ENGLAND AND THE EAST. NPOPULABITY OF MR. GLADSTONE'S POLICY

IN GERMANY-SIGNIFICANT ARTICLE IN THE REPUBLIQUE FRANCAISE "-THE ALBANIAN LEAGUE RESOLVED TO RESIST THE CESSION OF DULCIGNO. LONDON, Oct. 19.

LONDON, Oct. 19. A large quantity of ammunition for heavy artillery is at the Pirzeus. A Berlin correspondent telegraphs :--It is positively known that Austria, Germany, and France have resolved to hold aloof from Mr. Gladstone's coercive measures. A deepening dislike and distrust of Mr. Gladstone is be-ginning to be displayed throughout Germany. A Paris despatch says the *République Fran-*caise, M. Gambetta's organ, in an article dis-cussing the relation of France to the Eastern question, says that France must have an active Eastern policy. In the struggle that is impending she cannot afford to remain impassive. The *République Française* adds that nothing can be done for any changes made along the Mediterranean without affecting the in-terests of France. In view of M. Gambetta's influence with the Cabinet this utterance is regarded as very important, as portending a substitution of a radical for a Conservative policy of the Government. IR. GLADSTONE'S POLICY AND ITS POSSIBLE RESULTS. special cable to the World from L.

A special cable to the World from L. J. Jennings in revrewing the events of the week in Europe says that the apporters of Mr. Gladstone's Adminis-iration privately admit that another war in the East is inevitable at an early date, prob-ably next spring, and that if Mr. Gladstone persists in his policy it will be in alliance with Russia alone. The Ministerial press, Mr. Jenning says, is confident that Mr. Gladstone will succeed in finishing the work he set out to perform. substitution of a radical for a Conservative policy of the Government. The Cologne Gazette and the Berlin Post denounce Mr. Giadstone. The former calls him a dangerous fanatic, and attributes the agitation in Ireland to the contagion of his revolutionary schemes in the east. The Post accuses him of pursuing a policy in the East opposed to the true interests of England. Riza Pasha has again attempted to per-suade the chiefs of the Albanian League peacefully to surrender Dulcigno, but they have resolved to resist the surrender.

Successful Effort to Awaken French In-terest in Quebec.

A Successful Effort to Awaken French In-terest in Quebec. QUEBEC, Oct. 19. — L'Evenement of last night contains a long and interesting letter from Paris by its editor, Senator Fabre. Speaking of Mr. Wurtele's mission to France, Mr. Fabre says that he was successful in both objects he had in view, viz., the com-pletion of negotiations with the French bankers concerning the new provincial loan and relative to the Credit Foncier Franco-Canadienne. On the 1st inst. Mr. Fabre states that he assisted at a re-union at the Banque de Paris, held to define the objects and the mission of a delegate of the bank to be sent to Canada, and to regulate the last details prior to his departure. There were present at this re-union M. Joubert, Vice-President of the Bank, Mr. Cohen Danvers, M. Sautter, M. de Molinare, M. Thois, and Mr. Wutele. It seems that the mission of M. Thois is to ascertain what sort of a field Canada will offer for the operations of the Gredit Foncier, and also whether it will be most advisable to leave the capital at 25,000, 000 francs, or to increase it to 50,000,000. M. Thois, who sailed from Havre about a fortnight ago, remains in New York until the arrival of M. de Molinare, who was to judged from the fact that Lady Mountmorris, who returned home after the murder of her husband, has been subjected to such persecu-tion that she is obliged to leave. A great demonstration of Orangemen, num-bering 4,000, took place on Saturday at Donoghloney, County Down, to protest against the Parnellite agitation. Two police-men took notes of the speeches.

The new French shipping company has ordered five steamers to be built on the Clyde, to constitute part of the equipment of its line between France and America. The vessels are to be first-class in every respect. The Austrian Consular dragoman who with his wife was killed at Prisrend by natives dispatched two of his aggressors and wounded two others. The Porte has ordered the Government to take energetic measures to arrest the assassins. The deed appears to have been an act of private vengeance.

