TORONTO LETTER.

Gossip from the Capital of the Banner Province.

The Great Debate in the Legislature—The Canadian Lacrosse Team—Legislation with Railway Passes—"Edinboro' Jock's" Philosophy.

From our own Correspondent. Toronto, March 13, 1888.

The division on the now famous Inter-Provincial Resolutions revealed the fact that the matter of the amending of the British North America Act is regarded as a purely party matter, at least in one quarter. Mr. Mowat had a strong case in the fact that all the Provinces set British Columbia had sent representatives to the Quebec gathering, and that every clause was approved by the assembled premiers and cabinet ministers. However, the Opposition could see in the resolutions only a deep laid scheme to injure Sir John Macdonald, and without a break they voted for the Federal Government against the Provinces. The vote stood: Liberals 54, Conservatives 30—a large vote for the Legislature.

The Provincial Treasurer made a capital speech during the debate upon the Resolutions. It occupied two hours and a half in delivery, and was frequently applauded. West Huron's representative naturally dealt more especially with the financial phase of the matter under discussion, and he handled the subject in a rather vigorous fashion after a few interruptions from Mr. Meredith. Mr. Ross is becoming more aggressive in debate, and his figures read better when spiced with the compliments he pays the leader of the Opposition when that gentleman is rash enough to interrupt him.

The Toronto Lacrosse Club will visit Great Britain this summer, to give exhibition games before the sport-loving Brits. The members of the team are well up in handling the cross, and will show the Old Country men how the game ought to be played.

The Toronto World is attracting attention to the fact that many members of Parliament use passes from railways while receiving mileage from the country. Other besides the World are wondering if it is possible for such members to vote without prejudice on matters affecting the railways which favor them. "Edinboro' Jock," the philosophical tramp, whose thoughts upon labor and social problems were published in THE SIGNAL last week, appears to have told the simple facts from a very practical standpoint. His contribution on the tramp question is, in my opinion, of more value than that of any half-dozen "liberal" political economists who never knew what it was to want a square meal. The Royal Labor Commission should send for "Edinboro' Jock."

Flags at half mast were flying over several public buildings in this city today in memory of the dead Kaiser. The German population of Toronto is considerable, and the dead Emperor was beloved by his people, whether residing in the Fatherland or scattered abroad under another flag.

There has been a good deal of controversy in the papers about a Mr. Douthey, who has been holding temperance meetings in the city during the past month. Mr. Douthey, who is a dapper, dandilooking gentleman, with a moustache as black as the wing of Poe's raven, is an interesting speaker of the slangy, breezy and sensational school, and carries his meetings on in a style that has startled some of the more prim and staid temperance folk. He almost drags people forward to sign the pledge, and resorts to other expedients which remind one of the methods of a patent medicine fakir. His wife, who is an excellent singer, is also a source of attraction, and in addition to this vocal charmer, he has hired a troupe of really good juke singers (colored), whose melodies are beautifully rendered. Mr. Douthey claims that he is making no money, while others aver he is after money only. I really think the man is seeking in his own fashion to be helpful to his fellows, although I don't admire his fashion.

The Toronto World wants to know are you sure that early robin you saw a fortnight ago was not a snowbird.

EMPEROR WILLIAM, of Germany, died on Thursday of last week in his 90th year. His son has been declared Emperor, and will be known as Emperor Frederick III. "The King is dead! Long live the King!"

Hon. SENATOR PLUMB, Speaker of the Senate, died at his residence at Niagara on Sunday evening. He had been actively engaged in Canadian politics since 1874, and was one of the leading stump speakers of the Conservative party. In 1878 he was one of Sir John's principal assistants in the N. P. agitation.

SOMEONE since the Toronto World twitted Dr. Platt over the fact that he had lost his "hat" at Cobourg, and also opined that he would lose his parliamentary seat in the contest then pending. The election is over and—

Platt will wear his hat. And in his nest will have safe. In spite of this, and spite of that.

The Mitchell-Sullivan fight took place near Cores, France, on March 10th. The fight ended in a draw. Thirty-nine rounds were fought. The result of the draw battle is to take from the Boston professor of pugilism the prestige of being the champion slugger of the world, which he had held for ten years. If it will make him less of a blackguard than he has been during that time, the prowess of Mitchell will have one redeeming feature.

