Special to Evening Telegram.
LONDON, To-day.
Tillett and Gosling, representing
the Transport Workers strike com-
mittee in the course of an interview
with the Home Secretary, offered to
co-operate with the home office in fa-
cilitating the transport of necessary
food supplies for London. Just how
far the strike leaders are prepared to
go, they did not divulge, but it is evi-
dent they realize the Government is
determined that the metropolis shall
not be forced to capitulate through
hunger. The leaders also realize pub-
lic sympathy is bound to be antago-
nistic to them with the prices of food-
stuffs leaping up. If provisions are
placed outside the pale of the strike,
the conflict at the docks could contin-
ue indefinitely in London without the
public being greatly inconvenienced.
The Government invited both parties
to send representatives to conference
at the Board of Trade on May 21st,
with the object of arranging a settle-
ment of the strike. The Stevedores'
Union adopted a resolution last night
calling upon the executive of the
Transport Workers' Federation to
declare a national strike.

There are now twenty parties be-
longing to the neighborhood of Alex-
ander Bay to be prosecuted under the
Deer Preservation Act. Sergeant
Noseworthy has been around there on
special duty for some time, and we
learn several more cases will be ad-
ded to the above number before the
prosecution commences. Magistrate
Miffen, of Greenspond, is now at
Alexander Bay, before whom the law-
breakers will be tried.

Fire Alarm.

At 11 o'clock to-day the Central and
East End Companies were called to
Field Street where a fire broke out in
the house occupied by Mr. Jacob Brad-
ley. The fire was caused by a de-
fective chimney, sparks from which
ignited the chimney. A stream of
water from the chemical engine put
it out, and the damage done was only
slight.

Death of Mrs. Hill

The Christian Guardian says:—"The
many friends of Rev. Jabez Hill, a
superannuated minister of the Hamil-
ton Conference, now a resident in To-
ronto, will regret to hear of the death
of Mrs. Hill, who passed away on
April 20th. Mrs. Hill had been poorly
for some months, and the end was
not wholly unexpected. The deceased
was born in England, and had been
thirty-five years mistress of a Meth-
odist Parsonage, and had proved her-
self a helpmeet indeed to her husband.
Interment took place in Mount Pleas-
ant Cemetery." The Rev. Jabez Hill
is an ex-President of the Newfound-
land Methodist Conference, where he
spent over a quarter of a century in
the active work.

Congratulation.

We congratulate the Rev. Mark
Fenwick, D.D., on the honour con-
ferred on him by Sackville University,
and we hope that the reverend doctor
may long continue to enjoy the es-
teem of his fellow-workers and citi-
zens generally.
We also congratulate Mr. N. M.
Guy on his graduation and on the dis-
tinction he won in taking the Senior
Oration Prize, and Mr. W. F. Hutch-
ings on winning the Sophomore prize
in Chemistry; and in our words of
congratulation we include Mr. Robert
A. Dawe, of Bay Roberts, and Messrs.
Adams, Davies, Guy, Hann, Phillipson,
Pickering and Winsor, who are stu-
dents of the Newfoundland Confer-
ence.

**Bishop Gore
on the Labor
Movement**

AND COLOUR QUESTIONS.

In the International Review of Mis-
sions for April Bishop Gore writes on
foreign missions and social questions.
He says:—"The labour movement makes
throughout Europe a great claim for
justice. And in spite of the faults and
exaggerations which attend upon the
movement, it ought in its broad
lines to enlist the sympathy and co-
operation of all who call themselves
Christians. The Bible shows an ex-
traordinary care for the worker. The
believer in the Bible will hold that
the first charge upon any industry
is the proper treatment of the labour-
er. The inspired prophets of God
denounce the divine judgments upon
all those who "grind the faces of the
poor." That is to say, who use sweat-
ed or inadequately remunerated labour
to accomplish their own enrichment.
It ought to cause the Christian Church
the gravest anxiety to find that they
have been, on the whole, so in-
different to the claims of labour; on
the whole so much more anxious to
protect the rights of property than to
protect the poor; so much more ready
at the best, to comfort the fallen and
bind up the wounded in the industrial
struggle than to assert their rightful
claims against the tyranny or injus-
tice of the strong. It is indeed some-
times said that our Lord had His
eyes fixed upon the spiritual interests
of the Kingdom of God and paid no
attention to social or political con-
ditions. But it has to be remembered
that He had behind Him the Old Tes-
tament, and that He identified Him-
self with its message.

Received Medals

The members of the Crescent hock-

1912, have received their gold medals
which were imported here by T. J.
Duley, watchmaker. They are of un-

his team are to be congratulated
again on their victory, as this is the
third season in succession they have
captured the laurels.

**Australian
Cricketers**

MAKE GOOD SHOWING.

London, May 21.—The Australian
cricket eleven made a splendid show-
ing yesterday in the match with the
Marylebone Cricket Club. The latter
organization, which includes the best
cricketers in England, was dismissed
for 169 runs. Australia scored 204
runs for the loss of two wickets. This
is the best score made by the Colo-
nials during the present tour, and as it
was made against what is practically
an all-English team, it indicates the
real playing strength of the visitors,
and at the same time dispels the fear
that, owing to absence from the team
of several old-time prominent players
it would hardly reflect credit on Aus-
tralia.

At Oxford the South Africans fared
poorly. Playing against an eleven
from Oxford University, the scores
were one-sided. Oxford scored 278,
and the South Africans lost two wick-
ets for 35 runs, when play ceased for
the day.

ing schooner to arrive at the home
port was the Lucy House, with 1,200
quintals.