THE CESSION OF DULCIGNO.

A London correspondent at. Cattaro has re-ceived news from Cettinje that the Monte-negrins, before occupying Dulcigno, desire a guarantee that they will not be attacked y the Albanians.

M. Thois, who sailed from Havre about a fortnight ago, remains in New York until the arrival of M. de Molinare, who was to have sailed a week later. The latter gentle-man, an eminent French publisher, will write in the Journal des Debats a series of letters intended to shed light upon the re-sources of this country, and the opportunities which it offers for European speculation. of internal order or policy arises. In a letter published to-day, Mr. Forster, Chief Secretary for Ireland, avows the de-termination of the Cabinet to preserve law and order in Ireland without, if it can possibly be helped, depriving the Irish people of any sale-guards of personal liberty. He says the causes of the disorder lie very deep, and can-not be removed without wise legislation, and expresses the hope that the law-abiding men in the sister land will discourage outrages and aid the Government in its ardnous task of protecting life and property. Although the Chief Secretary in this letter is silent upon the subject of the intended prose-cutions, it is absolutely certain that the chief members of the Land League will shortly be arrested, and the knowledge of this spread constemation among the agitators in Ireland. The hostile course prelates in regard to the Land League leaders is meeting with undoubted approval, and in-dicates the first elements of the reaction, but there is an increasing desire to have the Gov-ernment propose some measuresfor estilement of the Irish grievances next session. Should the prosecutions be undertaken, there is a general hope that the less important agitstors will be unmolested, and that the proceedings may be directed against the real leaders. but his driver was shot dead. Additional particulars of the outrage near Skibbereen, County Cork, where a laadlord named Hutchins and his driver were shot at, and the latter killed by a party of men, show that the second shot was fired at Hutchins, who escaped by jumping off the car. The affair occurred in broad daylight. No arrests have been made.

LONDON, Oct. 19.

LONDON, Oct. 19. Parnell, replying to an address of the town commissioners of Roscommon, mentioned that he had received many threatening letters from persons representing themselves to be landlords or their agents. Healey, Parnell's scoretary, at a land meet-ing at Bantry, County Cork, declared there were as many evidences of cruelty and injus-tice on the estate of Hutchins, who with the driver was shot at near Skibbereen, and the latter killed, as on that of the greatest tyrant in Ireland.

Periah for Want of Food. SAN FRANCISCO, Oct. 13.—The revenue cutter Corwin brings news that at St Law-rence Island out of seven hundred inhabitants five hundred were found dead of starvation. The traders had introduced, liquor among them, causing them to neglect laying up their usual supply of provisions. The officers of the Corwin express the opinion that the Jeanette wintered on the Siberian shore, west of North Cape. The Corwin could not get far enough west to verify this belief on account of the ice.

Biddulph Practices in the County of Ottawa.

Biddulph Practices in the County of Ottawa, Oct. 13.—A correspondent sends to the Free Press the following particulars of a recent occurrence scross the river —"Last Sabbath afternoon, while Mr. T. Brenot and his family, living at Gilmour's mill, Hull, were in Ottawa attending the services of the French Presbyterian church, some miscreant took advantage of their absence to satisfy his thirst for cruelty and fanaticism upon one of their animals. On their return home they were told that their cow was dying, stabbed in many places. The kind neighbours had just lifted up the poor creature, sovered with blood and nearly exhausted. While they were stending to the wound's of the animal three shots were fired from the bush close by Mr. Brenot's dwelling, but fortunately no one was hurt. It is not the first time such perisections have fallen, upon that 'family. Already on two previous occasions the car of one of their sows was cut and one pig killed. Mr. Brenot himself was attacked some five years ago on St. John the Baptiat's day and left almost dying from the wounds he re-ceived."
