

CONVINCING
It is impossible for any argument in favour of Sunlight Soap to be more convincing than a trial of the Soap itself.

SUNLIGHT SOAP

TRY THE
SUNLIGHT
WAY.

Uncle Walt THE POET PHILOSOPHER.

O laugh and be joyous! Don't fret and annoy us by telling your troubles—we've some of our own; we don't want to nurse them or pet or rehearse them, and dreary old grouches should let us alone! We BE CHEERFUL try to keep smiling in manner beguiling, and just when our faces are stretched into shape, some gloomy old duffer starts making us suffer by telling us stories of horses and craps. We try to be sunny and cheery and funny, we'd kick up our heels like as many bay steers, but always some hoary old skate with a story of trouble and anguish lays siege to our ears. Our woes—we'd forget 'em; no more would we wet 'em with streams of the briny from sorrowing eyes. If they were exclusive, but people obtrusive are loading us down with their own stock of sighs. We'd bear our own burden and strive for the garrison of peace that should come when the battle is o'er but always some dub'll come up with his trouble, and stand and expound it until we are sore.

Reciprocity From the Patriotic Standpoint.

Editor Evening Telegram:
Dear Sir:—Hitherto, in your col-
umns, the question of Reciprocity
with the U. S. A. appears to have been
treated solely in reference to its con-
nection with Trade. If that were the
only position in which it could be con-
sidered, I—not being a business man
—would have nothing to say upon this
subject.

But I take a wider outlook than
that, for I am of opinion that this Re-
ciprocity if we have it will eventually
to some extent affect the whole British
Empire.

It is a question of such magnitude
as affects it altogether beyond the
region of mere party politics, and to
discuss it in that light is to degrade
it.

I am glad to find that both the Hon.
John Harvey and W. A. Munn, Esq., in
their able and interesting letters have
viewed it as standing altogether apart
from party politics, and solely in re-
ference to what they consider to be
its merits in connection with our
Trade.

As a loyal British subject I should
like to answer to two or three ques-
tions which I now venture to put to
your readers.

How far will trade union tend to-
wards promoting political union? Are
we Newfoundlanders convinced that
the unity of the British Empire is
worth cementing? If so, to what ex-
tent will that union be affected by
Reciprocity, if we have it?

Do we, Newfoundlanders, consider
ourselves justified in sacrificing Em-
pire interests in the effort to further
our own? If we do this are we, or
are we not, likely in the near future
to discover that we have thereby
adopted a penny wise, pound foolish
policy in regard to our own best in-
terests?

We front the Atlantic and guard the
main portal of entrance to the British
possessions in North America. If our
port be taken will not the safety of
the citadel itself be endangered?

I am certain that no matter how
carefully for their own political ends
American statesmen may at the pres-
ent time try to hide it from our view,
yet, nevertheless, the Monroe doctrine
which in its full outcome means all of
America for the Great American Re-
public, is still a live factor in United
States politics, and if opportunity of-
fers ready to become very active in-
deed.

The late President Taft, offers, is
no doubt, tempting, but I fear that
underneath it lies a powerful steel
trap in which to snare the unwary
Canadian Beaver, and a strong and
sharp pointed hook on which to impale
the simple Newfoundland Cod.

Like the Scythians of old I distrust
the Greeks when they come bearing
gifts.

Yours faithfully,
WALTER R. SMITH.

Newfoundlanders' Suc- cess at the Toron- to University.

Editor Evening Telegram:
Dear Sir:—It is with a great deal
of pleasure I report the success of
two Newfoundlanders in attendance
at the University of Toronto, both of
them students in Science and well
known in their native land.

W. S. Ramsay, has many friends in
St. John's, particularly, and they will
be pleased to learn that at the forth-
coming Science Convocation he will
receive his degree of Bachelor of Ap-
plied Science, having graduated this
spring. Mr. Ramsay has succeeded
entirely on his own merits and will
doubtless do well in his chosen pro-
fession of Electrical Engineering.

J. J. Lanning, who taught several
Newfoundland Schools under Church
of England Boards, was also list-
ed amongst the successful candidates
at the spring examinations. This is
Mr. Lanning's third year at Toronto
University, during which period he
has earned a splendid reputation as a
very conscientious and hard-working
student. Last session, as the result of
his college record he was recommend-
ed to the Geological Survey of the
Canadian Government as an assistant,
and filled an important position with
the Survey during their operations in
the Northern half of the Dominion all
through the vacation. His work was
highly praised by the chief of the

MRS. DAHL ARRIVED.—Mrs.
Dahl, who was injured on the train
last week coming from Port aux Bas-
ques, arrived by the express Satur-
day from Bay of Islands. She was
so weak that the porter had to carry
her in his arms to the carriage in
waiting.