PASSED AWAY.—Mrs Rich, who had been a resident of Goderich for about 50 years, died on Wednesday of last week, in the 90th year of her age. The following is from the Toronto Empire of Tuesday: R. A. Hazlewood, F. L. S., and his assistants completed on Saturday for the C. F. R. the survey of the new line from Cookville to London. Three and one-half weeks were occupied with the work. This morning Mr. Hazlewood will begin a survey of the line from Guelph to Goderich, which will take about five weeks.

Doors open at half past seven, chairs taken at eight sharp. A good program will be given. A silver collection will be taken up at the close of the meeting in aid of the Band of Hope.

GIVING HIM DEAD AWAY.—This is the way the Hunter (Cass. Co.) Eye refers to the matter.—Robt Morris, one of our farmer friends from near Galesburg, is visiting friends and relatives in Ontario, and (Dames Rumor is authority for the statement) that upon his return in the spring, Canada will be the fairest flower of Old Huron. Robt's many friends herabouts are anxiously awaiting his return, to extend congratulations.

THE WEATHER.—During the past week we have had a taste of the cold spell, but nothing in comparison with other points in New York and other parts of the world, has been absolutely suspended. Tuesday was a raw day, but any one could get around without much inconvenience in Goderich. As we have repeatedly said, the cool weather in summer time, and mild weather in winter, it is impossible to beat Goderich.

A SINGULAR CASE.—A peculiar event is reported from Goderich township. A farmer who had a large threshing on hand, had either not the time or the inclination to get his horses sharply shod for working the horse-power, and so the track with wood ashes. The tramping of the horses and the straw combined to transform the ashes into mud, and the feet of the horses became so inflamed that the services of a veterinary had to be called in.

TRACER'S CERTIFICATES.—The Ontario Education Department has issued the following notices regarding examination for teacher's certificates.—Third-class examinations will be held from the 3rd to the 8th of July; second-class, from the 3rd to the 10th, and first-class, from the 10th to the 18th of the same month. Candidates for grade "A" or "B" will be examined at Toronto University, and candidates for grade "C" at Guelph, Hamilton, Kingston, London, Ottawa and Toronto. Candidates must notify authorities of their intention of writing not later than the 24th of May.

H. S. L. S.—At the open meeting of the High School Literary Society last Friday evening the following program was presented:—Recitation, Mr. Finlayson; chorus by the members; reading, Mr. McCluskey; editor's selection, Miss O'Leary; recitation, Mr. Bailey; address, Mr. Wilson; question drawer, Mr. Blair; chorus by the members. The following nominations were made: President, Messrs Wilson, McIntosh and Blair; 1st vice do, Mr. Hodge; secretary, Miss Andrews and Miss McLean; secretaries, Miss J. Wilson and Mr. McCluskey; treasurer, Messrs. Wilson and Strachan; editors, Misses O'Leary and M. Watson; librarian, Miss E. Watson and Mr. Finlayson; councillors, Misses L. Graham, E. McMath and Mr. Matheson. The meeting then adjourned.

A NOVEL ENTERTAINMENT.—A most interesting entertainment will be given in the Grand Opera House on the evening of Thursday, March 29, when Dr. Saubrah, the celebrated traveler, impersonator and humorist, will give "An Evening in the East" under the auspices of the Woman's Missionary Society. Saubrah was born in 1850, near Henthada, Burma, Farther India—that part of India where Dr. Judson labored—was converted to Christianity from Heathenism at the age of ten, and, after living and traveling with the missionaries in the jungles of India for twenty years, set sail for America, to receive a more thorough English education. Since arriving in America, he has been educated in Brown University, and afterwards has graduated in Newton Theological Seminary, Boston, and Jefferson Medical College, Philadelphia. In his entertainments he covers a field never before, nor indeed can be, touched upon by writer or traveller.

