the Matter of the Election Act 1913, and in the Matter of the Prohibition Plebiscite Act, 1915.

This is an application to reverse the

rder of Mr. Justice Johnson appointing a time to proceed with the recount of votes taken at the election under the Prohibition Plebiscite Act. The der was obtained upon an affidavit of Nicholas Vinnicombe wherein it is alleged that this witness, who attended the Count in St. John's, believes hat the Returning Officer improperly ounted and summed up the votes. Exception has been taken to the af-fidavit on the ground that the facts upon which the deponent's belief is founded are not set forth. The statut able provision regulating the procedure to be followed with respect to recounts is to be found in the Election ct, 1913, which is incorporated by ference in the Prohibition Plebis ite Act, 1915, and is section 109 of the rst named Act. It provides that in case it is made to appear on the affi-lavit of any creditable witness, to a ludge of the Supreme Court that such tness believes that the Returning Officer at any election in countin e ballots has improperly counted or jected any ballot papers at such elecion or has improperly summed up the votes the said Judge shall, within four days after the receipt of the said affi-davit by him, appoint a time and place at which he will proceed to recount the same or to make such final addiion. In construing this section it

Mr. Dunfield of Counsel for the appellant in the course of a carefully reasoned argument has contended that, assuming an irregularity to have affected particular ballot boxes as these are separable from the other was shown at the British Theatre last boxes the recount should be restricted night. Each episode is more interestto the ballot boxes referred to in the affidavit and should not extend to others. This is an argument drawn from convenience and after considering it in conjunction with what has
