The Ladies' Outfitters.

### LOCAL AND OTHER ITEMS.

The Supreme Court opened at Charlottetown yesterday; the Chief Justice presiding. Judge Hodgson intended to go; but was too ill.

At Saturday's trotting races at Woodstock, H. E. Phipson won the handicap all in 2:14, breaking the track record. Phipson did a half mile in 1:06 flat.

Advices from Triffin state that a regiment of Russian Cossacks stationed at a small village in the mountain near there, murdered all its officers and joined the revolutionists.

The combination of the sale of the Royal Bank got out of order on Wednesday, and the bank's stock expert, Mr. George Balsman, of Halifax, had to be sent for. Mr. Balsman arrived Thursday night by the Halifax and commenced work. Friday he had a hole drilled through the three inch door and arranged the lock.

At the Blaney shooting grounds in England, on Friday morning carried off the McKinnon cup, with a score of 92. Canada stood fourth with 68. Captain James of Power, made an individual score of eight hundred yards of 37. The highest Canadian score was 62. At nine hundred yards he did 44, at the thousand 41.

His Lordship, Bishop McDonald, accompanied by Rev. Stashless Macdonald, of Egmont Bay, returned from the Magdalen Islands on Friday morning last. During their visit to the Islands his Lordship administered Confirmation in three of the four parishes. About four hundred children, boys and girls, were confirmed.

The big railway and passenger bridge at Fredericton, N. B., was badly damaged by fire last Saturday evening. The fire originated in the middle of the bridge and the beam could not reach it. The two spans were burned and floated down the river. Thousands of people daily pass to and fro over this bridge, and this accident will cause great inconvenience, as it will be at least a month before traffic can be resumed.

Reports are going the rounds of the press to the effect that the police have discovered elaborate preparations for blowing up the castle of Iltis, near St. John's. It is reported that a family intended to take up a brief residence in the apartments designed for his majesty's use at the terrace passage was found leading to a cellar where 250 pounds of dynamite lay concealed.

A Halifax despatch of the 15th says: It is reported here that the turbulent Virginian has given Halifax a mail and passenger test next trip. Of course coming to Halifax will take the ship considerably off her regular schedule, but the idea is to give a practical test of fast line possibilities via Halifax. It is not certain that the test will be on the next trip and it may be delayed until the trip following. The time made can then be compared with that of the present run via North Sydney.

On Thursday last Edward McNeil, of Argyle Shore, about 22 years of age, was arrested on the charge of robbing \$100 cash and deposit receipts and other papers in the cash box of O. P. Henssbery, lobster packer. It will be remembered that the robbery was later from Mr. Henssbery's house at Argyle Shore some days previously. He was brought to Charlottetown and committed by the Stipendiary Magistrate to await trial. Bail was refused. McNeil was formerly in the employ of Henssbery as a sealer.

At a meeting of the Provincial Executive held Friday, Alexander Campbell, Inspector of Schools for Queen's County, was appointed clerk to the Chief Superintendent of Education, vice E. S. Farquharson. Mr. Charles W. Kelly, of Stanley Bridge, was appointed Inspector in place of Mr. Campbell. Dr. Durrant, of Kensington, was appointed examiner under the Pharmaceutical Act. Two license holders of the Poor House were ordered to be removed to Falmouth. Edward Hecox Howatt, of Central Bedouin, was appointed a J. F.

Two alarms of fire in quick succession at 4:45 o'clock Saturday brought thousands of people to the scene of the fire in George E. Smith & Co's hardware store at the corner of Redford Row and Campbell Hill. The fire was in the north corner of the fourth story, and when discovered great clouds of smoke were issuing from the upper portion of the building. The damage by fire is not heavy, but the stock suffered greatly by water. It is estimated that the loss will run to \$20,000.

At the meeting of the P. E. I. Medical Society on Wednesday of last week the following officers were elected: President—Dr. McLaughlin, city. Vice President—King's—Dr. O'Neil, Mount Stewart. Vice President, Queen's—Dr. Douglas, Eastport. Vice President, Pictou—Dr. A. A. McElroy, Branscombe. Secretary—Dr. H. D. Johnson, Treasurer—Dr. F. Conway. The Council are as follows: Dr. Taylor, city; Dr. Curry, city; Dr. McNeil, city; Dr. E. S. Farquharson, city; Dr. Durrant, city; Dr. Mackenzie, City St. John's. The Council met afterwards and elected Dr. Conway as President and Dr. James R. Beggan as Secretary.

It is officially announced at Tobin that the Russian cutter 'King Duke' and 'Victory' was attacked on July 11th and suffered substantial damage. The attack was rumored at dawn on July 11th, when the Japanese challenged the 'Victory' and 'King Duke' in the vicinity of 'Mithra'. This victory means the complete conquest of South Sakhalin by the Japanese. Highly poisonous gas taken by the Japanese, including Capt. Makino, four field pieces, one machine gun and ammunition provisions were also captured. The Japanese lost in about 30 men killed or wounded. The Russian loss is about 160 men.

In the Imperial House of Commons on Thursday, Premier Balfour referred to the speech of Field Marshal Lord Roberts in the House of Lords on the Monday previous in which the latter said that the second assault of the Great Britain on a body was absolutely unjustified and deprecated for use and decried emphatically that the whole by his own conception or some general opinion of a military training. The Premier said he had never believed that such a conclusion could be successfully adopted in England. He mentioned that the government's seizure of army reserves was the best relation of the British.

