland who went to Haverhill and brought the remains home for burial is a brother of the deceased. She professed religion a number of years under the labors of the Rev. David Brooks and, united with the Canterbury Primitive Baptist church. Much sympathy is felt for the family in their bereavement.

KATHLEEN HATHAWAY

Much sympathy is felt for Mr. and Mrs. Alphonse Hathaway of Aroostook in their loss of Kathleen, their daughter of 12 years. She died in Community Hospital, Fort Fairfield, from blood poisoning last Thursday noon, July 17th and was buried on Friday in Andover Baptist cemetery. The service was held in Aroostook hall and was conducted by Rev. Erle E. Fytche assisted by Rev. C. O. Howlett.

Baked Enamel Finish Jewett Quality and Power

THE Jewett Brougham is a flashing beauty. Has a brilliant lustre all over the car that will last for years. Produced by a new process.

Each separate steel body panel is dipped three times in finest black enamel—baked three times at high temperature—rubbed after each coat—then fastened to the staunch wood body frame. A fine quality body.

Both front seats fold forward. Easy entrance and exit, either side. Rear seat is wide. Fawn colored velour upholstery, deep easy cushions.

Its 50 h.p. motor gives you "peppy" Jewett performance. Its rugged chassis proves the advantage of strength over light, flimsy construction. Try this car—yourself—today!
