THE FARMER'S GUIDE

Scientific and Practical Agriculture,

STEPHENS'S BOOK of the FARM,

By HENRY STEPHENS'S BOOK of the FARM,

By HENRY STEPHENS'S BOOK of the FARM,

By HENRY STEPHENS, F. R. S., of Edinburgh, with an American Appandiz by J. P. Nonron, Penfavor of Scientific Agriculture in Tale College, New Haven.

THIS Work embraces every subject of importance connected with Agriculture in all its various branches both theoretical and practiced. "In clear and copious details, the fulness and accuracy of its information, the completeness of every illustration, have in an Agricultural work on practices, never been equalled." It is arranged under four separate heads, represented by the four seasons of the year.—Winter, Spring, Summer, and Autumn—and the notes of professor Norton are appended in the same order, adding greatly to the value of the work, by adapting it to the soil, climate, growth, &c., of this country. The united labours of two such distinguished writers constitute this the most complete and valuable Agricultural work ever issued from the press. It comprises two large royal Svovulumes, and contains 1600 pages, besides 14 sphendid steel engravings, and about 600 engravings on wood. The latter illustrate almost every implement of husbandry now in use; the various methods of ploughing, planting, &c.; and the former, the domestic animals, and the firm steeding.

THE FARKER'S GUIDE.—This work is a rich mine of Agricultural knowledge, presented in a simple and familiar style, giving copious details of the best practice on English farms, and adapted to general use in this country, by the judicious notes of the American editor. The intelligent farmer will find it very attractive reading. In the comparison between English and American husbandry, for which it furnishes ample materials, he may obtain many valuable hints for increasing the product of his own acres. The mental stimulus given by the perusal of such writings is quite as important, a their more immediate purposes.—New York Tribune.

Specimen numbers of the above work can be seen at George T. Hassardp's Boo

Cattle Shows and Ploughing Matches, 1852.

THE Annual CATTLE SHOWS will be held this year, at the times and places undermentioned, viz.:—

In Queen's County, at Charlottetown, on Wednesday, the 29th of September.

In King's County, at Finlay's Cross Roads, Lot 51, on Friday, the 1st October.

PLOUGHING MATCHES.

An Industrial Exhibition,

A SALE of LIVE STOCK, of Improved Breeds, will be held in Charlottetown, on Wednesday, the Twentys-nink day of September next, being the day of the Cattle Show, under the direction of the Committee of the Royal Agricultural Society. All persons having Cattle or Sheep, of an improved breed, to dispose of, are requested to send in their names to the Secretary of the Society, together with the pedigree and age of the animal, on or before the lat day of August next, and the Secretary will enter the same in a book kept by him for that purpose. On the completion of the list, an Advertisement will be inserted in the Island Newspapers, and also in some of the papers published in the Provinces of Nova Scotia and New Brunswick, containing a correct list and description of the animals entered for sale. The Society will make arrangements with an Austiencer to sell the Animals, for a small commission, which will be the only charge to the seller. The owner will be allowed to buy in the animal, if he shall not be content with the highest bid, in which case no charge will be made. In order to keep up the character of the Stock, then to be offered for Sale, under the ampices of the Society, the Society reserves to itself the right of rejecting any inferior animal when brought to the ground.

By Order, C. STEWART, Secretary.

PATENT ARTHFICIAL SLATES

And Unchangeable Metallic Paints:

PROOF AGAINST FIRE & WATER!

And Unchangeable Metallic Paints:

PROOF AGAINST FIRE & WATER:

Manufactured by the Patentee, in Colchester, Nova Scotia.

THE ARTIFICIAL SLATE is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most indestructible; the Chemical affinity of which converts the surface of unterials covered, into a Couling of Actual State—Proof against FIRE and WATER. Thus the laws of nature are made to accomplish results as surprising as they are useful, by readering Wooden fabrics as durable as brick or Stone, and less pervious to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter not only binds and attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the State. As various shades of colour are obtained, Brick buildings may be made impervious to moisture, and the fashionable colours of either Free Stone or Granite. The oil must be evaporated by the action of the weather before it is Fire proof, which will take from nine to twelve months.