Cable News.

Special to Evening Telegram.

LONDON, May 28.
A force of 2,000 policemen, mobil-
ized in the vicinity of the London
dockyards, has thus far been able
successfully to circumvent the design
of the striking transport workers to
fasten a famine on the people of Lon-
don, as the quickest means of secur-
ing concession to their demands. The
men still express themselves as de-
termined to insist on the recognition
of the unions, demand the exclusion
of non-unionists from the port of Lon-
don, a uniform rate of wages for all
ship work, with a minimum of seven
shillings and sixpence a day. They
have posted pickets everywhere
around the dock entrances. Big meat
supply firms of the metropolis have
been successfully running the block-
ade of pickets to-day with lorries laden
with hundreds of tons of chilled
and frozen beef. Smithfield meat mar-
ket was better stocked to-day than
usual. The Government has given
assurances that it will furnish all the
protein unneeded of the food supplies.
This evidence that the authorities in-
tend to make good their promises has
greatly irritated the strikers, who
find themselves thus faced with al-
most certain failure, if the strike is
localized in London. The danger of
a national strike is therefore more
acute. It seems probable that all the
transport workers of the Kingdom
will be called out, possibly to-mor-
row. The effect of the strike on pro-
vincial ports is already considerable.
Shipping companies at Glasgow, Hull
and other centres, trading with Lon-
don, have been compelled to suspend
their sailings, thus throwing many
thousands out of work. With the ex-
ception of food supplies, the whole
trade of the port of London is now
paralyzed. Not a truck wheel is
moving in the streets. Beyond verbal
demonstrations, the strikers, over-
powered by a big force of police, have
not attempted any disorder. Their
number is now estimated at 40,000.

THE DOCTOR'S WIFE

Agrees With Him About Food.
A trained nurse says: "In the prac-
tice of my profession I have found so
many points in favor of Grape-Nuts
food that I unhesitatingly recommend
it to all my patients."

"It is delicate and pleasing to the
palate (an essential in food for the
sick), and can be adapted to all ages,
being softened with milk or cream
for babies or the aged when defici-
ency of teeth renders mastication im-
possible. For fever patients or those
on liquid diet I find Grape-Nuts and
albumin water very nourishing and
refreshing. This recipe is my own
idea and is made as follows: Soak a
teaspoonful of Grape-Nuts in a glass
of water for an hour, strain and
serve with the beaten white of an
egg and a spoonful of fruit juice or
flavoring. This affords a great deal
of nourishment that even the weakest
stomach can assimilate without any
distress."

"My husband is a physician and he
uses Grape-Nuts himself and orders
it many times for his patients."

"Personally I regard a dish of
Grape-Nuts with fresh or stewed
fruit as the ideal breakfast for any-
one—well or sick." Name given by
Canadian Postum Co., Windsor, Ont.
In any case of stomach trouble,
nervous prostration or brain lag, a 10
days trial of Grape-Nuts will work
wonders toward nourishing and re-
building, and in this way ending the
trouble. "There's a reason" and
trial proves.

Apply Zam-Buk to all
wounds and sores and you
will be surprised how quickly
it stops the smarting and
brings ease. It covers the
wound with a layer of pro-

**Household
Science.**

Yesterday afternoon a number of
gentlemen accepted the invitations of
the Superintendents of Education to
witness one of the Household Science
Classes take a lesson in Cooking in
the Household Science School, Har-
vey Road. The Bishop of Newfound-
land, Canon White, Canon Bolt, Rev.
Mark Fenwick, Rev. Father Doutney,
Rev. F. R. Matthews, Rev. J. Brinton,
Rev. Fr. Sheehan, the Mayor, Supt.
Blackall, Supt. Burke, Supt. Hanra-
han, Hon. Patrick McGrath, and
Messrs. J. W. Withers, M. Devine and
W. F. Lloyd attended. In the class
were about twenty girls from the dif-
ferent schools of the city, some of
them being teachers in training. Miss
Wright, a graduate of Household
Science of the Macdonald Institute,
Guelph, Ontario, is in charge of the
school, which is attended by girls of
all denominations drafted from the
schools of the city.

The school is held in a large airy
room of the St. Vincent de Paul
building, which has been loaned gen-
tly for the experiment which has now
been in being some months. In it has
been installed a cooking range and a
number of cooking tables are arrang-
ed in the form of a hollow oblong,
with the middle of one side broken,
and a demonstration table in the
centre of the oblong. Each table is
a natty contrivance. During demon-
strations the girls draw up chairs to
them and use them as desks. During
practice they are used as cooking
stands. The top is double; the sur-
face layer, being of soft white
wood like a bread board; part of it is
covered with wire matting on which
to place pans, and each table is sup-
plied with a gas heater for pans. The
table contains a number of drawers,
in which are kept cooking utensils
and boxes for flour, sugar, pepper,
salt, &c.

Yesterday Miss Wright gave a short
lesson in beef cooking. On the black-
board she had a sketch of an ox
of which she used to tell of the dif-
ferent cuts and their economic and
food values and the methods of cook-
ing. She then dealt with meat soup,
and after the demonstration the girls
took up the lessons in a practical
way, and took their various parts in
preparing the soup and tested what
they had prepared by partaking of it,
and at the suggestion of the Bishop
offering some of it to their guests.
While the soup was simmering,
Supt. Blackall invited Supt. Burke,
who has been in general charge of
the project, to tell what he had done.
Mr. Burke did so, and he was followed
by Bishop Jones, Rev. M. Fenwick and
Supt. Hanrahan, who commended the
effort warmly.