DOING WELL.—Mr. Rd. Whitty,
painter, had a letter Saturday from
his brother, William, who is in
British Columbia and doing well. He has
been 14 years away from here, had
not been heard from for over 10
years, and his friends feared he was
dead. He has some mining claims of
his own and hopes to visit here later.

INSTALLING POWERFUL MOTOR
—The Reid Nfld. Co. are now install-
ing a powerful 24 h.p. horse power elec-
tric motor at the head of their pier
at the dock premises. This will op-
erate the big derrick there and which
is capable of lifting 20 tons with ease.
Heretofore steam was the motive
power used.

TROUBLE ON STEAMER.—One
of the firemen on the s.s. Coban came
on board under the influence of drink
Saturday night and started to raise
" Cain." The police were called and
took the man to the station. The man
on going aboard was in an ugly hu-
mor, whipped out a knife and brandish-
ed it, cutting one of the sailors, but
not seriously.

EIGHT PRISONERS JAILED.—The
police had a busy night Saturday and
by 9 o'clock that night had 8 prison-
ers in the cells. These were all
drunks and disorderlies. Four of
them were arrested before 6 p.m.,
while the remainder were taken in
between that hour and 9. There was
a good deal of drunkenness evident
on the streets.

AN EMIGRANT'S LUCK.—When
the Mongolian was here last week
with a number of emigrants on board,
one of them, a young Englishman,
who is a brass fitter and a locomotive
machinist and who was bound to
the Canadian North West, applied to
the Reid Nfld. Co. and received em-
ployment in their shops at a wage
which he could not command in the
Old Country. He is a specialist in
his work with much experience. He
served his apprenticeship in some of
the best shops in England.

BERGS DAMAGE TRAPS.—Small
icebergs known as "growlers" are
becoming a nuisance off this port of
late and last week did considerable
damage to traps owned by South Side
fishermen. A trap owned by Mr. E.
Wareham, out in Broad Cove on the
other side of Cape Spear, was dam-
aged to the extent of \$30. A couple
of weeks previously it took \$70 to
repair the injury done it by the ice.
A trap owned by John Wareham, sr.,
was also damaged to the extent of
\$50, and others have suffered similar-
ly. Saturday large berg was in
Cape Bay amongst 8 traps set there
and it is feared that they have been
badly torn.

Indigestion & Dyspepsia

In all its forms can be cured.
It is quite a daily occurrence to
hear persons say: Oh, what a feeling
of distress I have after meals, fullness
of the stomach, heaviness and head-
ache, I feel too tired to do anything
I have no heart to exert myself and at
times I care for nothing. I often have
a pain in the pit of my stomach, no
appetite, my heart beats rapidly, on
the slightest exertion, I feel just as
tired when rising in the morning as
when retiring to bed. My sleep is
often disturbed, and I often awake
with a sense of suffocation and a
difficulty of again going to sleep. I
have to be careful of what I eat, and
my life seems a veritable burden.
Now, it seems a shame and a pity
for persons to be suffering like that
when it is in their power to get cured
by taking a Bottle of Dr. Stafford's
Prescription A. A sure cure for per-
sons afflicted with stomach troubles.
It can be obtained at
DR. F. STAFFORD & SON,

New Encyclopaedia.

THE 1911 NELSON ENCYCLOPAEDIA is based on the Harms-
worth's Encyclopaedia and the Nelson "Loose-Leaf." The amount of reading
matter has been slightly increased. The text has been retained from both the older
books, hundreds of new articles have been written and everything has been revised
and brought up to date. It will be issued in twenty-five fortnightly shilling
volumes in the handy size and neat cloth bindings familiar to all purchasers of the
Nelson Popular Libraries. The paper is of excellent quality. Illustrations and
diagrams elucidate the text where necessary and numerous full-page pictures add
to the interest and value of the work. The Encyclopaedia itself will occupy twenty-
three volumes and an English Dictionary and an Atlas as vols. 24 and 25, making
the whole set a complete Reference Library for the home.

Vols. 1, 2 and 3 now in stock. Price 25c. per vol.