The METALLIC PAINTS, Purple and Red, are offered as Weather and Water Proof solely. Their base being Iron, secures them from Galvanic action so fatai to lead and other Paints on Iron work—and their chemical combination makes it impossible, that any change should take place from atmospheric influence or the action of Salt Water and Sulphareted hydrogen so prevalent in Sea Ports and Tidal Harbours. They surpass all Paints yet discovered in Cheapness and Durability, which reader them pre-eminently adapted to the covering of all kinds of Iron work, such as Skipping, Milts, Bridges, Steam Machinery, Railway Cara, and Iron Railing. The METALLIC PAINTS have been analysed by Professor Hays of Boston. The following is an extract from his Certificate:—"As a permanent pigme article),

60 Hhds. and tierces Muscovado Molasses
50 Boxes Tobacco
120 Do. do. No. I Soap
50 Barrels Rum, (high proof)
12 Do. crosshed and powdered Sugar
20 Boxes Salaratus
30 Do. Mould Candles
25 Do. Lemons and Oranges
100 Sides Sole Leather,
30 Barrels Russet Apples.
to above together with a quantity of Ground Coffee, Cheese,
Letter Paper, Fruit, Lemon Syrup, Rubber Shoes, Groats,
Butter, Soda, and Lemon Biscuit, Ship Bread, Naval Stores,
&c., the Subscriber is daily expecting, and will sell, to arrive.

Linseed Oil and a little Spirits Turpentine to the consistency of very thick Paint, and apply with a common Brash, being careful to keep the mixture well stirred while putting it on. One pound will cover ten square feet with two Coats.

If Shingles have been on for years, it will be necessary to sweep off the moss and lint with a stiff broom; two or three coats of this material will make a perfect Slate Roof, proof against Fire and Water.

FREDERICTON, N. B., Nov. 13, 1850. A lot of Naval Stores, Tobacco, Sugar, Tea, Coffee, Chocolate, Pickles, Sperm Candles, &c., &c.

FREDERICTON, N. B., Nov. 13, 1850.

New SPRING GOODS—1852.

Josephine, a choice selection of Spring GOODS, comprising a large assortment of Bonnets, Gloves, Ribbons, Neckties, Silks, Satins, Black and White Lace Veils, Black Silk Laces; some very wide Printed Muslin De Laimes, Chintz Cashmere, Balzerine and a variety of other dress Stuffis; Embroidered, and Curvelli Robes, Prints, Shirtings, Hosiery, Laces, Edgings, Insertions, Parasols, in great variety, Ladies' Hair Nets, ready made Clothing in variety; India Rubber Coats and Leggings; and a large assortment of other fancy and staple goods, in the latest LONDON fashions, which will be sold at the lowest Cash price by the Sabscriber. FREDERICTON, N. B., Nov. 13, 1850.

Mr. J. W. IRISH.

DEAR SIR,—Please send us two more barrels of your Artificial Slate. We have seen some of the good effects of it at the last fire. Some of the Roofs covered with it did not catch at all, and when the walls were barnt some of the roofs came down in one piece, and others were the means of saving the balding, especially one roof alongside of the Bank B. N. A., which also was one means of saving the Bank.

Please see that it is on board of the first boat, as it might be neglected and stored.

Your obedient Servants,

Your obedient Servants, STEWART & NEILL

St. John, N. B., July 20, 1850.

John Ross, Esq., Patentee of the Purple Metallic Ire

Paint.

Sir.—I have just painted a new Ship with your Metallic Iron
Paint, and I have much pleasure, in stating that I never painted a
Ship with so small a quantity of Paint and Oil, and look so well.
From its adhesive qualities and the manner it covers the wood, I
have no doubt but it will be more durable and much cheaper than
any other paint used for such purposes, and would recommend it
to the public generally.

Yours, &c. Charlottetown, May 18, 1892.