Mr Wilson, a young man working in Wilson's saw mill, had his finger badly cut with the saw last week. A literary entertainment in connection with S. N. S. 5, will be held in the Methodist church on Wednesday 21st inst., commencing at 7.30 p.m. The Methodist choir and some of the best literary talent of the village and vicinity, will have kindly consented to aid in the program. A good time may be expected.

A man named John Davis committed suicide in Wingham, Saturday about 9 o'clock by hanging. Davis has been ill and despondent for more than a year, and Saturday night he went out to the stable during his wife's absence and had evidently tried to hang himself with a sheet. Failing in this he procured a small piece of clothes line and attached it to the sheet. He then kicked a small box from underneath him and strangled to death. He could not have been hanging many minutes when discovered by his wife, who immediately cut him down. When cut down he was still breathing heavily, but the doctors were unable to restore him. He leaves a wife and several small children.

THE FLOUR QUESTION.

An Unwarrented Charge Against Oglivies & Hutchinson's Mill.

To the Editor of the Signal. Six.—Some time since a report reached me that Mr. William Cox and family, of Goderich township, had been poisoned by eating bread made from our flour. On making enquiry, we learned from Mr. Cox that he and other members of his family had been taken ill, and upon calling Dr. Whiteley, of Goderich, to treat the case, the medical gentleman gave as his opinion that they were all suffering from the effects of poison in their food, and upon examining a bag of flour that had been obtained at our mill, stated that he believed the flour contained the cause of the trouble. At our request, Dr. J. R. Shannon examined a sample of the flour from Mr. Cox's bag, and he reported that he found nothing wrong with it, and detected no deleterious matter in it. We then called upon Dr. Whiteley, and asked him why he considered the flour produced the trouble in Mr. Cox's family, and he stated that it had a bad smell, but he would not state that it was the source of the trouble. As the matter was a serious one to us, we at once determined to have the flour analyzed and thoroughly tested, and, through the kindness of Mr. Cox, were enabled to obtain a sample from the bag which was alleged to have contained the poisonous article. This, together with the sample which had been examined by Dr. J. R. Shannon, was made up in a sealed packet in Jordan's drugstore, and forwarded to McGill University, Montreal, for analysis.

About the same time Dr. Whiteley, we were led to believe, also sent a package of the questioned flour for analysis, choosing Prof. Ellis, of Toronto, as his expert. Thursday last we received the following letter which is self-explanatory, and which entirely frees our flour from the imputation that had been placed upon it.

"MONTREAL, March 5th, 1888. M. HURON, Esq., Dear Sir, I received last month from Mr. A. Hutchinson, of this city, two small packages of flour, marked 'Sample of flour from Wm Cox,' and 'sample of flour sent by Dr. J. R. Shannon' 15-2-88. These packages were put up in paper bags, bearing the name of F. Jordan, chemist, and were sealed with his seal. The seals were unbroken and the packages intact at the time of delivery into my hands. I have carefully analyzed both these samples of flour, and find no poison or other noxious substance present. If symptoms of irritant poisoning were produced by the flour at all, they must have been caused by something falling in the barrel which was entirely removed by the people the next time they used the flour.

I have the honor to be, Sir, Yours sincerely, R. F. RUTAN, B.A., M.D., Lecturer in Chemistry, McGill University."

Up to the time of writing, we are not aware that Dr. Whiteley has received any communication from Dr. Ellis, bearing upon this matter, and even should a second analysis be received, we question if it will run counter to that above given. We cannot, in the circumstances, help saying that we think more caution should be exhibited by medical men in cases of this kind, and are of opinion that before rash assertions are blurted out by persons who are supposed to possess such knowledge, a careful examination of the facts in the case should be made. Flour is an article that enters largely into the consumption of every household, and a doctor's opinion, no matter how carelessly or how guardedly given, is apt to effect the sale of the mill against which the allegation is made. Flour is cheaper than poison, and that any mixture of the diverse ingredients should take place in any mill is so absurd a contention, that it carries its reputation with it. Nevertheless, so that nothing would remain upon which the shadow of suspicion could possibly rest, we have taken the thorough analysis that has been made, confident that nothing deleterious or detrimental to the digestive organs of our customers would be discovered.

Yours very truly, COLLYERS & HUTCHISON.