### LOCAL AND OTHER ITEMS.

Fifty-one persons were prosecuted by the best in Charlottetown yesterday morning. It was the hottest day up to date.

Promoter R. R. Orourke, arrived here Friday evening with his troop of educated horses, ponies, donkeys and mules. On Monday and yesterday the animals gaily agitated paraded the principal streets of the city. They numbered twenty-five and presented a beautiful appearance. The handsome animals are black, white, bay, brown and mottled. The larger horses led the procession and they tapered down to the two smallest ponies in the world they may bring up the rear. On Monday evening and last evening entertainments were given by these educated animals in the Opera House. All these horses came on the stage and marched, danced and waltzed most gracefully. They executed military evolutions, fired guns and canons. They gave a concert as ball-chasers; held a bridge, chess, draught, and jury and prisoner; brought a verdict of "not guilty," upon which the sheriff opened the dock and discharged the prisoner. They performed numerous other tricks, which could only be appreciated by being seen. They seemed to do nearly everything but talk, and all these performances were executed at simple words from their master. It is indeed a remarkable exhibition and well worthy of patronage. Between the acts were very interesting and most amusing moving pictures were shown on the screen. "Starting for the holidays," and the "Race meet," were not only decidedly realistic; but extremely amusing. These performances deserve good audiences.

Use Steam to Settle Dust.  
The city of Hartford, Conn., already equipped with the first practicable motor sprinkling cart built in America, comes to the front again with an automobile street sweeper, which has already demonstrated its utility in actual service. The length of the machine over all is sixteen feet, and it weighs four tons. Steam is used not only as motive power, but for laying the dust. Oil is used for fuel, the tanks holding a sufficient supply of oil and water for five hours' work. The operator steers the sweeper with a hand wheel, similar to that of a car, and a traction engine or road roller, which it greatly resembles. The engine is wholly enclosed. Careful estimates, says the Automobileist, indicate that this sweeper with an eight foot brush, will do the work of forty men—15,000 square yards of street in an hour—and do it better at a total cost of operation of less than \$1 an hour. All dirt and refuse is thrown by the rotary broom directly into a dirt box large enough to hold two ordinary cart loads. This box is unattended at the curb and may be emptied in a few seconds.

### Labrador Expedition.

Advices of the 13th, from St. John's, N.B., say: Sir Wm. McGregor, Governor of Newfoundland is busy with plans and preparation for a proposed visit to Labrador which will be the most complete ever undertaken by any governor of this colony, for it comprehends a scientific program of importance. His objects are to fix the longitude of some of the principal points on the Labrador coast, to make astronomical observations of certain spots from the Chateau and from Chilly, which will help to correct in exactitude, in the charting of the coast to carry out meteorological, tidal and hydrographic investigations, to search for minerals, and to make geological, botanical and zoological collections, and to conduct anthropological and ethnological studies of the natives of the region. Sir William will also have the advantage of the trained assistance of Commodore Faget of H. M. S. 'Boya', and Lieut. Reynolds, his navigating officer, as well as Captain Tucker of the 'Elliott' and Dr. Grenfell. They will be equipped with a complete equipment of chronometers, which instruments are indispensable in astronomical and kindred work.

### Fast Atlantic Steamers.

A Montreal despatch of the 14th, says: All previous records will be broken when the new Canadian Pacific steamships are added to this company's Atlantic fleet, May, 1905. These ships will have a guaranteed speed of 20 knots per hour. They will reduce the time from Montreal to Rimouski via Belle Isle to five days and four hours. These magnificent steamers will be 4,500 register, 420 feet in length and 65 feet beam, with triple screw and will travel with the newest and most complete equipment for the comfort of passengers. The distance between Montreal and the open sea is 1,000 miles of shallow water, leaving only 1,500 miles of open ocean, or less than three and a half days run by these fast boats. This should prove a great attraction for the St. Lawrence route as against the longer route on the open ocean to and from American Atlantic ports. This fast service by these steamers will insure the delivery of the mails from Montreal to Montreal in 5 days and 25 hours, which will greatly reduce the time being made for Toronto, Western Canada, Halifax and western states. This service for mails and passengers will be slightly faster than the present time via New York.

### Lightning Struck Boat.

A severe thunder storm broke over Charlottetown Friday night, during which the sea fell in torrents and the lightning struck two churches and several dwellings, causing a serious fire. The fire destroyed the North West Church in the Registry District, was struck shortly after nine o'clock and on the 19th. The damage is estimated at \$20,000. Three houses in the north end district were struck by the lightning and slightly damaged. The house of the Rev. Mr. Smith, in the North West Church, was also struck by lightning. Fortunately the lightning did not injure the steeple, but passed down it and entered the living room adjoining the vestry. A number of residences in the Registry District were struck, but the damage was slight.

## GRAND Scottish Gathering

The Annual Gathering of the Class, under the auspices of the Caledonian Club of P. E. Island, will be held **At Charlottetown,** On the Grounds of the Amateur Athletic Association, on **Wednesday, July 26,** Home Owners' and Carnival Week.
