THE ONTARIO HOUSE

The Price and Character of School Text-books Discussed—The Provincial Exhibition Grant

Toronto, Wednesday, March 15.

The proceedings in the Assembly to-day

centered on the educational policy of the

Government regarding the authorization of

text-books in use in high and public

schools, the discussion being brought on by

a motion of Mr. Preston, asking for a

return of copies of the evidence taken be-

fore the arbitrators, in the year 1889, on

the prize of school text-books, with the

award of the arbitrators thereon.

Mr. Preston asked whether the grant for

the Provincial Exhibition being abolished,

what disposition is to be made of the \$6,000

placed in the estimates for the Agricultural

and Arts Association, and what are the

reasons why the Minister of Agriculture

should not deal with the subject.

Hon. Mr. Drury replied in reply the follow-

ing minutes of the Agricultural and Arts

Association.

The Committee on Finance beg leave to

recommend that the association apply to

the Legislature for the following sums to

enable it to meet the expenditure for the

year 1889:

Prize farms.....\$ 300

Salaries.....750

Council expenses.....300

Postage, express, etc.....200

Printing.....800

Stationery.....1,000

Veterinary College.....1,000

Plowing matches.....1,000

Government had been called to the doubts

expressed as to the rights of voters who

names appear on the list of voters without

the letters "M. F." opposite them to vote.

In the intention of the Government to

propose any legislation designed to remove

such doubts?

The Attorney-General replied that he was

not aware that any difficulty took place

under the act. He had never heard that

the purpose of the act was misconstrued,

consequently the Government did not pro-

pose any legislation on the matter.

Mr. Preston asked for a return of copies

of the evidence taken before the arbitrators

in the year 1889 on the prize of school

text-books, with the award of the arbi-

trators thereon; also all correspondence on

the subject of preparing or publishing

school text-books with the prepara-

tion or publication of school text-books,

subsequent to that already brought down.

Mr. Preston made a lengthy address in

support of his motion, in which he reviewed

the policy of the Government in regard to

the appointment of a responsible

Minister. He charged that there were too

frequent changes in the use of text-books

in the schools.

Mr. G. W. Ross, in prefacing his ad-

dress, said that he had to reply annually

to the resolution proposed by Mr. Preston.

He explained the policy during the

Ryerson and Crooks regime to provide

the country with a variety of text-books.

The same system is in vogue in England

and Scotland. California is the

Irish and Scotch. The policy was

introduced in the year 1889, when the

Government had been called to the doubts

expressed as to the rights of voters who

names appear on the list of voters without

the letters "M. F." opposite them to vote.

THE LONDON ADVERTISER, THURSDAY, MARCH 20.

THE LADIES!

A New and Distinct Form of Dress
Now some of Them Regained Fresh
Complexion, Perfect Health and
Superb Physical Beauty.

A great London
Physician says that
he notes a new and
distinct form of
nervous disease pro-
duced in Canadian
women by worry
about servants and
overwork in caring
for the home. This
disease is called
"The Ladies' Disease."
It is why we see so many
ladies pale, weak, languid, and suffering
from headaches and innumerable weak-
nesses. They cannot stand the strain upon
their nervous system. Many of them have
found the means to sustain their failing
strength, to give color to the cheeks, and
new life and vigor to the body, in Paine's
Celery Compound. This pure and scientific
remedy is especially adapted to the needs
of women, and is daily making the most
remarkable cures.

60 St. Hyacinthe St., Montreal, was for a
long time troubled with nervous headaches,
loss of appetite, low spirits, etc. After
using the Compound, her headaches dis-
appeared, her appetite was good, and her spirits
revived.

Annie Gourley, of River Beaudette,
P.Q., found the Compound a certain cure
for weakness, and now feels as well as she
ever did.

Many a Canadian lady has the same
reason to be grateful.

Paine's Celery Compound can be pur-
chased at any druggist's for one dollar a
bottle. If he should not have it on hand,
order direct from WELLS, RICHARDSON &
CO., MONTREAL.

About Boiling Clothes
and Disease-Breeding Germs

Dr. H. M. Lassing, in an
article in *American Analyst*,
says: "The dirt and all
soap must be entirely re-
moved from the interstices
of the clothes, and all mi-
crobes must be destroyed.
The only and easiest way to
do this is by heating the
water in which the clothes
are contained to the boiling
point. The boiling water,
by constant self-agitation, is
forced through the inter-
stices of the fabrics, and thus cleanses them from dirt and
disease-breeding microbes as they can be cleaned in no
other way, and without in any manner injuring the fabric."

James Pyle's Pearline will wash in hot or cold,
hard or soft water, and by any of the so-called "new
labor-saving methods," but for the easiest and best way
of washing, refer to the directions for washing by boil-
ing given on back of each package of Pearline.