New Goods.

Yours, &c. ROBERT G. MORAN.

Ross' METALLIC PAINTS.—We have already called public attention to the high estimation in which the Metallic Paints, manufactured by John Ross, Eq., Truro, are held by those who have had occasion to use them. Certificates of a highly satisfactory character in praise of those articles of Provincial manufacture appear elsewhere, in this issue, and from information afforded by parties who have similarly applied them, we can safely endorse the opinious therein contained.—Halifax Sun.

The METALLIC PAINTS are mixed and put on like an ordinary paint.

JAMES D. HASZARD,

May 18, 1852.

Attorney for the Legatees. At home for consultation daily, from 10 till 3, and 6 to 8.

REVIEWS OF THE WORK.

"MANHOOD, by J. L. CURTIS—We agree with the Author, that so far from works of this class being objectionable in the hands of youth, or difficulties being opposed, every facility should be given to their circulation; and to strengthen our opinion, we need but refer to the recent distressing events at our Military and Scholastic Academies at Carshalton and Woolwich."—Naval and Military Gazette, Eds. 1, 1851.

Valuable Farm for Sale.

To be Sold at Auction without reserve, on THURSDAY, the 24th June, at 11 o'clock, at the place, the Leasehold Interest for the term of 999 years, the Farm of Spring Vale, occupied by the late George Campbell, Esq. It contains 158 acres of excellent Land, fronting on the West side French River, 16 chains front; it is subject to 1s. Sterling, Rent, per acre, per annum. From 80 to 100 acres are clear, the rest are covered with a good growth of Hard and Soft Wood. The Soil is well adapted for crops of all kinds. There is a good Dwelling House and Bara on the premises, both of which are well sheltered from the North West and West Winds by a thick grove composed of different kinds of wood. Belts of young wood are left enclosing fields of from 4 to 5 acres, which are useful in preserving the fences and retaking the snow in winter. Valuable Farm for Sale.

which are useful in preserving the fences and retaming the whole.

This Farm is beautifully situated, commanding an extensive view of New London Bay, the Gulf and the surrounding country it is within one mile of the Harbour and English Church, 14 mile from the Scotch Church. It is well adapted for a Mercantile establishment; as it is in the centre of a populous étitlement. The water is deep, close to the shore, so that a vessel can approach so as to back a cart along side.

This property may be sold in one or two Lots to suit purchasers. Two-thirds of the purchase money allowed to remain till the 10th of October on good security.

ALSO—

On the same day, the Crop, Stock, Farming Implements, and Household Furniture, &c., will be sold. For further particulars see Hand Bills.

GEORGE ANDERSON, Auctioneer. New London, May 20, 1852.

VESSELS for SALE,

THE Subscribers now being Sole Owners of the following name ed American wrecked Vessels, offer them at private Sale and would invite those in want of good and lasting vessels to examine those White Oak, Copper-fastened, and thorough-built vessels, viz. the Schooners William, Martha Ann, Lucinda, and Ocean, in Malpec Bay, and the Montano, at Heg Island, These Vessels, if sold, will be delivered afloat, and repaired, where required; part of them are now off, and the remainder in progress of being got off.

Also, the Balarama, at Fish Island, as she now lies or affoat. Those in want of Vessels will do we'll to make early application to either of the Subscribers.

LUTHER BRACKET,

LUTHER BRACKET, J. WEATHERBE, WILLIAM B. DEAN.

Charlottetown, April 12, 1852.

For London direct,

HE fine new copper-fastened Bark "EARL SELKIRK" 900 tons burthen will sail for London on or about the First of July, and will have good accommodation for a respectable Family, and a limited number of CABIN PASSENGERS. Persons bound for Australia, will find this a convenient and cheap route, whether as Cabin or Steerage Passengers. First class Ships are leaving London almost weekly, for the various Australian Ports. A comfortable Second Cabin can be fitted up, if early application is made by a sufficient number. For terms of Passage, (which must be prepaid), apply to the owner,

W. DOUSE.
