THE MODERN HOSPITAL

Dr. Wiley E. Woodbury, of New York, in a recent contribution to Leslie's Weekly, makes some observations on modern hospital construction which are of particular interest at this time, when hospital improvement and hospital standardization are receiving much public and private consideration. Dr. Woodbury, declaring "the ward system belongs to the stone age of hospital administration," pleads eloquently for a system which gives every patient a room to himself or herself, a room with an abundance of light and air and free from the many objections which are urged against the ward system. He writes:

The new Fifth Avenue Hospital will be nine stories high, built in the form of a letter X, thereby making it possible for each of the 300 rooms for the patients to be open to the light and air, and to keep the various rooms at such temperatures as we please. And each patient will have a separate room and bathroom. There will be no wards and not even rooms with two beds. Each patient, no matter what his or her financial circumstances may be, will have absolute privacy, will not know the suffering of others, and will be isolated that it will be practically impossible for germs to be carried from one ill person to another. Besides one half of the bed space will be free or nearly free.

In this short paragraph the New York expert states a proposition which challenges the serious consideration of every community seriously considering questions relating to hospital enlargement and hospital improvement. Other equally notable authorities, such as the heads of the best hospitals in the land, are contributing to scientific and popular journals views and opinions on various problems of hospital administration which show the subject to be one of great importance.

USE "DIAMOND DYES"

Assault Charge Preferred Against Liquor Inspectors

The case of assault preferred by Station Agent R. N. Woods against the liquor inspectors, James and Adam Dickson, was taken up in the police court, Chatham on Wednesday. Magistrate Connors presiding. T. J. Allen of Moncton appeared for Mr. Woods and A. A. Davidson of Newcastle, for the liquor inspectors. The evidence showed that the defendants had appeared at the office of the local freight shed and requested admittance to the premises for the locating of illegal liquor shipments. Mr. Woods acting on orders said to have been given to all government railway freight agents not to allow inspectors to examine property in freight sheds, refused to give the permission. The defendants then took hold of the plaintiff and placed him outside the office while one of them went into the freight shed proper. He did not make any examination of the goods in the shed at the time, according to the evidence adduced on Wednesday. The case is adjourned for written arguments to be presented by each side.

New Regulations on Luxury Tax

Ottawa, Oct. 28.—Applications for licenses as required by the new regulations under which the luxury taxes will be collected, are being received in great numbers by the district inland revenue offices, and it is expected that there will be few merchants without licenses when they open their stores for trading on the morning of November 1. On that date the new regulations will be in force, and merchants on selling any article on which the luxury tax is to be collected, must attach to the wrapper sufficient stamps to cover the tax. These stamps must be perforated in a special machine which is being supplied by the department of customs and inland revenue. On and after Monday, November 1, all merchants will be required to carry a sufficient supply of stamps, and use these for the collection of luxury tax on articles sold by them. Penalties are provided for those who fail to observe the new regulation by trading without a license and without using the luxury tax stamps on and after November 1.

American Boat Wins From Canadian

Halifax, N. S., Oct. 31.—Captain Marty Welsh and his Gloucestermen, sailing the fleet schooner Esperanto, have notched a hole on the trophy, emblematic of the championship of the fishing fleets of the North Atlantic, and need but one more win to carry home the cup and the \$4,000 prize money that goes therewith. In the first race of the international series, held off Halifax Harbour on Saturday, the American vessel defeated the Lunenburg schooner Delawana, Captain Thomas Himmelman, Canadian contender for the blue ribbon honors, with the utmost ease. On all points of sailing, reaching, running and dead to windward Marty's craft had more than the edge on the Canadian schooner and romped home a winner by eighteen minutes and twenty-five seconds, getting the gun when the Delawana was still three miles or more from the finish line.

Everybody likes Burley's Bread, order a loaf or two from your grocer. Fresh every day.

Neighbors See The Big Change

Moncton Woman Received Many Compliments on Wonderful Improvements Since Taking Tanlac

"I am a regular walking advertisement for Tanlac, for my neighbors are constantly remarking how much better I look and are asking what I have been taking," said Mrs. Frank Gallant, of 227 Dominion street, Moncton, N. B.  
"For three years I had an awful time with indigestion. I had hardly any appetite and after every meal gas formed on my stomach and made me miserable. I had sharp pains and a feeling like lead in the pit of my stomach. I had an unhealthy color and was losing weight and growing weaker constantly. I lost interest in everything, was in very low spirits and my life was a burden to me.  
"A number of my friends advised me to try Tanlac and it has put me in shape to where I have a splendid appetite and can eat anything I want and am never troubled a particle. I have gained back the weight I lost and am feeling so much stronger and better that life is a pleasure to me. My friends who used to sympathize with me are now complimenting me on my wonderful improvement. I am still taking Tanlac and always expect to keep a bottle on hand, for I prize it above every medicine."  
Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

"Delawana's" Owner Victim of Paralysis

Halifax, Oct. 31.—W. C. Smith, of Lunenburg, managing owner of the schooner Delawana, one of the contestants in Saturday's international race, was stricken with paralysis while conversing with friends in the rotunda of the Halifax Hotel tonight, where he is a guest.  
He was removed to his room and medical aid was immediately summoned. At a late hour he had revived somewhat although his speech was affected considerably. It is thought excitement attendant upon the race is to some degree responsible for the stroke.

