

College Days Ahead

Their Education was provided by Their Fathers' will

CHILDREN are apt to grumble about school sometimes, finding classes irksome. They need a firm, parental hand—but the time comes when they are very glad of their education.

"How can I make sure that they will continue their schooling after I am gone?" he asked his wife when they told him he had better put his affairs in order for the last time.

She, poor woman, stricken with the verdict the doctors had pronounced, could offer no suggestions. But he found a way. He made a will, leaving the proceeds of one of his Mutual Life policies to be set aside for the purpose, and naming a trustee to help the mother administer this fund.

You, too, are anxious to insure the education of your children, whatever may happen. Let our agent explain the benefits of the Mutual Life Educational Endowment Policy, specially designed for safeguarding this important purpose. Write this office for "The Mutual Book".
