MALARIAL poisons contain the germs of dangerous diseases. If these poisons accumulate in the system, Typhoid, Bilious, Intermittent or Chills Fever is sure to follow. Ayer's Sarsaparilla is a warranted specific for malaria.

A PROCURER'S SENTENCE.—Mary Wilton, St. Thomas, was brought up on remand at the police court Tuesday on the charge of keeping a house of ill-fame and enticing young girls into the same for immoral purposes. A SURE RELIEF. I suffered from a hard cough contracted by damp feet. Having consulted a local doctor without effect I thought I would try Hagar's Pectoral Balsam as a last resort. Before I had finished the first bottle my cough had entirely disappeared, and today I enjoy better health than ever before. I can conscientiously recommend it. Chas. H. Kent, telegraph operator, East Selkirk, Man.

A LAST RESORT. Last summer, says Wm. J. James of Athol, Ont., I felt very miserable with pains over my kidneys, fluttering of the heart and nervousness; after taking different kinds of medicine, hearing of B.B.B. I thought I would try it; one bottle completely cured me. I can highly recommend it to others.

Whether on land or at sea, on the prairie or in the crowded city, Ayer's Pills are the best cathartic, being pleasant, efficacious and safe. For torpid liver, indigestion and sick headache they never fail.

OLD DR. CHASE'S
NEW RECEIPT BOOK.

His Last and Crowning Life Work.

Dr. Chase's Third, Last and Complete Receipt Book and Household Physician, or the Book for the Million, contains nearly 900 pages and sells for \$2.25 in cloth binding and \$2.50 in imported oil cloth, marbled edge, and is justly by him called

"The crowning work of my life."

It is the result of over half a century's observation, study and experience. Yet this embodies no compilation of his former books. IT IS WHOLLY A NEW BOOK. If 20 years ago he could produce a book that has had a sale of over 150,000 copies, and has made his name familiar in nearly every English-speaking home in the United States, Canada and thousands of homes in Europe, Australia and South America, what kind of a book could or would he produce at his Chevroix Litz Wenz, with more than thirty years of additional practice and experience? The book itself answers the question, and is the most valuable production in the history of book publishing.

Caution! Unscrupulous and pirating publishers are attempting to copy this book by taking portions of it out and palming it off on the public as the complete work. We own the manuscript, purchased from Dr. Chase's heirs. See that you get the original book. See that it has our name on the title page and is copyrighted by us.