Liquor Vendors Licenses Expired

St. John, Oct. 31.—The licenses of wholesale and retail vendors of liquor throughout the province expired tonight at midnight and so far as could be learned no arrangements have been made for the vendors to continue business. Local vendors hope that the Chief Inspector, W. D. Wilson, will enter into some agreement with them to permit them to do business until such time as they have received new licenses.

No "Bone Dry" Proclamation Within 60 Days

Ottawa, Oct. 27.—Statements which have recently appeared to the effect that the Dominion Government may within a few weeks issue the proclamations based upon the results of the recent voting in four provinces bringing about bone-dry conditions are not in accordance with the law in the opinion of federal law officers. The situation is one which from the legal standpoint involves the joint reading of the proclamations under which the recent votes were taken and the provisions of the Canada Temperance Act. The proclamations provide that in the event of a province voting dry the action necessary to make the vote effective must be taken under section 109 of the Canada Temperance Act. This section distinctly states that the Governor-in-Council may at any time after the expiration of sixty days from the day on which same was adopted declare that part two of this section shall be in force.  
The words "was adopted" are interpreted here as the date on which the vote was taken and not the date of the formal declaration of the result. If this view of the matter stands, it means that no proclamation could issue before late on December and as it is not usually the practice of the Government in such cases to abide by the strict letter that the provinces will assume full responsibility for the liquor laws within their borders until the New Year.

All Saint's Day Not a Holiday

Ottawa, Oct. 31.—For the first time in years All Saint's day was not observed as a public holiday in the Dominion Civil Service. At the last session parliament passed an amendment to the Civil Service Act, cutting out a number of church holidays, including All Saint's day, which have

Rich, Red Blood Necessary to Health

When the Blood Becomes Weak and Watery a Tonic is Needed to Build it Anew

Why are we being continually told that good, health-giving blood must be bright red? What has color to do with the quality? Just this—the oxygen in the air is the great supporter of all organic life. One function of the blood is to take the oxygen from the air—which it meets in the lungs and deliver it to the tissues of the body. When the blood, filled with life-sustaining oxygen, is sent out by the heart, it is bright red. When it returns, impure and deprived of oxygen it is dark.  
You will see, therefore, that there are two prime requisites of health, pure air and bright red blood—the pure air to furnish the oxygen, the rich red blood to carry it where it is needed. Dr. Williams' Pink Pills make your blood rich and red because they increase its power to carry oxygen, actually making it so much more able to carry increased life and strength to every organ in the body.  
Pale anaemic people whose nerves are on edge, whose cheeks are pale, and who tire out easily, should try Dr. Williams' Pink Pills, and note the steady improvement that follows their use. A case in point is that of Mrs. J. P. Rolston, South River Ont., who says:—"About two years ago my system was in a badly run down condition; and I kept growing worse all the time until I could hardly do my housework. I had severe headaches, and pains across my back and under my left shoulder. I did not sleep well and would feel just as tired when I got up in the morning as when I went to bed. Life seemed a burden. I had taken doctor's medicine for a long time, but it did me no good. Then as a result of reading about Dr. Williams' Pink Pills I decided to try them. When I had taken a couple of boxes I felt much better and when I had taken five boxes more I felt that I was again a well woman. I have not since felt any return of the trouble and I advise all women who are broken in health to give Dr. Williams' Pink Pills a trial."  
These pills are sold by all medicine dealers or will be sent by mail, post paid, at 50 cents a box or six boxes for \$2.50, by The Dr. Williams' Medicine Co., Brockville, Ont.

Miners Back At Work By End of Week

The prospect is that the coal strike will terminate by the end of this week through the miners' acceptance of the agreement arranged with the government under which the miners will get two shillings advance unconditionally until the end of the year, and in the future their wages will be settled by the creation of a national wages board.  
In the event of any delay in starting the wages board, wages will in the interval be settled on the basis of increase or decrease, according to surplus profits or otherwise from coal exports.  
Situation is Complex  
This depends upon such complex calculations as to render it hardly possible for any miner to understand, therefore, in the ballot to be taken next Tuesday, and made returnable Wednesday, the miners must necessarily be guided by the recommendations of their leaders. The leaders favor a settlement on these terms.  
The agreement is skillfully arranged so that all concerned, including the coal miners, will be interested in increasing the output as in case of a decrease output as in case of a surplus, by a reduction in their ten per cent share of the surplus profits. Adults' French Report

FORWARD MOVEMENT

Presbyteries throughout the church are holding conferences quite generally on the Forward Movement. In many cases these conferences are being largely attended by men and women representatives of the congregations. The emphasis this year is upon the spiritual life. The presbytery of Miramichi has appointed a conference to be held in Newcastle the day preceding the regular December meeting of the presbytery.

Amstin Chamberlain, Chancellor of the Exchequer, confirmed the announcement of the intention of the British Government not to exercise rights under the Versailles Treaty to seize the property of German nationals in the United Kingdom, in the event of the voluntary default of Germany of her reparations obligations.

Keep Horses Working

A lame horse or a sick horse is a useless expense. You have got to keep the horses working these busy days in order to make them show a profit on the investment. All you need to keep your stock in prime condition is
