CHAMPION!

The simplest and most easily operated Engine made. Built for hard work and to give dependable service always. The CHAMPION Oil Engine is true to its name. IT IS THE CHAMPION of them all.

Built to outlast the Boat. Fewer parts-less wear and NO trouble. Designed especially for the needs of the Newfoundland Fisherman.

The CHAMPION IS NOT AN ORNAMENT.

But a sturdy machine for the Fishing Boat, always ready to go when you are, takes no account of the weather and keeps going as long as there is fuel in the tank. Put in a CHAM-PION and forget there ever were such things as engine trouble.

The CHAMPION uses double Ignition-fuel and water systems, and is

Guaranteed for Ten Years.

It is built here in Newfoundland where you can get any piece or part at any time. The Factory is behind you and will protect you.

BUY A CHAMPION ENGINE. BUY A CHAMPION SHARE.

Then Hurrah for the Champion Engine and Factory.

Department of the Custom ask the Hon. Minister Customs to lay on the

and Customs to lay on the this House a detailed statethe expenses incurred by the the Prime Minister during ce from this Colony attendthat hat hath shall be given," and Mr. Cashin—I don't know.

There were some items to which he the first five hundred men across to ite, and quoted the report of the Marine and Fisheries Minister to the effect that our prosperity was exceptional, and that a year of bad fisher-

perty of the all reason. Then there was the salary taken it if it had been necessary to servant, for sitting in the Legislative her present of the Judge of the Central Court, carry on the war. In regard to the Council about one hour during last Last year it was increased from Civil Servants, he said he heard no session when he had no business when the chairman pulled down \$2,400 to \$3,600 and it was now incomplaints from them about the in-whatever to be there. No one on the \$2,400.00 of this—and asked if there Mr. Walsh.

House a detailed statement of the retott asked the following ceipts and expenditures of his Departof \$700 added to his salary, was to ning steamers. could asked the following country asked the following country should be good enough to fill per cent. higher the shortages in the local country, should be good enough to fill per cent. higher the following country should be good enough to fill per cent. higher the following country should be good enough to fill per cent. higher the following country should be good enough to fill per cent. higher the following ceipts and expenditures of his Departing fence of Port Union, the bay steam—An officer of the Regiment should have been given the position and not office to date.

Mr. Coaker then jumped to the defight, capable of filling this position. Quests were completely ignored. He ment from the commencement of that have been given the position and not office to date.

Mr. Currie—If the cost of running ship service and the Reids. He told have been given the position and not steamers had gone down, would the of the losses of the latter, even the present holder. Men who were also had the nice fat salary of \$3,500 also have another \$600 added to his salary, was to ment from the commencement of that have been given the position and not steamers had gone down, would the of the losses of the latter, even the present holder. Men who were also had the nice fat salary of \$3,500 also had the nice fat

The House then went into Commit- than those of the Colonial Secretary ter. tee on Supply, Mr. Goodison in the or other departmental heads. The Mr. Currie—The principle is just twenty months. He told of the spur and was the right man, and nothing Chair.

Bay steamship service was then dealt the same. Bowrings' had not receive line, how valuable it was to the was too much for him. He deplored In opening the debate for the Op- with, and he showed where an in- ed any increased subsidy. House a statement of all position, Mr. J. S. Currie (Burin), creased subsidy was paid the Reid by all departments of the by all departments of the to Moore & Co., for work ince January 1st, 1913. Leader, made some criticisms on the service of \$26,000, or double what the ince January 1st, 1913. It is the Hon. Minister of 600,000 lower than those they were \$1. ustoms to lay on the now asked to vote upon, and he could of the people, but only in the interest ernment Engineer by explaining the so valuable to them. Mr. Coaker conserved, he for one would utter a puse a statement of all not help asking the question, where of one business concern operating superior work they were called upon tinuing, said the only people protestthe House a statement of all paid to Mr. P. T. McGrath, P. T. McGrath, either as alpenses, or commissions, since 1st, 1913.

To ask the Minister of Militia in the table of the House any large of the contract. He had to the House any large of the contract. He had to the House any large of the contract. He had to the House any large of the contract. He had to the House any large of the contract. He had to the House any large of the contract with the Reid Co. The but he himself, was asking for an interaction of the contract. He had to the House any large of the contract with the Reid Co. The said the Auditor-General talked of it, service were a few bugset same the present bay steamship to do. In speaking of economy he ing against the present bay steamship to do. In speaking of economy he ing against the present bay steamship the above increase for only four men, said the Auditor-General talked of it, service were a few bugset was very unjust dealbut he, himself, was asking for an interaction of the contract. He had to the House any large of the country along the departments of Shipping of the troubles and trials of the Natherland of the contract. He and Militia to go out of existence tional Government cannot see they were 50 years ago. He then told their way clear to give to the 251 pecting the departments of Shipping of the troubles and trials of the Natherland of the contract. He and Militia to go out of existence tional Government also allowed the Reid Co. The but he, himself, was asking to do. In speaking of economy he ing against the present bay steamship to do. In speaking of economy he ing against the present bay steamship to do. In speaking of economy he ing against the present bay steamship to do.
